A11. Changes in Composition of the Group

There were no changes in the composition of the Group for the current financial quarter and period.

A12. Contingent Assets or Changes on Contingent Liabilities

There were no contingent assets or contingent liabilities as at 30 September 2023.

A13. Significant Related Party Transaction

All related party transactions and balances within the Group had been entered into in the normal course of business and were carried out on normal commercial terms during the current financial quarter and period.

A14. Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group.

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. Fair value is recognised into different levels in a fair value hierarchy based on the input used in the valuation technique as follows:

• Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date.

• Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

• Level 3: Unobservable inputs for the asset or liability.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy based on the lowest level input that is significant to the fair value measurement as a whole.

CONSOLIDATED INTERIM FINANCIAL STATEMENTS FOR THE QUARTER ENDED 30 SEPTEMBER 2023

A14. Fair Value Measurement (Cont'd)

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the financial year end.

In the current quarter, the Group recorded increase in revenue amounting to RM0.77 million as compared to the preceding year quarter mainly due to higher income from factoring business and trading business amounting to RM1.02 million and RM0.40 million.

The improvement in gross profit and gross profit margin for the current quarter in comparison to the preceding year quarter was mainly due to higher gross profit derived from the factoring business.

In the current quarter, the Group recorded higher loss after tax of RM4.31 million as compared to preceding year's quarter loss after tax of RM2.72 million due to higher depreciation of property, plant and equipment and fair value loss on quoted shares.

The Group registered lower revenue and gross profit of RM5.28 million and RM2.63 million respectively for the current quarter as compared to the immediate preceding quarter's revenue and gross profit of RM6.77 million and RM3.70 million respectively. The increase in revenue and gross profit was mainly attributed to higher revenue from the factoring business, research and development & assembling and technology & corporate advisory in the preceeding quarter.

The Group recorded loss after tax of RM4.31 million as compared to the immediate preceding quarter's loss after tax of RM5.89 million due to impairment on other investment, impairment loss on trade and other receivables and higher tax expense in the preceding quarter.

B3. Commentary on Prospects

The Malaysia economy had experienced a subdued growth throughout 2023 contributed by evolving expectations over the global monetary policy path to calm the rising inflation, and ongoing Russo-Ukrainian and Hamas-Israel conflicts that have spillover negative impacts towards all industries striving towards pre-pandemic normalcy.

As we are drawing a close to year 2023, we remain cautious towards year 2024 outlook as deepening geopolitical tensions, persistent inflationary, ongoing supply chain disruption and the Malaysian currency exchange rate fluctuation concerns remain high. These factors could negatively strain against the Group's sales margin especially towards our digitilisation system integrator and trading & distribution businesses as our products are generally manufactured from overseas brands. Our factoring services segment remains intact moving forward and aims to grow the business with additional funding to be raised from the proposed Rights Issue with Warrants subject to Bursa Securities' approval.

Our digital marketing segment operational since FYE 2023 has doubled in their revenue result to RM0.24 million as compared to RM0.11 million in precedent quarter FYE 2023. The team was recently involved in the public relation engagement of the Timur Flores (or Timur Schnyder)'s new music single official release titled – Dance Through My Heart.

Moving forward, we opined that the risks to the inflation remain high subject to changes to domestic policy on subsidies and price controls, as well as geopolitical and financial market developments. At the same time, we will be closely monitoring the Government's Madani budget 2024 initiatives in aim to tap its potential area to improve our overall financial performance. All our respective business segments have made necessary business plans to navigate these choppy environments.
