B3. Prospects

The reopening of the economy and borders have revitalised Malaysia's economic activities and regained positive momentum in its economic recovery. With the economy expecting to grow at 5.3% to 6.3% in 2022, the Group is optimistic about FY2022 and beyond with the following outlook.

Market sentiment has improved as can be seen in the Group's cash recycling machine ("CRM") business segment. Banks have resumed procurement activities after postponing CRM purchases for almost two years during the Covid-19 pandemic. The Group has recorded four (4) consecutive quarters of robust CRM hardware sales in 4Q2021, 1Q2022, 2Q2022 and 3Q2022, signalling a stable recovery of this business segment to pre-pandemic level.

Despite going through two challenging years caused by the Covid-19 pandemic, the Group's services business segments remain resilient and will continue the same growth path in driving revenue and profits as demand grows for the Group's maintenance services for CRMs, bill payment and top-up kiosks, cash in transit services, cheque processing and software development services.

While core businesses are seeing resilient growth and strong rebound, the Group will continue to focus on growing the new revenue streams of SmartCIT, Branch Of The Future solutions, buySolar online marketplace, merchant acquiring services and e-wallet top-up kiosks to further improve the top and bottom lines. Barring any unforeseen circumstances, the performance of the Group is expected to be satisfactory for the financial year ending 31 December 2022.
