The adoption of Amendments to FRS 7 which promotes enhanced disclosures on fair value measurement of financial statements via the introduction of the concept of fair value hierarchy, will only affect disclosures and will not have any impact on the results of the Group. The adoption of other FRSs, amendments to FRSs and IC Interpretation does not have any material impact on the financial performance or position of the Group except the revised FRS 3 and the amendments to FRS 127 as described below:

(a) Revised FRS 3: Business Combinations

The revised FRS 3 introduces changes in the accounting for business combination occurring after 1 July 2010 and it is applied prospectively. The FRS establishes principles for recognizing and measuring the identifiable assets acquired, the liabilities assumed and any non-controlling interest in acquiree. Each identifiable asset and liability is measured at its acquisition-date fair value. Any non-controlling interest in an acquiree is measured at fair value or as the non-controlling interest's proportionate share of the acquiree's net identifiable assets.

Goodwill is measured as the difference between the aggregate of the consideration transferred, any non-controlling interest in the acquiree and, in a business combination achieved in stages, the acquisition-date fair value of the acquiree's previously held equity interest in the acquiree, and the net identifiable assets acquired. If the acquirer has made a gain from a bargain purchase, that gain is recognised in the income statement. The FRS also provides accounting requirements for reacquired rights, contingent liabilities, contingent consideration and indemnification assets.

(b) Amendments to FRS 127: Consolidated and Separate Financial Statements

The main changes include the accounting for changes in ownership interest in a subsidiary, where changes in ownership which do not result in the loss of control are now accounted for within equity instead of the income statement. Where an entity loses control of a subsidiary, any remaining investment is re-measured at fair value and a gain or loss is recognized in the income statement. The term minority interests were replaced by the term non-controlling interest, with a new definition. Total comprehensive income attributed to the owners of the parent and to the non-controlling interests, even if it results in the non-controlling interest having a deficit balance.

The revised FRS 127 requires retrospective application with certain exceptions as permitted under this standard.
