# PART A – EXPLANATORY NOTES PURSUANT TO MALAYSIAN FINANCIAL REPORTING STANDARDS 134 ("MFRS 134")

#### 1. FIRST-TIME ADOPTION OF MALAYSIAN FINANCIAL REPORTING STANDARDS (MFRS)

This condensed consolidated interim financial statements have been prepared in accordance with Malaysian Financial Reporting Standards ("MFRS") 134 "Interim Financial Reporting" issued by the Malaysian Accounting Standards Board and paragraph 9.22 of the Listing Requirements of Bursa Malaysia Securities Berhad. This Condensed consolidated interim financial statements also complies with International Accounting Standard 34: Interim Financial Reporting issued by the International Accounting Standards Board (IASB). For the periods up to and including the year ended 30 June 2012, the Group prepared its financial statements in accordance with Financial Reporting Standards (FRS).

This condensed consolidated interim financial statements is the Group's first MFRS compliant condensed consolidated interim financial statements and hence MFRS 1: First-Time Adoption of Malaysian Financial Reporting Standards (MFRS 1) has been applied.

The MFRS are effective for the Group from 1 July 2012 and the date of transition to MFRS framework for the purpose of the first MFRS complaint condensed consolidated interim financial statements is 1 July 2011. At that transition date, the Group reviewed its accounting policies and considered the transitional opportunities under MFRS 1. The impact of the transition from FRS to MFRS is described in Note 2.1 below.

#### 2. SIGNIFICANT ACCOUNTING POLICIES

#### 2.1 Application of MFRS 1

The audited financial statements of the Group for the year ended 30 June 2012 were prepared in accordance with FRS. As the requirements under FRS and MFRS are similar, the significant accounting policies and methods of computation adopted by the Group in these condensed consolidated interim financial statements are the consistent with those applied by the Group in its consolidated financial statements for the year ended 30 June 2012 except as discussed below:

#### (a) Business combination

MFRS 1 provides the option to apply MFRS 3: Business Combinations ("MFRS 3"), prospectively from the date of transition or from a specific date prior to the date of transition. This provides relief from full retrospective application of MFRS 3 which would require restatement of all business combinations prior to the date of transition.

#### Acquisition before date of transition

The Group has elected to apply MFRS 3 prospectively from the date of transition. In respect of acquisitions prior to the date of transition:

- (i) The classification of former business combinations under FRS is maintained:
- There is no re-measurement of original fair values determined at the time of business combination (date of acquisition); and
- (iii) The carrying amount of goodwill recognized under FRS is not adjusted.

#### (b) Property, plant and equipment

The Group has previously adopted revaluation model for its property comprising building and revalue the building at least once in every five years by the directors based on the valuation reports of independent professional valuers with additional valuation in the intervening years where market conditions indicate that the carrying values of the revalued assets differ materially from market value.

Upon transition to MFRS, the Group elected to measure all its property, plant and equipment using the cost model under MFRS 116: Property, Plant and Equipment. At the date of transition to MFRS, the Group elected to regard the revalued amount of building as deemed cost at the date of the revaluation as these amount were broadly comparable to fair value at that date. The revaluation surplus of RM391,079 (30.06.2012: RM391,079; 30.09.2011: RM397,695) was transferred to retained earnings on the date of transition to MFRS.

### (c) Foreign currency translation reserve

Under FRS, the Group recognized translation differences on foreign operations as a separate component of equity. Cumulative foreign currency translation differences for all foreign operations are deemed to be nil as at the date of transition to MFRS.

Accordingly, at the date of transition to MFRS, the cumulative foreign currency translation differences of RM99,286 (30 June 2012: RM99,286; 30 September 2011: RM62,662) were adjusted to retained earnings.

The reconciliations of equity for comparative periods and of equity at the date of transition reported under FRS to those reported for those periods at the date of transition under MFRS are provided below:-
