B. ADDITIONAL INFORMATION REQUIRED UNDER BURSA SECURITIES MAIN MARKET LISTING REQUIREMENTS

B1. Review of group results for the quarter ended 31 March 2014

The Group recorded revenue from continuing businesses of RM17.5 million during the quarter under review. This is a 46.5% decrease compared to the RM32.8 million revenue recorded during the same quarter last year. This is due to the reduction in revenue for certain clients under the international payroll outsourcing business.

The Group recorded a Loss Before Tax of Continuing Operations of RM0.6 million for the quarter under review. This is mainly attributed to the recognition of loss on disposal of Symphony BPO Solutions Sdn Bhd of RM0.5 million as well as lower profit contribution from the share issuance and registration solutions due to the weaker capital market activities during the quarter under review.

B2. Variation of results against the preceding quarter

	Quarier	enaea
	31.3.2014	31.12.2013
	RM'000	RM'000
Revenue	17,538	14,661
Profit / (Loss) before impairment	(50)	3,728
Impairment of Goodwill	-	(40,616)
Profit / (Loss)from continuing operations, before tax	(550)	(36,888)
Profit / (Loss)from discontinued operations, net of tax	441	(3,393)
Profit / (Loss) after tax and minority interest	(798)	(40,840)

The current quarter's revenue of RM17.5 million is 19.6 % higher than previous quarter's revenue of RM14.7 million. This is largely due to the re-consolidation of Symphony HRS Sdn Bhd's revenue which was previously classified as held for sale, as the sale of the business was aborted in late last year.

The Group recorded a marginal Loss Before Tax from continuing operations of RM0.6 million compared to Loss Before Tax from continuing operations of RM36.9 million in the previous quarter due mainly to the RM40.6 million impairment made on goodwill of BPO business accounted for in the previous quarter.

B3. Prospects for the Year 2014

Post completion of the disposal of Symphony BPO Solutions Sdn Bhd in March 2014, the Group still has the remaining international payroll solutions. This business is now focusing on completing the implementation of secured projects in Japan and Europe, which have experienced some delays in the previous year.

On the domestic outsourcing business which remains in the Group's core continuing business, we are cautious on the prospects of the stock market listing and the corporate exercises by listed companies, as the visible pipeline is generally weaker than in the previous year.

B4. Profit forecast

Not applicable as the Company has not provided a profit forecast for the quarter under review.

The effective tax rate for the current quarter under review was higher than the statutory tax rate mainly due to the losses of certain subsidiaries which cannot be set-off against taxable profits made by other subsidiaries and certain expenses which are not deductible for tax purpose.
