The Group posted revenue from gloves segment of RM0.86 million for the current quarter ended 30 September 2021, 97% lower than RM25.1 million recorded in the corresponding quarter ended 30 September 2020. The decrease mainly due to the Group is not actively trading of palm oil products in quarter under review. Current quarter's revenue mainly derived from the trading of gloves where the gloves is a new segment to the Group.

The Group registered pre-tax loss of RM4.73 million for the current quarter, RM4.24 million higher than RM0.49 million pre-tax loss in the correspondence quarter. Palm Oil segment reported higher pre-tax loss by RM4.35 million mainly due to loss from disposal of quoted shares of RM1.27 million and mark-to-market loss on investment in quoted shares of RM2.90 million.

## **B3)** Prospects

The Group expects the coming financial year to be challenging due to uncertainties arising from the on-going COVID-19 pandemic. The Group remains focus on its core business in trading of palm oil and gloves products.

For the trading and manufacturing of glove business, the Group's view is that the current market conditions are in favour of glove manufacturers and the gloves market outlook is expected to remain positive for next few years. Malaysian Rubber Glove Manufacturers Association ("MARGMA") has forecasted that the demand for gloves will continue to outstrip the global supply of gloves in year 2021 due to the on-going COVID-19 pandemic. Despite the availability of vaccines for COVID-19 with many countries already commencing mass vaccinations, demand of rubber gloves is expected to remain high, especially in the near term, as medical gloves will continue to be used by healthcare professionals globally for mass vaccination. Further, the demand for rubber gloves will be continuously driven by heightened awareness of the usage of rubber gloves as general protection against viruses and other diseases.
