NOTES

A EXPLANATORY NOTES PURSUANT TO MFRS 134 INTERIM FINANCIAL REPORTING

A1 Basis of preparation

The interim financial report has been prepared in compliance with MFRS 134, Interim Financial Reporting and Appendix 9B of the Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Securities") for the ACE Market.

The interim financial report should be read in conjunction with the audited financial statements of the Group for the year ended 31 December 2012.

A2 Significant accounting policies

The accounting policies and methods of computation adopted by the Group in the preparation of this interim financial report are consistent with those adopted in the audited financial statements for the financial year ended 31 December 2012. The Directors anticipate that the application of the following MFRSs issued by the Malaysian Accounting Standards Board ("MASB"), which are mandatory and will be effective for the financial periods as stated below, when adopted will have no material impact on the financial statements of the Group and of the Company, except as disclosed below:

Liabilities

Effective for financial periods beginning on or after 1st January 2015

Amendments to MFRS 9 Mandatory Effective Date of MFRS 9 and Transition Disclosures

MFRS 9: Financial Instruments - Classification and Measurement of Financial Assets and Financial Liabilities

This MFRS replaces the multiple classification and measurement models in MFRS 139 with a single model that has only two classification categories: amortised cost and fair value. The basis of classification depends on the entity's business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

The accounting and presentation for financial liabilities and for de-recognising financial instruments has been relocated from MFRS 139, without change, except for financial liabilities that are designated at fair value through profit or loss (FVTPL). Entities with financial liabilities designated at FVTPL recognise changes in the fair value due to changes in the liability's credit risk directly in other comprehensive income (OCI). There is no subsequent recycling of the amounts in OCI to profit or loss, but accumulated gains or losses may be transferred within equity.

The guidance in MFRS 139 on impairment of financial assets and hedge accounting continues to apply.

The Group and the Company will quantity the effect of adopting this MFRS when the full standard is issued.

MFRS 10: Consolidated Financial Statements

This MFRS introduces a single control model to identify a parent-subsidiary relationship. This control model is based on the elements of power, returns and the link between power and returns. An investor controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. It establishes control as the basis for determining which entities are consolidated in the consolidated financial statements and sets out the accounting requirements for the preparation of consolidated financial statements.

The Group and the Company will apply this standard from financial period beginning on 1st January 2013.

MFRS 13: Fair Value Measurement

This MFRS aims to improve consistency and reduce complexity by providing a precise definition of fair value and a single source of fair value measurement and disclosure requirements for use across MFRSs. The requirements do not extend the use of fair value accounting but provide guidance on how it should be applied where its use is already required or permitted by other standards. The enhanced disclosure requirements are similar to those in MFRS 7 Financial instruments: Disclosures, but apply to all assets and liabilities measured at fair value, not just financial ones.

The directors anticipate that the application of this new Standard will result in more extensive disclosures in the financial statements.

Amendment to MFRS 101: Presentation of Items of Other Comprehensive Income

These amendments require that items of other comprehensive income be distinguished into those that will never be reclassified to profit or loss and those that may be reclassified to profit or loss when specified conditions in the applicable MFRSs are met.

The amendments will be applied retrospectively upon adoption and hence, the presentation of items of other comprehensive income will be modified accordingly to reflect the changes, Other than the abovementioned presentation changes, the application of the amendments to MFRS 101 would not result in any impact on profit or loss, other comprehensive income and total comprehensive income.

B EXPLANATORY NOTES PURSUANT TO APPENDIX 9B OF THE LISTING REQUIREMENTS OF BURSA MALAYSIA SECURITIES BERHAD FOR THE ACE MARKET

B1 Analysis of performance

The Group recorded a turnover of approximately RM0.92 million for the current financial quarter, this represents a reduction of approximately 30% as compared to the same corresponding financial quarter in 2012 ("Q4 2012). The reduction was mainly due to lower sales generated from both its operations in Malaysia and United States of America for the current financial quarter as compared against Q4 2012.

In line with the lower revenue in the current quarter as compared to Q4 2012, the Group registered a loss before taxation of RM0.62 million as compared to a profit before taxation of RM39,000 registered in Q4 2012.

For the twelve (12) month period ended 31 December 2013, the Group recorded a turnover and loss before taxation of approximately RM5.41 million and RM1.29 million respectively.

B2 Variation of results against preceding quarter

•	Current quarter 31 December 2013 RM'000	Preceding quarter 30 September 2013 RM'000
Revenue	916	668
Profit/(Loss) before tax	-622	-563

The Group recorded a turnover of approximately RM0.92 million for the current financial quarter, this represents an improvement of approximately 37% as compared to the preceding financial quarter ("Q3 2013) due to higher sales from its operations in Malaysia and United States of America for the current financial quarter. Despite the higher sales, the Group registered a loss before taxation of RM0.62 million against loss before taxation of RM0.56 million recorded in Q3 2013, mainly due to reversal of impairment loss on trade receivables of RM0.33 million registered in Q3 2013.

B3 Prospects

Facility management as an industry has been growing and demand is increasingly pushed by long-term public private partnership projects due to requirements to not only build but also operate. However, contract negotiations are longer as the market matures further with increasing needs such as sustainability and cost effectiveness. These will add volatility in the near to mid term to the Group's revenue. The Group continues to seek to reduce this volatility through offering cloud computing solutions by subscription and seeks more projects but this volatility provides a challenging year ahead for the Group.

The Group did not announce any profit forecast nor profit guarantee during the financial quarter.

B5 Taxation
