16. Performance Review (Continued)

(i) Comparison with previous year's corresponding quarter

The revenue and profit before tax for Sales and Marketing ("SSM") division increased by 126% and 111% respectively for the quarter ended 31 December 2022 as compared to previous year's corresponding quarter mainly due to increase in number of products sold.

The revenue and profit before tax for Technical Support and Management ("TSM") division increased by 95% for the quarter ended 31 December 2022 as compared to previous year's corresponding quarter mainly due to the better performance and increase in operating capacity in most of the outlets. The loss before tax for the period is mainly due to the write off of the property, plant and equipment approximately RM5.9 million as a result of a fire incident happened in two of the TSM outlets in Cambodia on 28 December 2022. These property, plant and equipment are fully insured and the Group expects a full recovery from the insurance compensation in the near future. This incident has no other material impact on the financial statements of the Group.

The increase in unallocated income is mainly due to the unrealised foreign exchange gains during the current quarter. The Thailand Baht ("THB") and Philippine Peso ("PHP") has strengthened by approximately 9.7% and 5.0%, respectively, against US Dollars ("USD") during the quarter. This has resulted in unrealised foreign exchange gains in the Group's subsidiaries with USD as presentation currency where some of their trade receivables and other monetary items are denominated in THB and PHP.

(ii) Comparison with previous year

The revenue for SSM division increased by 15% for the year ended 31 December 2022 as compared to previous year mainly due to increase in number of products sold. However, the profit before tax decreased by 14% mainly due to higher travelling and marketing expenses in current year to reconnect with the customers after the long covid break.

The revenue for TSM division increased by 52% for the year ended 31 December 2022 as compared to previous year mainly due to better performance and increase in operating capacity in most of the outlets. Consequently, the loss before tax for the year has reduced by 76%.

Note

- (1) "Others" consist of revenue from leasing of Chateau building, manufacturing activities, research & development activities and inter-segment transaction.
- * Earnings before interest, taxation, depreciation, amortisation, impairment of property, plant & equipment, intangible assets and investments.

The SSM division recorded higher revenue and profit before tax in current quarter due to the increase in number of products sold and variation in product mix as compared to previous quarter.

The increase in revenue for TSM division is mainly due to the better performance in most of the outlets during the quarter. However, there is a loss before tax due to the write off of property, plant and equipment as explained in Note 16.

The increase in unallocated income in current quarter is mainly due to the unrealised foreign exchange gain (trade and non-trade).

18. Commentary on Prospects

The tourism and hospitality industries are expected to continue recovering, aided by the reopening of border restrictions and increase in international travels especially in the regions where the Group operates. Based on the favourable market outlook, the Group expects to perform significantly better in financial year ending 31 December 2023, backup by the strong orders secured to date, despite facing inflationary pressure on its operating costs.

19. Profit Forecast

The company did not announce any profit forecast for the financial year.

20. Taxation

Domestic income tax is calculated at the Malaysian statutory rate of 24% (2021: 24%) of the estimated assessable profit for the financial year. The effective tax rate of the Group for the financial year is higher than the statutory income tax rate mainly due to expenses not deductible for tax purposes, partially offset by income subjected to different tax jurisdictions and income not subjected to tax.

21. Corporate Proposals

There were no corporate proposals announced but not completed as at the date of this announcement.

22. Borrowings
