The Group recorded revenue and loss after taxation ("LAT") of RM 89.2 million and RM 11.3 million, respectively for the quarter ended 30 June 2021 ("Q3FY2021"). Refer Notes B2 and B3 below for a detailed review of the Group's performance.

B2. COMPARISON WITH PRECEDING QUARTER'S RESULTS

Comparing with Q2FY2021, HDD and Automotive segments posted positive growth following the recovery in the export market for these products. EMS recorded a decline due to partial shutdown of some customers' factories as a result of the pandemic. PPE segment continues to grow with the development of new export markets and customer base for our gloves.

The Group recorded a loss of RM 11.3 million mainly due to our machining business which were affected by the MCO, rise in metal cost of up to 60% and labour shortage. Secondly, the start-up expenses incurred on our glove manufacturing as new lines are ready for testing and commissioning.

Product mix:

B3. PROSPECTS FOR THE CURRENT FINANCIAL YEAR

Business Outlook Q3 FY2021:

Concerning the loss in Q3, the principal reasons were:

- 1. Revenue from the metal business dropped significantly due to the RMCO Covid19 restrictions resulting in loss of production capacity and ability to operate efficiently due to direct Covid cases as well as restriction in capacity for much of the quarter.
- 2. The average LME aluminium price rose to USD2500 a ton and above which the group was not able to pass on material price increase as negotiations took time and meanwhile the main raw material cost is already up.
- 3. In the case of EMS sector, a lot of disruption to the Johor operations depended on the contract manufacturers operational capacity (which were also shut down for extended period in Johor during the period).
- 4. Although the contribution from nitrile glove production and trading started only in the quarter, it was affected by the extended lockdown and only in Q4, this sector began to scale up.
- 5. Higher than expected rejects.
- 6. High depreciation.

At this juncture, only 3 nitrile glove lines are operating and the remaining 3 lines will be ready between October and December 2021. The trading of gloves continues to be substantially more than the produced gloves. The ASP of nitrile gloves has dropped sharply to the USD4 to 5 range on a per box of 100 gloves but our supplier's prices are lower in accordance to market prices and lower demand conditions. The nitrile glove is a high-volume commodity business and challenges are found in maintaining good quality, funding and finding markets for the product and managing risks.

Sector Revenue:

(RM'000)	Q2 FY2021	Q3 FY2021
HDD	23,827	27,133
Auto	24,610	25,408
EMS & others	18,728	12,523
Camera	3,471	2,624
PPE	<u>13,976</u>	<u>21,512</u>
Total:	84,612	<u>89,200</u>

We expect HDD, Auto and EMS sectors to recover after the completion of the 2nd dose vaccination program by the employees of the Klang and Johor factories and also the recovery of markets in line with a better Covid situation globally. Both the face mask and glove businesses are expected to be good for the foreseeable years as Covid turns from being pandemic to endemic with demand for healthcare products to be reasonably strong.
