12. Review of Performance for the Quarter

For the quarter ended 31 December 2021, consolidated revenue amounted to RM0.90 million, which is 12.3% higher than the revenue in the corresponding quarter in the preceding year of RM0.80 million. The increase was mainly due to higher dividend income from quoted investments.

The Group recorded foreign exchange gains of RM0.16 million in the current quarter compared with foreign exchange losses of RM0.48 million in Q4 2020. The foreign exchange gains consist mainly of realised foreign exchange gains from the utilisation of Hong Kong Dollars to settle share purchases as well as the conversion of the proceeds from the disposal of 104 Corporation shares into Hong Kong and Singapore Dollars. In Q4 2020, the foreign exchange losses consist mainly of unrealised foreign exchange losses on the Group's US Dollar denominated bank deposits.

The decrease in operating expenses by 33.7% year-over-year to RM1.15 million in Q4 2021 from RM1.73 million in the corresponding quarter in the previous year was mainly due to lower staff costs during the quarter under review.

The Group's profit before tax ("PBT") increased by 285.0% from RM1.34 million in Q4 2020 to RM5.14 million in the current quarter mainly attributable to the gain on disposal of shares amounting to RM1.59 million as well as foreign exchange gains and lower staff costs as mentioned above. During the quarter under review, the Company had disposed 107,391 ordinary shares in an associate, 104 Corporation, a leading provider of integrated human resource services in Taiwan, representing 0.32% of the company's issued and paid-up share capital for a total cash consideration of RM2.84 million. Following the disposals, the Company continued to hold 22.66% equity interest in 104 Corporation as at 31 December 2021.

Our share of profit from equity accounted associates increased by 14.8% year-on-year to RM3.64 million from RM3.17 million in Q4 2020. Our associate, 104 Corporation, a leading provider of integrated human resource services in Taiwan, reported a 35.1% increase in net profit of NT\$92.61 million in Q4 2021 compared with NT\$68.52 million in the corresponding quarter in the preceding year due to its strong revenue growth of 20.1% from NT\$413.65 million in Q4 2020 to NT\$496.72

in the current quarter contributed by job posting and HR Academy businesses. Our other associate, Innity Corporation Berhad posted a lower net profit of RM3.37 million in the current quarter under review compared with RM4.31 million in Q4 2020. Despite the lower net profit, Innity Corporation Berhad recorded a slightly higher revenue of RM34.75 million in Q4 2021 compared with RM33.79 million in Q4 2020.

13. Comparison with previous quarter's results

	Q4 2021	Q3 2021
	Current Quarter	Preceding Quarter
	RM'000	RM'000
Revenue	898	2,243
Profit before tax	5,140	4,690

For the current quarter under review, the Group posted a lower revenue of RM0.90 million compared with RM2.24 million reported in the preceding quarter mainly due to lower dividend income in Q4 2021 amounting to RM0.21 million compared with RM1.53 million in the previous quarter which included a dividend amounting to RM0.85 million from Lion Rock Group Limited, one of the Group's larger investment.

Apart from the lower revenue, the higher PBT in the current quarter was due to higher share of profit from associates of RM3.64 million compared with RM3.27 million in Q3 2021 and the gain on disposal of 104 Corporation shares in Q4 2021 amounting to RM1.59 million.

14. Prospects for the Year 2022

Pending further acquisitions of new businesses and/or investments, the Group's future prospects will depend on the performance of its associated companies in Taiwan and Malaysia, quoted investments, foreign exchange rates and operating activities in Malaysia and Japan. The Group will derive income primarily from the provision of consultancy services, dividend income from its quoted investments and rental income from its investment properties. The Board and management will endeavour to identify and evaluate new businesses and/or assets to be acquired by the Company which can contribute to the financial performance of the Group. The Group has a healthy cash position, receives good cash flow from its investments and does not have any material debt.

The global recovery in 2022 continues to face multiple challenges as the COVID-19 pandemic enters its third year. The spread of the Omicron variant has led to renewed mobility restrictions in many countries and increased labour shortages. Rising energy prices and supply disruptions have also resulted in higher and more broad-based inflation than expected, notably in the United States and many emerging market and developing economies. The continuing problems in China's real estate sector and slower-than-expected recovery of private consumption also have limited growth prospects. The International Monetary Fund ("IMF") has downgraded its 2022 global growth forecast to 4.4% in January 2022 from 4.9% in October 2021. The revised outlook is largely due to growth markdowns in the world's two largest economies; the United States and China. Elevated inflation is expected to persist for longer than previously anticipated, with ongoing supply chain disruptions and high energy prices continuing in 2022.

Risks to the global baseline are tilted to the downside due to continued uncertainty in a number of areas. The emergence of new COVID-19 variants could prolong the crisis and induce renewed economic disruptions. Furthermore, supply chain disruptions, energy price volatility, and localized wage pressures mean uncertainty around inflation and policy paths is high. As advanced economies lift policy rates, risks to financial stability and emerging market and developing economies' capital flows, currencies, and fiscal positions—especially with debt levels having increased significantly in the past two years, may emerge. Other global risks may crystallize as

geopolitical tensions remain high, and the ongoing climate emergency means that the probability of major natural disasters remains elevated.
