MFRS 15 Revenue from Contracts with Customers

MFRS 9 Financial Instruments (IFRS 9 as issued by International Accounting

Standards Board ("IASB") in July 2014)

The Group and the Company will adopt the above pronouncements where applicable when they become effective in the respective financial periods. These pronouncements are not expected to have any material effect to the financial statements of the Group and of the Company upon their initial application other than the two standards described below, for which the effects of adoption are still being assessed.

^{*} The effective date of these Standards have been deferred, and yet to be announced by MASB.

(a) MFRS 15 Revenue from Contracts with Customers

MFRS 15 Revenue from Contracts with Customers was issued in September 2014 and established a five-step model that will apply to revenue recognition arising from contracts with customers as follows:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

Under this Standard, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The principle of this Standard is to provide a more structured approach to measuring and recognising revenue.

(b) MFRS 9 Financial Instruments

In November 2014, the MASB issued the final version of MFRS 9 Financial Instruments, replacing MFRS 139. This Standard makes changes to the requirements for classification and measurement, impairment and hedge accounting. MFRS 9 Financial Instruments also requires impairment assessments to be based on an expected loss model, replacing the MFRS 139 incurred loss model. Finally, MFRS 9 Financial Instruments aligns hedge accounting more closely with risk management, establishes a more principle-based approach to hedge accounting and addresses inconsistencies and weaknesses in the previous model.

This Standard will come into effect on or after 1 January 2018 with early adoption permitted. Retrospective application is required, but comparative information is not compulsory.
