The Group reported revenue of RM63.170 million for the current year ended 31 March 2021, representing a decrease of 6.7% as compared to the prior corresponding year ended 31 March 2020. For the current quarter ended 31 March 2021, the Group achieved revenue of RM17.011 million which was higher as compared to the prior year corresponding quarter of RM14.536 million. The decline in revenue for current year was attributable to decrease in revenue contribution from the precision machining and stamping segment and the manufacture of electronic components under others segment.

The Group's profit before tax for the current year ended 31 March 2021 amounted to RM3.050 million as compared to RM1.033 million reported in the prior corresponding year ended 31 March 2020. For the current quarter, the Group recorded a profit before tax of RM1.707 million as compared to a loss before tax of RM0.612 million in the prior year corresponding quarter. The increase in profit before tax for the current year and current quarter was due to the lower operating expenses as a result of the cost cutting measures especially during the period of the implementation of Movement Control Order by the Malaysia Government.

Precision engineering and plastic injection moulding segment

Revenue for the current year and quarter ended 31 March 2021 increased by 15.4% and 38.4% respectively as compared to previous year's corresponding period. The increase in revenue was due to higher demand from its existing and new customers.

Precision machining and stamping segment

Revenue for the current year ended 31 March 2021 decreased by 14.0% and current quarter has slightly increased by 1.8% as compared to previous year's corresponding period. The decrease was mainly due to lower demand as a result of the global Covid-19 pandemic which has disrupted the precision machining and stamping industry.

Gross profit

The Group's gross profit for the current year and quarter ended 31 March 2021 amounted to RM11.630 million and RM2.896 million respectively, representing an increase of 17.2% and 159.7% respectively as compared to last year corresponding period. The changes in gross profit were due to the lower operating expenses as a result of the cost cutting measures.

B2. Comment on material change in profit before tax

	Current	Preceding		
	quarter	quarter	Varia	nce
	RM'000	RM'000	RM'000	%
Revenue	17,011	16,443	568	3.5
Profit before tax	1,707	638	1,069	167.6

The Group recorded a profit before tax of RM1.707 million for the current quarter ended 31 March 2021 as compared to RM0.638 million recorded in the previous quarter ended 31 December 2020. The profit before tax was mainly attributable to the increase in revenue and gain on foreign exchange which affected by the strengthening of US Dollar against Ringgit Malaysia in the current quarter.

B3. Future prospects

The Group is of the view that the business environment remains volatile and challenging. The ongoing trade tensions between the United States of America and China have dented global growth. The global prospects remain highly uncertain one year into the Covid-19 pandemic. Economic recoveries are diverging across countries and sectors, reflecting variation in pandemic-induced disruptions and the extent of policy support. The implementation of Movement Control Order 3.0 in Malaysia to mitigate the spread of Covid-19 pandemic have restricted certain economic and social activities.

Besides, any significant movement in the exchange rate between Ringgit Malaysia and United States Dollar may result in foreign exchange gains or losses, which may also affect the Group's performance.

Premised on the above, the Group remains cautious on the overall outlook for financial year ending 2022.

B4. Statement by the Board of Directors on revenue or profit estimate, forecast, projection or internal targets

The Group did not announce any revenue or profit estimate, forecast, projection or internal targets for the financial year ended 31 March 2021.

Not applicable.
