**NOTES TO THE INTERIM FINANCIAL REPORT
FOR THE QUARTER ENDED 30 SEPTEMBER 2011**

PART A: REQUIREMENT OF FRS 134 – INTERIM FINANCIAL REPORTING

1. Basis of preparation

The interim financial report is unaudited and has been prepared in accordance with the requirements of Financial Reporting Standards (“FRS”) 134, Interim Financial Reporting and paragraph 9.22 of the Listing Requirements of Bursa Malaysia Securities Berhad (“Bursa Securities”) for the ACE Market.

The explanatory notes attached to the interim financial report provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the previous financial year ended 31 March 2011.

2. Significant Accounting Policies

2.1 FRS 3 Business Combinations

On 1 March 2010, Leinet Technology Berhad (“Leinet”) and Viztel Solutions Berhad (“Viztel”) had entered into an Original Definitive Agreement to undertake a series of proposals to regularise Viztel’s financial position including inter-alia, an injection of a new viable business into Systech Bhd (“Systech”), a share exchange of shares in Viztel for share in Systech, a fund raising exercise by Systech and the transfer of Viztel’s listing status to Systech (“Restructuring Scheme”).

On 23 April 2010, Systech had entered into an Original Acquisition Sales and Purchase Agreement (“SPA”) with Leinet to acquire the entire equity interest of its subsidiary, Syscatech Sdn. Bhd. (“Syscatech”) for a consideration of RM23,900,000. The SPA was subsequently restated on 17 December 2010 via the Restated Definitive Agreement and Restated Acquisition SPA with Leinet to vary certain terms and conditions. Revision was made to the mode of satisfaction of the consideration where the total consideration of up to RM23,900,000 shall be satisfied as follows:

- (i) An initial consideration of RM17,400,000 shall be satisfied by the issuance of 174,000,000 new Systech ordinary shares of RM0.10 each (“Systech Shares”) at an issue price of RM0.10 per share; and
- (ii) The balance of the consideration of up to RM6,500,000 shall be satisfied by the issuance of new Systech Shares based on the audited Profit After Tax (“PAT”) of Syscatech for each of the financial year ending 31 March 2012 and 2013 in accordance with the following terms (“Deferred Consideration Shares”):
 - (a) Issuance of up to a maximum of 30,000,000 new Systech Shares at an issue price of RM0.10 per share within twelve (12) months from the date of issuance of the audited financial statements of Syscatech for the financial year ending 31 March 2012; and

- (b) Issuance of up to a maximum of 35,000,000 new Systech Shares at an issue price of RM0.10 per share within twelve (12) months from the date of issuance of the audited financial statements of Syscotech for the financial year ending 31 March 2013.
- (iii) In addition to the items (i) and (ii), Leinet also guarantees that Syscotech shall achieve an audited PAT of not less than RM2,500,000 for the financial year ending 31 March 2011 (“Guaranteed Profit”) provided always that the liability of the Company in respect of the Guaranteed Profit shall be limited to the amount of the Guaranteed Profit. The said Guaranteed Profit was met and was announced on 28 July 2011.

Under the provision of FRS 3, Business Combination applies to the proposed acquisition whereby an acquirer shall be identified for all business combinations and the acquirer is defined as the combining entity that obtains control of the other combining entities or businesses.

Under the Restructuring Scheme, the acquirer is deemed to be Syscotech (whose equity interest has been acquired) and Viztel (whose equity interest has been exchanged) is the acquiree as Leinet, being the vendor of Syscotech will control Systech. Under these circumstances, the Restructuring Scheme is considered to represent a reverse acquisition via a special purpose vehicle, Systech.

On 12 July 2011, Systech has also entered into a novation agreement with Viztel and Viztel Systems Sdn Bhd (“VSSB”); a subsidiary of Viztel; for the novation of debts amounting to RM1,333,000 to Systech from Viztel and VSSB.

As such, in accordance with FRS 3 Business Combinations, the consolidated financial statements represents a continuation of the historical financial statements of Systech and the effects of the share exchange of shares in Viztel for shares in Systech and the value of the novation of debts have been accounted for as part of the cost of investment in Syscotech and accordingly:-

- (i) no comparative figures are presented for these statements as Systech, a non-listed public limited liability company, did not make any interim financial reporting prior to the reserve acquisition;
- (ii) the latest audited Statement of Financial Position of Systech as at 31 March 2011 has been presented as the comparative Statement of Financial Position; and
- (iii) under the terms of the Restructuring Scheme, the Deferred Consideration Shares has been disclosed as Performance Contingent Consideration Reserve in the Statement of Financial Position.

2.2 Changes in Accounting Policies

The accounting policies and presentation adopted for the interim financial report are consistent with those adopted in the audited financial statements of Systech for the financial year ended 31 March 2011 except for the adoption of the following new and amended FRS and IC Interpretations with effect from 1 April 2011

FRS 1	First-time Adoption of Financial Reporting Standards
Amendments to FRS 1	Limited Exemption from Comparatives FRS 7 Disclosures for First-time Adopters and Additional Exemptions for First Time Adopters

Amendments to FRS 2	Share-based Payment
Amendments to FRS 2	Group Cash-Settled Share Based Payment Transactions
FRS 3	Business Combinations (Revised)
Amendments to FRS 5	Non-current Assets Held for Sale and Discontinued Operations
Amendments to FRS 7	Improving Disclosures about Financial Instruments
Amendments to FRS 127	Consolidated and Separate Financial Statements
Amendments to FRS 132	Classification of Rights Issues
Amendments to FRS 138	Intangible Assets

IC Interpretation 16	Hedges of a Net Investment in a Foreign Operation
IC Interpretation 17	Distributions of Non-cash Assets to Owners
IC Interpretation 18	Transfers of Assets from Customers
TR 3	Guidance on Disclosures of Transitions to IFRS

Other than the disclosures under the Amendments to FRS 7, the adoption of the above standards and interpretations did not have any material effect on the financial performance or position of the Group

As at the date of authorisation of the interim financial report, the following standards and interpretations were issued but not yet effective and have not been applied by the Group, which are:-

Effective from the Date on or after 1 July 2011

Amendments to IC Interpretation 14	Prepayment of a Minimum Funding Requirement
IC Interpretation 19	Extinguishing Financial Liabilities with Equity Instruments

Effective from the Date on or after 1 January 2012

FRS 124	Related Party Disclosures
IC Interpretation 15	Agreements for the Construction of Real Estate

The Directors expect that the adoption of the other standards and interpretations above will have no significant impact on the financial statements in the period of initial application.

3. Critical Accounting Estimates and Judgements

Estimates and judgements are continually evaluated by the Directors and management and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The estimates and judgements that affect the application of the Group's accounting policies and disclosures, and have a significant risk of causing a material adjustment to the carrying amounts of assets, liabilities, income and expenses are discussed below:

(a) Impairment of Non-Financial Assets

When the recoverable amount of an asset is determined based on the estimate of the value-in-use of the cash-generating unit to which the asset is allocated, the management is required to make an estimate of the expected future cash flows from the cash-generating unit and also to apply a suitable discount rate in order to determine the present value of those cash flows.

(b) Impairment of Trade and Other Receivables

The Group makes an impairment loss when there is objective evidence that a financial asset is impaired. Management specifically reviews its receivables financial assets and analyses historical bad debts, customer concentrations, customer creditworthiness, current economic trends and changes in the customer payment terms when making a judgment to evaluate the adequacy of the allowance for impairment losses. Where there is objective evidence of impairment, the amount and timing of future cash flows are estimated based on historical loss experience for assets with similar credit risk characteristics. If the expectation is different from the estimation, such difference will impact the carrying value of receivables.

4. Auditor's Report on Preceding Annual Financial Statements

The independent auditors' report on Systech's annual audited financial statements for the preceding financial year ended 31 March 2011 was not subject to any audit qualification.

5. Seasonal and Cyclical Factors

The business of the Group was not affected by any significant seasonal and cyclical factors during the current financial period under review.

6. Unusual Items due to their Nature, Size or Incidence

Saved as those arising from the reverse acquisition as explained in Note 2.1 and Restructuring Expenses as set out below, there were no unusual items affecting the assets, liabilities, equity, net income, or cash flows due to their nature, size or incidence during the current financial period under review:-

**NOTES TO THE INTERIM FINANCIAL REPORT
FOR THE QUARTER ENDED 30 SEPTEMBER 2011**

PART B: ADDITIONAL INFORMATION REQUIRED BY BURSA SECURITIES LISTING REQUIREMENTS

17. Review of Performance

The Group recorded RM1.750 million of revenue in the current quarter under review contributed by Syscatech. The Group has also recorded a profit after taxation of RM0.778 million.

Systech's principal operating subsidiary, Syscatech is principally involved in the design, research and development, customisation and implementation of its proprietary software solutions to the members' centric industry such as the direct selling industry and retail industry. Demand for its solutions are driven by the general economic conditions as well as the growth in the direct selling industry in the various countries that its solutions are being implemented. Its level of operating activities is determined by its number of employees as well as the complexity of customisation that its customers required. During the period under review, there were no factors or circumstances that significantly affected its revenue, costs or profit margins other than the "one-off" Restructuring Expenses of RM1.316 million expensed off in the previous financial quarter

There were no comparative figures in the preceding financial year as Systech, a non-listed public limited liability company, did not make any interim financial reporting prior to the reverse acquisition as explained in Note 2.1.

18. Variation of Results against Preceding Quarter

Revenue for the quarter under review has increased from RM0.972 million recorded in the preceding quarter to RM1.750 million in the current quarter mainly due to the adjustment for pre-acquisition revenue of RM0.718 million in the preceding quarter (following the completion of the acquisition of Syscatech on 20 May 2011) as well as the increase in revenue from Syscatech's overseas customers during the current quarter under review.

The Group's profit after taxation has improved from a loss of RM0.712 million in the previous financial quarter to a profit of RM0.778 million in the current financial quarter ended 30 September 2011 mainly due to the "one-off" Restructuring Expenses of RM1.316 million expensed off in the previous financial quarter as well as the effects of the adjustment for pre-acquisition profits (following the completion of the acquisition of Syscatech on 20 May 2011).

19. Current Year Prospects

While the Group expects the coming financial year to be full of challenges, the Board of Directors remains optimistic that the Group will be able to achieve satisfactory performance in the financial year ending 31 March 2012 on the expectation of stronger revenue contribution from Syscatech's overseas customers.

20. Variance of Actual Profit from Profit Forecast

The Group had in its Circular to Shareholders in relation to the Proposed Restructuring Scheme of Viztel dated 30 March 2011 forecast a profit after taxation of RM3.048 million for Syscotech the financial year ending 31 March 2012. The comparison to the results achieved by Syscotech for the current quarter under review is as follows:-

	2nd QUARTER ENDED 30.09.2011 RM'000	FORECAST 31.03.2012 RM'000
Revenue	<u>3,440</u>	<u>6,919</u>
Profit before tax	1,771	3,073
Income tax expenses	(10)	(25)
Profit after tax	<u>1,761</u>	<u>3,048</u>

Any deviation from the forecast will be discussed in the 4th quarter report for the financial year ending 31 March 2012. Barring unforeseen circumstances, the Board of Directors remains optimistic that Syscotech will be able to achieve the forecast profit after taxation for the financial year ending 31 March 2012.

21. TAX EXPENSE

Income Tax		
- Malaysian Tax	-	-

The Group's effective tax rate for the current financial quarter is lower than the statutory tax rate as its core subsidiary, Syscotech, was granted Pioneer Status with effect from 23 April 2003, which exempts 100% of its statutory business income from taxation for a period up to five (5) years until 22 April 2008. The Pioneer Status was further extended for another five (5) years until 21 April 2013

** No comparative figures are presented following the reverse take over exercise undertaken by Systech Bhd on the listing status of Viztel Solutions Berhad as explained in Note 2.1 to the interim financial report.*

22. Status of Corporate Proposals

The disposal of the entire equity interest in Viztel as set out in Note 13 was completed on 20 September 2011.

The Company had on 7 September 2011 announced that it had entered into a memorandum of understanding with Murali Nair in relation to the proposed acquisition by the Company of 100,000 ordinary shares in Postlink Pte Ltd ("Postlink") representing 100% equity interest in Postlink for a purchase consideration to be determined. The proposal is currently pending the conduct of a due diligence and finalisation of negotiations and terms of the sale and purchase agreement and an announcement will be made in due course upon the execution of the relevant agreement in respect of the proposed acquisition of Postlink.

Save as for the abovementioned, there were no corporate proposals announced or outstanding as at the date of this Report.

On 15 June 2011, the Company received proceeds of RM5.0 million from the public issue of 50,000,000 new Systech Shares as set out in Note 8, and the proceeds will be utilised in the following manner:

Utilisation of proceeds from Public Issue
