EXPLANATORY NOTES AND ADDITIONAL INFORMATION

1. Basis of preparation

This interim financial report is unaudited and has been prepared in compliance with the Listing Requirements of Bursa Malaysia Securities Berhad for the MESDAQ Market and Financial Reporting Standard (FRS) 134₂₀₀₄, *Interim Financial Reporting*.

2. Changes in accounting policies

The interim financial report has been prepared in accordance with the same accounting policies adopted in the 2005 annual financial statements. Other than as disclosed below, the adoption of the following new or revised Financial Reporting Standards (FRS) effective for the financial period beginning on 1 January 2006 does not have any significant financial impact on the Group:-

FRS 2	Share-based Payment

FRS 121	The Effects of Changes in Foreign Exchange Rates
FRS 127	Consolidated and Separate Financial Statements

(a) Employee share option scheme (FRS 2, Share-based Payment)

In prior years, no amounts were recognized when employees (which term includes directors) were granted share options over shares in the Company. If the employees exercise the options, the nominal amount of share capital and share premium were credited only to the extent of the option's exercise price receivable.

With effect from 1 January 2006, FRS 2 requires the fair value of such share options to be recognized as an expense in the income statement, or as an asset, if the cost qualifies for recognition as an asset under the Group's accounting policies. A corresponding increase is recognized in a capital reserve within equity.

Where the employees are required to meet vesting conditions before they become entitled to the options, the fair value of the options granted are recognized over the vesting period. Otherwise, the fair value is recognized in the period in which the options are granted.

The Group has applied the transitional provisions set out in paragraph 53 of FRS 2 under which the new recognition and measurement policies will not be applicable in the following situations:-

- (i) all options granted to employees on or before 31 December 2004; and
- (ii) all options granted to employees after 31 December 2004 but which had vested before 1 January 2006.

The amount charged to the income statement as a result of the change of policy increased operating expenses for the nine months ended 30 September 2006 by RM230,000 (nine months ended 30 September 2005: Nil), with the corresponding amounts credited to the capital reserve. No adjustments to the opening balances as at 1 January 2006 are required as no options were granted between 31 December 2004 and 31 December 2005.

The fair value of share options granted during the quarter is estimated as at date of grant using a trinomial model, taking into account the terms and conditions upon which the options were granted.

Details of the employee share option scheme can be found in the Company's financial statements for the year ended 31 December 2005.

(b) Amortisation of positive and negative goodwill (*FRS 3, Business Combinations and FRS 136, Impairment of Assets*)

With effect from 1 January 2006, in accordance with FRS 3 and FRS 136, amortization of positive goodwill is no longer allowed. Such goodwill is tested annually for impairment, including in the year of its initial recognition, as well as when there are indications of impairment. Impairment losses are recognized when the carrying amount of the cash generating unit to which the goodwill has been allocated exceeds its recoverable amount.

In addition, FRS 3 requires that if the fair value of the net assets acquired in a business combination exceeds the consideration paid (i.e. an amount arises which would have been known as negative goodwill under the previous accounting policy), the excess is recognized immediately in the income statement as it arises.

The new policies pursuant to FRS 3 and FRS 136 have no impact on the Group as the Group's accounting policy on goodwill is consistent with the requirements of FRS 3 and FRS 136.

(c) Changes in presentation (*FRS 101, Presentation of Financial Statements and FRS 127, Consolidated and Separate Financial Statements*) - *Minority Interests*

In prior years, minority interests at the balance sheet date were presented in the consolidated balance sheet separately from liabilities and as deduction from net assets. Minority interests in the results of the Group for the year were also separately presented in the income statement as a deduction before arriving at the profit attributable to shareholders of the Company.

With effect from 1 January 2006, in order to comply with FRS 101 and FRS 127, minority interests at the balance sheet date are presented in the consolidated balance sheet within equity, separately from the equity attributable to the equity holders of the Company, and minority interests in the results of the Group for the period are presented on the face of the consolidated income statement as an allocation of the total profit or

loss for the period between the minority interests and the equity holders of the Company.

The presentation of minority interest in the consolidated balance sheet, income statement and statement of changes in equity for the comparative period has been restated accordingly.

(d) Foreign Currency (*FRS 121, The Effects of Changes in Foreign Exchange Rates*)

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in Ringgit Malaysia, which is the Company's functional and presentation currency.

In addition, with effect from 1 January 2006, any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition are now treated as assets and liabilities of the foreign operation and translated at the closing rate. In accordance with the transitional provisions of FRS 121, this change is applied prospectively. Goodwill acquired in business combinations prior to 1 January 2006 and fair value adjustments arising on those acquisitions are deemed to be assets and liabilities of the parent company and were translated using the exchange rate at the dates of acquisitions.

The adoption of FRS 121 has no impact on the Group as the Group's accounting policy on foreign currency is consistent with FRS 121 and there were no acquisitions of foreign operations during the quarter.

3. Auditors' report

There were no audit qualifications on the annual financial statements of the Company and its subsidiaries for the financial year ended 31 December 2005.

4. Seasonality or cyclicity of interim operations

In general, recruitment activities tend to slow down towards year-end and during major holidays. Typically, this results in sequentially lower results in the last quarter of the year.

5. Unusual items

There were no items or events that arose during the quarter under review, which affected assets, liabilities, equity, net income or cash flows, that are unusual by reason of their nature, size or incidence.

6. Changes in estimates

There were no changes in the nature and amount of estimates reported that have a material effect in the quarter under review.

7. Issuances, cancellations, repurchases, resale and repayments of debt and equity securities

On 29 November 2004, the Company offered 14,890,000 ESOS options at an exercise price of RM0.54 per share to the directors and eligible employees of the Group, of which all the directors and eligible employees accepted the offer.

On 23 February 2006, the Company offered 2,525,000 ESOS options at an exercise price of RM1.35 to eligible employees of the Group, being the weighted average market price of the shares for the five (5) market days immediately preceding the date of offer with a discount of approximately 9%. All the eligible employees accepted the offer.

As at 30 September 2006, 2,676,000 options had lapsed, 2,065,000 options were exercised and 12,674,000 options remained unexercised.

Other than the above, there were no issuances, cancellations, repurchases, resale and repayments of debt and equity securities in the Company during the quarter under review.

8. Dividends paid

The Company had on 26 May 2006 declared a tax-exempt final dividend of 1.25 sen per share in respect of the financial year ended 31 December 2005 amounting to RM2,538,312. The dividend was paid on 5 July 2006. The total dividend paid for the financial year ended 31 December 2005 amounted to 2.75 sen per share.

9. Segmental reporting

Segment information is presented in respect of the Group's geographical segments. The primary format, geographical segments, is based on the Group's management and internal reporting structure. Inter-segment pricing is determined based on negotiated terms.

Segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items mainly comprise interest-earning assets and revenue, interest-bearing loans, borrowings and expenses, and corporate assets and expenses.

Segment capital expenditure is the total cost incurred during the period to acquire segment assets that are expected to be used for more than one period.

12. Changes in the composition of the Group

- (i) On 10 July 2006, the Company announced that Television Eighteen India Limited (“TV18”), Tadcaster Holdings Limited (“Tadcaster”), a subsidiary of TV18, JobStreet.com Pte Ltd (“JobStreet Singapore”) and JobStreet.com Private Ltd (“JobStreet India”) had, on the same date, entered into a conditional Subscription and Shareholders’ Agreement (“SSA”) in relation to the proposed subscription by Tadcaster of 424,500 new ordinary shares of Rs10 each in JobStreet India representing 50% of the enlarged equity share capital of JobStreet India (“Subscription Shares”) for a total subscription amount of the rupee equivalent of USD2,000,031.75 (“Proposed Subscription”). The SSA is expected to be completed by the end of the year.

Please refer to Note 22 for further details on the Proposed Subscription.

15. Review of performance for the quarter

For the quarter ended 30 September 2006, consolidated revenue amounted to RM16.8 million, approximately RM1.7 million or 11.3% higher than the RM15.1 million revenue for the corresponding quarter in the preceding financial year. This increase was mainly attributed to growth in the demand for the Group's core products of JobStreet ESSENTIAL (online job posting service) and JobStreet IMPACT (career website management service) as shown below:-

	QoQ % Growth	YoY % Growth
JobStreet ESSENTIAL	28.6	39.8
JobStreet IMPACT	40.2	89.8

In terms of profitability, the Group achieved a profit before taxation ("PBT") of RM5.7 million, an increase of RM0.9 million or 18.8% compared with RM4.8 million reported in the corresponding quarter in the preceding financial year. The higher sales during the quarter compared to Quarter 3, 2005 also yielded a higher gross profit margin due to higher revenue contribution from JobStreet ESSENTIAL. However, the higher gross profit margin was partially offset by proportionately higher staff costs, advertising and promotion expenses, professional fees, travelling expenses and depreciation expense. The net effect of these factors is a higher pre-tax profit margin for the current quarter of 34.1% compared to the pre-tax profit margin of 32.0% in Quarter 3, 2005.

On an after-tax basis, the Group achieved a profit after taxation ("PAT") of RM4.9 million, an increase of RM0.4 million or 9.1% compared with RM4.5 million reported in the corresponding quarter in 2005. The lower growth in PAT compared with PBT was mainly due to a higher effective tax rate in a subsidiary for the current quarter compared to the corresponding quarter in the preceding year and higher deferred tax expense during the current quarter as a result of the realization of tax benefits from unutilized tax losses recognized in a subsidiary.

For the 9-month period ended 30 September 2006, the Group's revenue and profit before taxation amounted to RM49.9 million and RM16.9 million respectively, or an increase of 22.7% and 27.8% respectively compared with the corresponding period of the last financial year. In general, the growth during the quarter and the 9-month period ended 30 September 2006 was mainly attributed to increased profit contributions from the Group's subsidiaries in Singapore and Philippines and a reflection of an increased level of acceptance of the Group's products and services among corporate recruiters and jobseekers.

16. Comparison with previous quarter's results

	<u>Q3 2006</u> <u>Current Quarter</u> RM'000	<u>Q2 2006</u> <u>Preceding Quarter</u> RM'000
Revenue	16,819	17,424
Profit before taxation	5,743	5,695

For the current quarter under review, the Group recorded revenue of RM16.8 million representing 3.5% decrease compared with RM17.4 million recorded in the preceding quarter. This decrease was mainly due to lower revenue from JobStreet ESSENTIAL and JobStreet RESOURCE. However, lower operating expenses and higher interest income contributed to a slightly higher PBT in the current quarter.

17. Prospects for the Year 2006

Growth in the Group's existing regional operations especially the JobStreet ESSENTIAL business in Singapore and Philippines is expected to contribute to the Group's profitability in the year 2006. The Group will continue to pursue its strategy of building its customer base through a range of marketing activities including increasing marketing and sales activities focusing on the Small Medium Industry/Small Medium Enterprise sectors while diversifying into new geographical markets.

The Group commenced operations in Indonesia in the first quarter. In addition, as disclosed in Note 22, the Group has on 8 August 2006 entered into a Shareholders' Agreement with the Daffodil Computers Limited in Bangladesh to establish a joint venture company to enter the online recruitment market in that country. We will be incurring losses in these new markets in 2006, as the focus for the rest of the year will be on building the brandname and developing the markets in these countries.

The entry of the TV18 group of companies as a new shareholder in JobStreet.com India Private Limited ("JobStreet India") will result in the deconsolidation of JobStreet India from the Group. However, the quantum of the reduction in earnings as a result of the deconsolidation is not expected to be material. As the proposed subscription by the TV18 group is only expected to be completed by the end of the year, any benefits accruing to JobStreet India from the strategic alliance with the TV18 group may not be apparent in 2006.

The performance of the Group is anticipated to be satisfactory for the financial year ending 31 December 2006.

18. Profit Forecast

No profit forecast was announced hence there is no comparison between actual results and forecast.

19. Taxation

The taxation charge for the current quarter includes the following:

	Individual Quarter Ended		Cumulative Quarter Ended	
	30.9.2006	30.9.2005	30.9.2006	30.9.2005
	RM'000	RM'000	RM'000	RM'000
Estimated current tax payable	649	295	1,525	750
Deferred taxation	140	(3)	393	(18)
Withholding tax	-	-	-	19
	<u>789</u>	<u>292</u>	<u>1,918</u>	<u>751</u>

The effective tax rate is lower than statutory tax rate of 28% mainly due to the following:-

- (i) Tax exempt income of a subsidiary company which has been granted the Multimedia Super Corridor ("MSC") status and pioneer status for a period of 5 years commencing from 28 May 1999. The MSC status along with the pioneer status have been renewed for another five years up to 27 May 2009;

- (iii) The effects of different tax rates in certain countries.
