A. NOTES TO THE UNAUDITED INTERIM FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 SEPTEMBER 2006

A1. Basis of Preparation

The interim financial statements are unaudited and have been prepared in compliance with Financial Reporting Standards (FRS) 134: Interim Financial Reporting and the Listing Requirements of the Bursa Malaysia Securities Berhad for the MESDAQ Market.

The interim financial statements should be read in conjunction with the audited financial statements for the year ended 31 December 2005.

A2. Changes in Accounting Policies

The significant accounting policies adopted are consistent with those of the audited financial statements for the year ended 31 December 2005 except for the adoption of the following new/revised Financial Reporting Standards ("FRS") effective for financial period beginning 1 January 2006:

- FRS 2 Share-based Payment
- FRS 101 Presentation of Financial Statements
- FRS 102 Inventories
- FRS 108 Accounting Policies, Changes in Estimates and Errors
- FRS 110 Events after the Balance Sheet Date
- FRS 116 Property, Plant and Equipment
- FRS 121 The Effects of Changes in Foreign Exchange Rates
- FRS 127 Consolidated and Separate Financial Statements
- FRS 132 Financial Instruments: Disclosure and Presentation
- FRS 133 Earning Per Share
- FRS 136 Impairment of Assets
- FRS 138 Intangible Assets
- FRS 140 Investment Property

The adoption of FRS 102, 108, 110, 116, 121, 127, 132, 133, 136 and 138 does not have significant financial impact on the Group. The principal effects of the changes in accounting policies resulting from the adoption of the new/revised FRSs are discussed below:

(a) FRS 2 Share-based Payment

This FRS requires an entity to recognise share-based payment transactions in its financial statements, including transactions with employees or other parties to be settled in cash, other assets, or equity instruments of the entity.

The Company has an Employee Share Option Scheme ("ESOS"). Prior to 1 January 2006, no compensation expense was recognised in profit or loss for share options granted. With the adoption of FRS 2, the compensation expense relating to share options is recognised in profit or loss over the vesting periods of the grants with a corresponding increase in equity. The total amount to be recognised as compensation expense is determined by reference to the fair value of the share options at the date of the grant and the number of share options to be vested by vesting date. The fair value of the share option is computed using a binomial model. At every balance sheet date, the Group revises its estimates of the number of share options that are expected to vest by the vesting date. Any revision of this estimate is included in profit or loss and a corresponding adjustment to equity over the remaining vesting period.

Under the transitional provisions of FRS 2, this FRS must be applied to share options which were granted after 31 December 2004 and which had not yet vested on 1 January 2006. The financial impact to the Group arising from this change in accounting policy is as follows:-

	9 months ended 30.09.06 RM
Decrease in profit for the period	<u>13,908</u>
Increase in equity compensation reserve (included within other reserves)	<u>13,908</u>

(b) FRS 101 Presentation of Financial Statements

The adoption of the revised FRS 101 has affected the presentation of minority interest and other disclosures. In the consolidated balance sheet, minority interests are now presented within total equity. In the consolidated income statement, minority interests are presented as an allocation of the total profit or loss for the period. A similar requirement is also applicable to the statement of changes in equity. FRS 101 also requires disclosure, on the face of the statement of changes in equity, total recognised income and expenses for the period, showing separately the amounts attributable to equity holders of the parent and to minority interest.

The current period's presentation of the Group's financial statements is based on the revised requirements of FRS 101.

(c) FRS 140 Investment Property

The adoption of this new FRS has resulted in a change in accounting policy for investment property of the Group. The FRS permits the Group to choose the cost model which is specified in FRS 116 and requires an investment property to be measured after initial measurement at depreciated cost (less any accumulated impairment losses).

In accordance with the transitional provisions of FRS 140, this change in accounting policy is applied prospectively and the comparatives as at 31 December 2005 are not restated.

The financial impact to the Group arising from this change in accounting policy is as follows:

	9 months ended 30.09.06 RM
Decrease in profit for the period due depreciation charges	<u>237,703</u>
Decrease in Investment Property	<u>237,703</u>
