The Group recorded a lower revenue of RM17.27 million as compared to the previous quarter ended 31 December 2023 ("6Q2023") of RM41.83 million mainly due to several cultural festivals and events which can influence travel patterns. This can lead to a noticeable decrease in travel in current quarter compared to the previous quarter.

B3 Prospects

With the announcement by China Embassy in Malaysia on 24 November 2023, the Chinese government will implement a 15-day visa-free policy for Malaysian citizens holding ordinary passport. This has attracted more travellers to enter China which the Company sees as an opportunity to leverage and increase the revenue.

Although the operating environment is expected to remain competitive, our group continuously improves marketing strategies and introduces new products. With a wider spectrum of travel products and services offered through multiple distribution channels, catering to various customer segments in Malaysia and beyond, we expect better performance in the upcoming financial year.
