QUARTERLY REPORT FOR THE SECOND QUARTER ENDED 30 JUNE 2016

NOTES

B ADDITIONAL INFORMATION REQUIRED BY THE ACE MARKET LISTING

B1 Review of performance

The Group posted a significant hike in the revenue for the current quarter of RM20million which represents a substantial increase as compared to the same quarter in the preceding year mainly due to higher volume of oil trading and bunkering activities. There have been no significant changes in the profit before tax for the current quarter as compared to the preceding year corresponding quarter despite the higher sales recorded due to lower margins from oil trading and bunkering segment.

B2 Variation of results against preceding quarter

	0	•	Current	Preceding
			quarter	quarter
			30 June	31 March
			2016	2016
			RM'000	RM'000
Revenue			20,231	9,852
Profit before tax			19	5

The significant improvement in the revenue of the Group for the current quarter of RM20million representing more than a two-fold increase as compared to the preceding quarter is mainly attributed to the higher oil trading volume transacted during the current quarter.

Despite the significant increase in the revenue during the current quarter, the Group registered only a marginal increase of RM14k in its profit before tax due to the lower margin earned from oil trading and bunkering segment. Higher profit before tax is also due to lower other operating expenses namely depreciation of property, plant and equipment.

B3 Prospects for current financial year

The Group expects to continue to face challenges in its water filter trading activities for the coming financial year due to competition from cheaper products in the market. The management is also of the view that prospects for trading and distribution of fast consumer goods for flood aid victims is highly dependent on weather and availability of government aid programs, and is thus unpredictable and cannot be depended upon as a sustainable business.

In building a long term sustainable business model, the Group has diversified its principal activities to include oil bunkering and trading in oil products to increase the revenue streams and enhance the prospects of the Group. The Group's strategy is to diversify into oil bunkering and trading of oil products which have consistent demand and growth prospects, instead of depending solely on its existing trading of water filtration components and fast consumer goods activities.

B4 Profit forecast and profit guarantee

Not applicable as the Group has not previously provided a profit forecast in a public document or a profit guarantee.

B5 Taxation

No provision for income tax has been made during the current quarter as the Group has sufficient unutilised tax losses to set off the tax payable.

B6 Unquoted investments and properties

There were no acquisitions or disposals of unquoted investments or properties during the financial quarter under review.

B7 Quoted and marketable securities

The Group does not hold any quoted or marketable securities as at 30 June 2016. There were no purchases or disposals of quoted securities for the current quarter.

B8 Status of corporate proposal
