**PART B: ADDITIONAL INFORMATION REQUIRED BY THE MAIN MARKET LISTING REQUIREMENTS OF  
BURSA SECURITIES**

**B1. Review of Performance**

**Q2 2012 VS Q2 2011 - Profit Before Tax**

The Group's profit before tax (PBT) for the quarter ended 30 June 2012 (Q2 2012) was RM1.6 million, an increase of RM1.5 million (1137%) compared to the corresponding quarter, Q2 2011 of RM0.1 million.

The higher PBT was mainly due to the effects of a cost rationalization initiative which commenced in 2011. The key expense categories that reduced significantly include; Administration expenses (reduced by 19%) and Depreciation expense (reduced by 52%). In addition to immunizing the Group from future ongoing losses, the disposal of the China subsidiaries in April 2012 also resulted in the realization of a one-off RM0.4 million gain in Q2 2012.

**Q2 2012 VS Q2 2011 - Segment Revenue**  
**Continuing operations**

The Group's total Q2 2012 revenue declined by RM2.3 million (15%) to RM12.7million (Q2 2011 RM14.9 million). The decrease was mainly caused by lower outright sales of hardware and cards (amounting to RM3.3 million) offset by an increase in terminal rental and maintenance (amounting to RM0.3 million) which fall within the Shared Services business. As in the previous quarter, the Group's revenue mix shifted from non-annuity hardware and card sales to recurrent annuity revenue from rentals and maintenance.

**Shared Services** Overall Q2 2012 revenue reduced by RM1.7 million (14%) to RM10.0 million (Q2 2011 RM11.7 million). The decline was mainly caused by lower outright hardware and cards sales of Malaysia (RM1.5 million) and Philippines (RM0.8 million). This in turn was offset by increases in rental and maintenance income from Malaysia and Philippines (RM0.5 million).

**Solutioning** Revenue decreased by RM0.6 million (22%) to RM2.3 million (Q2 2011 RM2.9 million). This was due to lower Malaysia revenue of RM1.7 million as offset by higher revenues in Philippines (increased RM0.9 million) and Thailand (increased RM0.2 million) arising from software and maintenance revenues within the Solutions business.

**Transaction Payments Acquisition ("TPA")** which comprises of e-debit transaction payment processing in Malaysia and Thailand increased by 12% driven by higher acceptance of e-debit merchants.

## **B1. Review of Performance (continued)**

### **Q2 2012 VS Q2 2011 - Revenue & Result by Country**

#### **Continuing operations**

Malaysia revenue for Q2 2012 was RM8.5 million (Q2 2011 RM11.6 million), a decline of 27%. This was mainly due to lower Shared Services and Solutioning revenues of RM1.5 million and RM1.7 million respectively. While these overall reductions were caused by lower outright hardware, card and solution services sales, these were offset by increases in the underlying annuity businesses of; rental, maintenance and TPA.

Philippines revenue for Q2 2012 improved by RM0.6 million to RM2.7 million (28%) (Q2 2011 RM2.1 million). The increase resulted from higher solution services sales (RM0.9 million) offset by lower hardware sales within Shared Services (RM0.3 million). The Solutions business, although small at present, grew rapidly by 437% which, by virtue of its higher margins, resulted in improved net results for Philippines.

Thailand Q2 2012 revenue increased by RM0.2 million to RM1.4 million (Q2 2011 RM1.2 million). The increase resulted from a marginal increase in Shared Services revenue of RM0.1 million and Solutions revenue of RM0.2 million. With a change in the revenue mix and some cost control initiative, Thailand's operations also turned around from a loss of RM0.3 million in Q2, 2011 to a profit of RM0.2 million in Q2, 2012.

### **1H 2012 VS 1H 2011 - Profit Before Tax**

The Group's PBT for the cumulative 6 months ended 30 June 2012 (1H 2012) was RM2.7 million, an increase of 286% of RM2 million compared to 1H 2011 of RM0.7 million.

The higher PBT resulted from a change in the revenue mix, tighter cost control and the exit from loss making operations in China.

### **1H 2012 VS 1H 2011 – Segment Revenue**

#### **Continuing operations**

The Group's total revenue reduced by RM4.4 million (15%) to RM24.4 million (1H 2011 RM28.8 million). The reduction was caused by lower outright sales of EDC hardware and cards both within the Shared Services business.

**Shared Services** Overall revenue reduced by RM4.5 million (19%) to RM19.5 million (1H: 2012 RM24.1 million). The decline resulted from lower outright sales of EDC hardware and cards. This is consistent with the Group's strategy of focusing on building long term annuity revenue streams as opposed to non-recurrent outright sales of hardware and cards.

**Solutioning** Total revenue increase by RM0.1 million (1.7%) to RM4.2 million (1H: 2011 RM4.2 million). This was due to increases in software services sales in Philippines and Thailand.

**Transaction Payments Acquisition ("TPA")** Overall revenue increased by 12.3% to RM0.6 million (1H: 2011 RM0.5 million) due to higher merchant acquisition rates and market acceptance of e-debit transaction mainly in Malaysia.

**B1. Review of Performance (continued)**

**1H 2012 VS 1H 2011 - Revenue & Result by Country**  
**Continuing operations**

Malaysia's revenue for 1H 2012 was RM17.9 million, a reduction of RM3.4 million (16%) from the 1H 2011 (1H 2011 RM21.3 million). The reduction was due to a reduction in outright EDC terminals, cards and Solutioning sales. Malaysia's results improved by RM0.4 million to RM1.6 million (1H 2011 RM1.2 million) because of effective cost management and the change in revenue mix.

Philippines's revenue marginally reduced by 6% or RM0.3 million from RM4.9 million to RM4.5 million. The reduction was caused by lower outright EDC hardware sales (RM1.9 million) offset by an encouraging RM0.9 million (434% growth) in Solutioning revenues. Philippines's results however, increased by 65% (RM0.4 million) principally due to improved profit margins from Solutioning sales.

Thailand's revenue reduced by RM0.8 million (29%) from RM2.6 million to RM1.8 million due to lower outright sales of hardware within the Shared Services business. The company continues to change its revenue mix from non-recurring hardware sales to long term annuity revenue streams arising from its rental and maintenance business. Thailand also turned around from a loss of RM0.5 million in 1H 2011 to a small profit in 1H 2012. The improvement in results was mainly due to cost rationalization and the change in its revenue mix.

\* The chart excludes China operation as it has been disposed.

**B2. Current Year's Prospects**

The Group continues to grow its businesses with the aim of becoming the leading payment service provider in South East Asia.

In respect of Shared Services, the Group is focusing on building strong and sustainable annuity revenue through rental and maintenance of EDC terminals in order to reduce the dependency on less predictable outright hardware and card sales. The Board remains committed to expending the necessary sales resources to increase merchant acquisition rates and the terminal base.

In respect of Solutions, the Group is presently enhancing its existing software and hardware products to cater for new market segments. While no significant growth is anticipated this year, the benefits should be felt in 2013 and beyond. We have just completed implementing a solution for a major Telecommunications company in Australia and are now in the second phase of implementation. We are presently implementing a nationwide prepaid card rollout for a major fast food chain in Philippines. In Thailand, the internet donation portal for 2 of the largest temples has just started to generate annuity income for the Group..

In respect of the TPA business, the Group is investing significantly in hiring new people and setting up regional offices in order to scale up merchant acquisition rates. In Malaysia, acquisition is centred around the e-debit product which is central to the Government's strategy of reducing cash payments. The TPA segment has been registering double digit growth over the past few years and this is expected continue into the future.

Despite lower revenue recorded in 1H 2012, the financial performance of the Company has improved significantly compared to same period last year. This was simply due to the change in the revenue mix, better cost control and the exit of loss making operations in China.

\* The chart excludes China operation as it has been disposed.

**B3. Profit forecast and Profit guarantee**

The Company has not issued any profit forecast or profit guarantee for the current year.
