#### CONSOLIDATED INTERIM FINANCIAL STATEMENTS FOR THE QUARTER ENDED 31 MARCH 2024

#### A10. Events after the End of the Quarter

On 19 March 2024, the Company announced the consolidation of every 20 existing ordinary shares in the Company into 1 share. On 4 April 2024, the shares consolidation has been completed following the listing and quotation of 72,470,289 Consolidated Shares on the ACE Market of Bursa Securities.

### A11. Changes in Composition of the Group

There were no changes in the composition of the Group for the current financial quarter and period.

### A12. Contingent Assets or Changes on Contingent Liabilities

There were no contingent assets or contingent liabilities as at 31 March 2024.

#### A13. Significant Related Party Transaction

All related party transactions and balances within the Group had been entered into in the normal course of business and were carried out on normal commercial terms during the current financial quarter and period.

#### A14. Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group.

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. Fair value is recognised into different levels in a fair value hierarchy based on the input used in the valuation technique as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: Unobservable inputs for the asset or liability.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy based on the lowest level input that is significant to the fair value measurement as a whole.

#### CONSOLIDATED INTERIM FINANCIAL STATEMENTS FOR THE QUARTER ENDED 31 MARCH 2024

#### A14. Fair Value Measurement (Cont'd)

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the financial year end.

In the current quarter, the Group recorded increase in revenue amounting to RM0.93 million as compared to the preceding year quarter mainly due to increase in revenue from trading business and ICT and fintech business amounting to RM0.24 million and RM0.65 million respectively offset against decrease in factoring business of RM0.21 million.

For the 9-months period ended 31 March 2024, the Group recorded revenue of RM19.42 million, a huge improvement amounting to RM3.70 million as compared to the preceding 9-months period ended 31 March 2023 amounting to RM15.72 million. The improvement in revenue was mainly due to increase of income from trading business amounting to RM1.37 million, increase in revenue from overall ICT and fintech business amounting to RM0.85 million and increase in revenue from factoring business amounting to RM1.30 million. On the other hand, the revenue contribution from Taiwan's fintech business decreased by RM3.39 million as a result of downsizing and streamlining of its operations.

For the current quarter, gross profit and gross profit margin has reduced as compared to the preceding year quarter resulting from lower gross profit derived from the ICT and fintech business and factoring business amounting to RM0.37 million and RM0.25 million respectively.

In the current quarter, the Group recorded loss after tax of RM4.86 million as compared to preceding year's quarter loss after tax of RM1.63 million mainly due to downsizing and streamlining of Taiwan's fintech business and increase of depreciation of property, plant and equipment amounting RM0.24 million and one-off loss on disposal of property, plant and equipment amounting RM0.53 million in the current financial year quarter.

For the 9-months period ended 31 March 2024, the Group recorded loss after tax of RM10.85 million as compared to the preceding 9-months period ended 31 March 2023 loss after tax of RM2.90 million. The higher loss after tax recorded for the current 9-months period ended 31 March 2024 was due to one-off fair value loss on quoted shares amounting to RM1.73 million and lower fair value gain on other investment recorded by RM1.15 million and one-off gain on dilution of interest in subsidiaries amounting to RM2.67 million in the preceding 9-months period ended 31 March 2023.

#### CONSOLIDATED INTERIM FINANCIAL STATEMENTS FOR THE QUARTER ENDED 31 MARCH 2024

# B2. Material Changes in Financial Performance for the Quarter Compared with Immediate Preceding Quarter

	Quart		
Group Results	31.03.2024 RM'000 (unaudited)	31.12.2023 RM'000 (unaudited)	Changes (%)

Loss after tax margin (%)	(86.2)	(19.7)	
Loss attributable to Owners of the Company	(3,891)	(1,490)	(161)

The Group registered lower revenue and gross profit of RM5.63 million and RM1.89 million respectively for the current quarter as compared to the immediate preceding quarter's revenue and gross profit of RM8.50 million and RM3.66 million respectively. The reduced in revenue and gross profit was mainly attributed to decrease of revenue from the factoring business by RM0.82 million and trading of ICT products business by RM2.23 million and mitigated by increase in trading business amounting to RM0.28 million in the current quarter.

The Group recorded loss after tax of RM4.86 million as compared to the immediate preceding quarter's loss after tax of RM1.67 million mainly due to downsizing of Taiwan's ICT operations which resulted a loss after tax amounting to RM1.79 million in the current financial year quarter.

#### **B3.** Commentary on Prospects

Malaysia's economy continues to show resilience with a 4.2% GDP growth in this current quarter, driven by private expenditure and improved exports, and stabilising inflation rate. With this in view, the Group continues to focus strategically expanding our footprint within our existing businesses especially for financial services, ICT and Fintech, and trading segments.

#### ICT and Fintech

Our digitilisation business continues to seek new project prospects in both the private and government sectors. We are actively engaged in ongoing projects, including data center builds, cybersecurity initiatives, collaborations, Microsoft solutions, and co-location fulfillments, all of which are slated for completion throughout 2024.

Concurrently, we have successfully secured a major networking infrastructure project located in One Northern Hub, Bukit Kayu Hitam. This project involves an integrated, sustainable logistics hub for the Royal Malaysian Customs Department, designed to handle an annual throughput of 200,000 containers. The project includes warehouses and cross-dock facilities for cargo consolidation and container stuffing. Our target completion date for this project is June 2024.

#### Financial Services

Our financial services segment has consistently grown, with the Group actively pursuing more factoring business, resulting in an upward trend in revenue to date. Simultaneously, we are exploring additional funding opportunities beyond the recent corporate exercise to further enhance business expansion. Meanwhile, our trading division has achieved positive revenue growth due to strategic marketing efforts, including various promotional activities and product sales.

#### CONSOLIDATED INTERIM FINANCIAL STATEMENTS FOR THE QUARTER ENDED 31 MARCH 2024

#### **B3.** Commentary on Prospects (Cont'd)

#### Trading

Pacifica Direct, our wholesale distribution business, has now expanded to over 500 SKUs in various ranges, including digital signage, ICT hardware, lifestyle products, mobile phones, and small kitchen appliances. We are currently working on a corporate marketplace, an e-commerce website targeting corporations, as part of the B2B wholesale initiative to increase our distribution presence. At the same time, we are looking into setting a physical distribution location within the golden triangle.

Our WineLourve business has been making inroads with wine accessories after securing the sole distributorship for the Lehmann and Zalto brands. Currently, we are exploring setting up a retail store to increase the wine brand's offerings that would complement our exclusive private lounge and dining setting.

The Group remains dedicated to careful decision-making, conducting thorough feasibility studies and analyses before finalising any actions, while also decisively shifting towards more sustainable methodologies to capitalise on opportunities presented by this new direction.
