QUARTERLY REPORT

Notes on the quarterly report for the financial period ended 30 September 2022

Part A - Explanatory notes pursuant to Malaysian Financial Reporting Standard 134 ("MFRS 134") Interim Financial Reporting

The interim financial statements are unaudited and have been prepared in accordance with the requirements of MFRS134: Interim Financial Reporting, IAS 34: Interim Financial Reporting and Rule 9.22 and Appendix 9B of the ACE Market Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Securities") ("ACE LR").

A2. SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies and methods of computation applied in the unaudited condensed interim financial statements are consistent with those adopted and as disclosed in the Group's annual report for the financial year ended 31 December 2021.

The Group has adopted the new and revised Malaysian Financial Reporting Standards ("MFRSs"), amendments to published standards and IC Interpretations that became mandatory for the current reporting period. A3. AUDITORS REPORT ON PRECEDING ANNUAL FINANCIAL STATEMENTS

There was no audit qualification on the annual financial statements of JAG for the financial year ended 31 December 2021.

A4. SEASONAL AND CYCLICAL FACTORS

The Group's business operations were mainly attributable (i.e. contributing approximately 98% of its total revenue) from its manufacturing and trading segments involving recycling and recovery activities, which are affected by the cyclicality of the semiconductor. The semiconductor industry, in turn, is cyclical and dependent on its end user industries, in particular the electrical & electronic industries. The demand for semiconductors typically mirrors the trend in the demand for personal computers, mobile phones and other electronic equipment.

As the availability of electrical and electronic waste ("E-waste") for recycling and manufacturing services is dependent on the volume of E-waste discharged by semiconductor manufacturers, the E-waste recycling industry is also dependent on the trends in the semiconductor industry.
