Revenue of the current quarter (Q3-2022) is RM83.10 million, which is a decrease of RM51.02 million compared to the immediate preceding quarter (Q2-2022). The LBT of RM11.44 million is higher by 23% of the immediate preceding quarter (LBT of RM9.27 million in Q2-2022). The higher LBT recorded for current quarter ending 31 December 2021 is mainly due to higher operation expenses incurred for the expansion of new branches, purchased of additional new vehicles and recruitment of additional workforces which was in line with the expansion of logistics business activities.

B3 Prospects

The mobile and fulfilment division has been appointed by a few telecommunication companies as their 3rd Party Logistics ("3PL") and 4th Party Logistics ("4PL") partners. The primary objective of this partnership is for the division to act on behalf of the telecommunication companies to procure, process, store and deliver the business tools/devices/terminals to their customers with agreed SLA targets. To remain agile, the division will continue to embrace digitisation solutions to improve on productivity and continue to meet SLA in order to provide greater customer experience.

Given the fact that last mile delivery/courier business and warehousing are on the uptrend, the Group will accelerate the logistics business through direct and indirect business partnership arrangements. As for the performance parameters, the Group will continue to work on revenue enhancement and cost optimisation initiatives. Margin will continue to be a challenge in the courier & logistics service division as industry players will compete indirectly in the price game in order to get a bigger slice of the pie.

Following the COVID-19 pandemic, online shopping has become a new normal which has accelerated the growth in the e-commerce industry. With the increase in e-commerce transactions, efficient logistics services is important to ensure timely delivery of e-commerce products to meet customers' satisfactions. Logistics companies usually rely on belly space of commercial planes for air cargo logistic services for deliveries of products. However, the COVID-19 has dampened the aviation industry wherein the significant decline in passenger flights had caused shortage of belly cargo space and delays in deliveries. This in turn had increased the demand for charter flights for cargo space and capacity.

MJet's air cargo logistics business complements the Group's courier and logistics business undertaken by Line Clear Express & Logistics Sdn Bhd. The Group is able to provides integrated courier and logistic services with wider coverage of end-to-end services and shorter timeframe of delivery services, allowing the Group to further strengthen and expand its network and connectivity domestically and globally. The Board believes that with the positive prospects on the growth of e-commerce, there is a potential growth in the air cargo industry which will provide opportunity to grow MJets' air cargo logistics business.
