#### A EXPLANATORY NOTES PURSUANT TO MFRS 134 INTERIM FINANCIAL REPORTING

#### A1 Basis of Preparation

The interim financial statements are unaudited and have been prepared in accordance with the requirements of the Malaysian Financial Reporting Standard ("MFRS") 134: Interim Financial Reporting and paragraph 9.22 of the Main Market Listing Requirement of Bursa Malaysia Securities Berhad ("Bursa Securities"). The interim financial statements should be read in conjunction with the audited financial statements of the Group for the financial year ended 31 December 2018.

The explanatory notes attached to the interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the financial year ended 31 December 2018.

The financial statements of the Group have been prepared on the assumption that the Group will continue as going concern. The application of the going concern basis is on the assumption that the Group will be able to realise their assets and settle their liabilities in the normal course of business.

- (a) As of 30 June 2019, the Group have a capital deficiency of RM145.3 million and the current liabilities of the Group had exceeded the current assets by RM195.1 million as a result of losses incurred during the current period and previous financial years.
- (b) On 28 February 2018, the Company announced that it has become an affected listed issuer pursuant to Paragraph 8.04 and Paragraph 2.1 (a) of Practice Note 17 ("PN17") of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Malaysia"). As an affected listed issuer, the Company is required to submit a regularisation plan to address the PN17 status within 12 months from 28 February 2018 to the relevant authorities for approval. However, the Company had, on 15 February 2019 made an application to Bursa Malaysia for extension of time up to 27 August 2019 to submit a regularisation plan to the relevant authorities. On 8 March 2019, the Company announced that it has obtained an extension of time up to 27 August 2019 for submission of a regularisation plan. The Company has on 19 August 2019 submitted an application to Bursa Securities seeking its approval for a further extension of time of 9 months until 27 May 2020 for the Company to submit the regularisation plan to Bursa Securities, and the further extension of time application is currently being reviewed by Bursa Securities.
- (c) As disclosed in Note B9(c), Daya Maritime Limited ("DML"), a subsidiary of the Company and the Company being the corporate guarantor, had on 16 November 2018 received a writ of summons together with the statement of claim dated 8 November 2018 from a licensed financial institution relating to principal outstanding and late payment penalty of Islamic financing facility amounting to USD14,490,768 (equivalent to RM60,223,632). On 18 April 2019, the Kuala Lumpur High Court's judge has allowed the licensed financial institution's application for summary judgement to be entered. The total amount of the principal outstanding as of 30 June 2019 had been classified as current liabilities and late payment penalty had been accrued up to 30 June 2019 and included in other payables and accrued expenses.
- (d) As disclosed in Note A10, subsequent to the current interim financial period, certain subsidiaries of the Company had received letter of reminder, notices of demand and intention to repossess from licensed financial institutions for failure to pay the monthly instalments under the hire-purchase facilities granted by the licensed financial institutions. Certain subsidiaries of the Company had also defaulted the repayment of certain trade facilities. The Company acts as corporate guarantor for these credit facilities.

In the event of default in payment, the licensed financial institutions shall have the right to terminate and/or recall the hire-purchase and trade facilities without further notice and take legal action against the subsidiaries and the Company, as corporate guarantor.

The directors have concluded that the combination of the circumstances highlighted above indicate significant matters that may cast significant doubt over the ability of the Group to continue as going concern. Should the going concern basis for the preparation of the financial statements be no longer appropriate, adjustments will have to be made to restate the carrying value of the assets to their recoverable amounts and to provide for further liabilities which may arise.

The Company is in the midst of formulating a Proposed Regularisation Plan to address the financial condition of the Group and believes that the Proposed Regularisation Plan once formulated and implemented, together with the disposal of identified assets in order to generate cash flows to make timely repayments of loans and borrowings and the ability of the Group to achieve sustainable and viable operations, will enable the Group to reduce liabilities and generate sufficient cash flows to meet their obligations.

For these reasons, the directors are of the opinion that the Group will be able to continue in operational existence for the foreseeable future and to realise their assets and settle their liabilities in the ordinary course of business.

The appropriateness of the going concern basis, amongst others, are dependent upon the following:

- Formulation of a viable plan to regularise the financial conditions of the Group ("Regularisation Plan") for submission to Bursa Malaysia and other relevant authorities for approval;
- (ii) Approvals obtained from all relevant parties on the Regularisation Plan;
- (iii) Timely and successful implementation of the Regularisation Plan;
- (iv) Ability of the Group and of the Company to dispose of identified assets in order to generate cash flows to make timely repayments of loans and borrowings; and
- (v) Ability of the Group and of the Company to achieve sustainable and viable operations to generate sufficient cash flows to enable them to meet their obligations as and when they fall due.

#### **A2** Significant Accounting Policies

In the preparation of this condensed consolidated interim financial statements, the accounting policies and the method of computation of the most recent annual financial statements were followed except as disclosed below:-

#### (a) Adoption of Standards, Amendments and Annual Improvements to Standards

The Group adopted the following MFRs, Amendments to MFRSs and IC Interpretation as listed below:-

Description	Effective for annual periods beginning on or after	
MFRS 16	Leases	1 January 2019
Amendments to MFRS 9	Prepayment Features with Negative Compensation	1 January 2019
Amendments to MFRS 119	Plan Amendments, Curtailment or Settlement	1 January 2019
Amendments to MFRS 128	Long Term Interets in Associates and Joint Ventures	1 January 2019
IC Interpretation 23	Uncertainty over Income Tax Treatments	1 January 2019
Annual Improvements to MFF	RSs 2015 - 2017 Cycle	1 January 2019

#### MFRS 16 Leases

MFRS 16 specifies how a MFRS reporter will recognise, measure, present and disclose leases. The standard provides a single lessee accounting model, requiring lessees to recognise assets and liabilities for all leases unless the lease term is 12 months or less or the underlying asset has a low value. Lessors continue to classify leases as operating or finance, with MFRS 16's approach to lessor accounting substantially unchanged from its predecessor, MFRS 117 Leases.

At lease commencement, a lessee will recognise a right-of-use asset and a lease liability. The right-of-use asset is treated similarly to other non-financial assets and depreciated accordingly and the liability accrues interest. The lease liability is initially measured at the present value of the lease payments payable over the lease term, discounted at the rate implicit in the lease if that can be readily determined. If that rate cannot be readily determined, the lessees shall use their incremental borrowing rate.

The directors of the Company reviewed and assessed the operating leases as at 1 January 2019 based on the facts and circumstances that existed at that date and concluded that the initial application of MFRS 16 has had the following impact:

The Group

	1 1 010ap
	1.1.2019
	RM'000
Accumulated losses before adjustment	(419,382)
Recognition of right-of-use asset and lease liability	(94)
Accumulated losses after adjustment	(419,476)

The initial application of MFRS 16 has had no impact on basic and diluted earnings per share as at 1 January 2019.

#### (b) Standards and Amendments in issue but not yet effective

At the date of authorisation of these interim financial statements, the following MFRSs and Amendments to MFRSs were in issue but not yet effective and not early adopted by the Group are as listed below:

but not yet enective and not t	sarry adopted by the Oroup are as hotel below.

#### **B1** Review of Performance

For the current financial quarter and year-to-date, the Group recorded a lower revenue of RM49.3 million and RM96.6 million compared to RM80.4 million and RM170.8 million reported in the preceding year's corresponding financial quarter and year-to-date, representing a decrease of RM31.1 million, or 38.7%, and RM74.2 million, or 43.4%, respectively. The lower revenue reported was mainly due to lower revenue contribution from the Technical Services Segment attributable to fewer ongoing projects following the completion of few construction projects in the previous financial year.

Despite reporting a lower revenue, the Group's loss before tax ("LBT") narrowed to RM7.1 million and RM7.2 million for the current quarter and year-to-date from a LBT of RM16.0 million and RM11.4 million reported in the preceding year's corresponding quarter and year-to-date, representing an improvement of RM8.9 million and RM4.2 million, respectively. The lower losses reported in the current quarter and year-to-date was mainly due to reversal of liquidated ascertained damages (LAD) for a construction project by the Technical Sevices Segment, but was offset by provision for impairment loss on machinery and equipments held for sale by the Oil & Gas Segment.

The review of the Group's performance by each segment is as follows:

#### (i) Oil & Gas ("O&G") Segment

The O&G segment reported a loss before interest and tax ("LBIT") of RM9.5 million and RM7.1 million in the current quarter and year-to-date compared to a LBIT of RM2.3 million and a profit before interest and tax ("PBIT") of RM2.4 million in the preceding year's corresponding quarter and year-to-date, representing a negative variance of RM7.2 million and RM9.5 million, respectively. The negative variance was mainly due to provision for impairment loss on machinery and equipments held for sale in the current quarter end.

#### (ii) Technical Services ("TS") Segment

The TS Segment reported a higher PBIT of RM6.7 million and RM8.7 million in the current quarter and year-to-date compared to a LBIT of RM0.2 million and a PBIT of RM7.9 million in the preceding year's corresponding quarter and year-to-date, representing a positive variance of RM6.9 million and RM0.8 million, respectively. The improved PBIT was mainly due to reversal of LAD in the current quarter end.

Revenue Loss before tax

The Group reported loss before tax of RM7.1 million for the current financial quarter compared to RM0.1 million in the immediate preceding financial quarter, representing a negative variance of RM7.0 million due mainly to provision for impairment of property, plant and equipment held for sale of RM17.2 million and partly offset by reversal of provision for liquidated ascertained damages of RM9.2 million in the current quarter.

#### **B3** Prospects

The prospects for each of the operating segment is illustrated as below:

While the well intervention and diagnostic services business is expected to remain in demand in both the domestic and international markets. To further capitalise on its O&G project management and work capabilities, the Group is exploring opportunities in oil and gas fabrication works.

In relation to the O&G mobile cranes and specialised lifting services, the Group will continue to service and fulfil its contractual obligation until the expiry of the current contract. In the meantime, the Group has kicked start the implementing process to exit the business which should be completed by end year 2019.

#### B7 Status of Corporate Proposals (cont'd)

#### (iii) Practice Note 17 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad

On 28 February 2018, we triggered the prescribed criteria under Paragraph 2.1(a) of Practice Note 17 ("PN17") of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Securities") ("Listing Requirements"), due to our shareholders' equity on a consolidated basis falling below RM40 million and represented less than 25% of our issued share capital based on our unaudited consolidated financial statements for the financial year ended 31 December 2017.

Then on 4 March 2019, we triggered the prescribed criteria under Paragraph 2.1(f) of PN17 as a result of the default by our major subsidiary, namely Daya Proffscorp Sdn Bhd, in the payment of both the principal sum and interest to Malayan Banking Berhad and Small Medium Enterprise Development Bank Malaysia Berhad, and our inability to provide a solvency declaration to Bursa Securities.

Thereafter on 6 May 2019 we triggered the prescribed criteria under Paragraph 2.1(d) of PN17 of the Listing Requirements today as our auditors, Messrs Deloitte PLT, have expressed a disclaimer of opinion in our financial statements for the financial year ended 31 December 2018.

The Company is still formulating a plan to regularise our financial condition ("Regularisation Plan"). We were required to submit the Regularisation Plan by 27 February 2019 and on 8 March 2019, Bursa Securities granted the Company an extension of time up to 27 August 2019 to submit the Regularisation Plan to the regulatory authorities.

In view that the purchaser under the Proposed Disposal, KPSB, is a person connected with GBSB (being the purchaser under the Previous Disposal), and the terms of the Previous Disposal and Proposed Disposal were agreed upon within a period of 12 months, the Previous Disposal and the Proposed Disposal are aggregated and treated as if they were 1 transaction pursuant to Paragraph 10.12(a) of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Securities") ("Listing Requirements"). #### (a) Kuala Lumpur High Court Suit No. 22C-61-12/2015

The abovementioned suit by Yuk Tung Construction Sdn. Bhd. ("YT") arose out of a construction contract executed between Daya CMT Sdn. Bhd. ("DCMT"), a subsidiary of the Company, and YT on 23 November 2012. DCMT was appointed as Principal Sub-Contractor to carry out the construction and completion of building works ("Contract"). The Contract Sum for the works was RM270,000,000 on a lump sum basis. The completion date for the works under the Contract was 14 November 2014. The liquidated damages imposable for delay in completion of the works was agreed at RM70,000 per day.

On 22 December 2015, YT terminated DCMT's employment under the Contract relying on the alleged reason that DCMT had failed to proceed with works regularly and diligently. YT had also called on the performance bond given under the Contract. On 23 December 2015, DCMT filed and claimed against YT on the basis that (i) the Contract was wrongfully terminated, (ii) the performance bond was wrongfully called upon; and (iii) DCMT is entitled to significant extension of time under the Contract.

DCMT has also initiated a claim under the Construction Industry Payment and Adjudication Act 2012 ("CIPAA") for outstanding payment inclusive of value of works done, works certified, non-release of retention sum, among others.

On 30 January 2018, the Kuala Lumpur High Court ("High Court") delivered the judgement for the above suit where the High Court awarded net damages of RM14,282,880.05 to DCMT comprising the following with judgement interest of 5% per annum commencing from the date of filing of DCMT's Statement of Claim on 9 June 2016:

	KIVI
Damages in favour of DCMT (variation works submitted pre and post termination, rental expenses and	
return of part retention sum)	31,534,895
Performance bond to the credit of DCMT	13,500,000
Damages in favour of YT (additional costs of completion and liquidated ascertained damages for delay)	(30,752,015)
Net damages awarded in favour of DCMT	14.282.880

From the above said judgement sum, on 9 November 2018, YT paid the amount of RM7,662,194 being payment to DCMT for the principal sum plus interest which was made to the bank account of DCMT, with DCMT's bank undertaking to pay YT the same in the event of YT succeeds in overturning the judgement of DCMT in the Court of Appeal.

High Court further awarded an indemnity of RM2,643,353 to DCMT for Goods and Services Tax ("GST") that has been paid to Royal Malaysian Customs by DCMT in regards to the performance of work related to the Contract, where DCMT will have the right to recover the same from YT in the event that DCMT is unable to obtain a refund or relief from Royal Malaysian Customs within 6 months from the date of the judgment. The GST refund was subsequently approved by the Royal Malaysian Customs on 21 June 2018.

In addition, the High Court's delivered judgement also includes damages awarded in favour of YT amounting to RM30,752,015 in relation to additional costs to complete and liquidated ascertained damages for delay. Included in the Group's trade receivables balance is an amount of RM15,290,000 representing liabilities provided in regards to the potential amount payable to YT.

Included in the statements of financial position of the Group are the following balances which are subject to the above suit:

	The Group		
	30.06.2019	31.12.2018	
	RM	RM	
Trade receivables (net of provision for LAD of RM15,290,000)	22,358,770	22,358,770	
Prepaid expenses	22,891,444	22,891,444	
Amount due from sub-contractor	30,576,132	30,576,132	
	53,467,576	53,467,576	
Less: Allowance for doubtful debts	(44,551,469)	(44,551,469)	
	8,916,107	8,916,107	
	31,274,877	31,274,877	

DCMT has filed a Notice of Appeal on 27 February 2018, to appeal for the Court to set aside the damages awarded to YT and to uphold that the Contract had been wrongfully and prematurely terminated by YT. The hearing of the Appeal is fixed on 20 November 2019. Upon considering the Group's lawyer's legal opinion, the directors are of the opinion that DCMT would have a strong chance of success in the appeal.

The full recoverability of the amount owing by the said customer as disclosed above, as well as whether the provision for liability recognised in the financial statements is adequate is highly dependent on the success of the appeal proceeding.

#### **B13 Auditors' Report on Preceding Annual Financial Statements**

The Auditors had provided a Disclaimer of Opinion and do not express an opinion on the financial statements of the Group for the financial year ended 31 December 2018 on the following basis:

- (a) Going concern assumptions as the Group have, as of 31 December 2018, a capital deficiency of RM136.2 million and current liabilities of the Group had exceeded the current assets by RM214.1 million as a result of losses incurred in the current and previous finnacial years.
- (b) The Group is highly dependent upon the successful approval and implementation of the proposed regularisation plan pursuant to Paragraph 8.04 and Paragraph 2.1 (a) of Practice Note 17 ("PN17") of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Malaysia"). As an affected listed issuer, the Company is required to submit a regularisation plan to address the PN17 status within 12 months from 28 February 2018 to the relevant authorities for approval. However, the Company had, on 15 February 2019 made an application to Bursa Malaysia for extension of time up to 27 August 2019 to submit a regularisation plan to the relevant authorities. On 8 March 2019, the Company announced that it has obtained an extension of time up to 27 August 2019 for submission of a regularisation plan.

Management of the Company is currently in the process of formulating a regularisation plan and consequently, there is insufficient information available on the eventual regularisation plan and how it would address the present financial conditions of the Group.

- (c) During and subsequent to the financial year end, certain subsidiaries of the Company had defaulted the repayment of certain trade and hire purchase facilities and had received writ of summons together with statements of claims, letters of reminder and notices of demand and intention to repossess for failure to pay the monthly instalments and outstanding sum under the financing facilities granted by licensed financial institutions. The Company acts as corporate guarantor for these facilities. In the event of default in payment, the licensed financial institutions shall have the right to terminate and/or recall the financing facilities without further notice and take legal action against the respective subsidiaries and the Company, as corporate guarantor.
- (d) DCMT, a subsidiary of the Company, has been involved in a litigation with a customer to recover debts under a construction contract which had been prematurely terminated by the customer, where amount recoverable included in the statements of financial position is RM31.3 million. Whilst the High Court had delivered its judgement in favour of DCMT for sums totaling RM31.5 million and performance bond to the credit of DCMT of RM13.5 million, it also awarded the customer damages amounting to RM30.8 million in respect of additional costs to complete and liquidated ascertained damages for delay, for which DCMT has made a provision of RM15.3 million as of 31 December 2018. No further provision is made as DCMT is in the midst of an appeal proceeding against the decision and based on the legal advice obtained, DCMT believes that it has a strong chance of success in the appeal proceeding.

In addition, DCMT had received writ of summons and statement of claim from the said customer claiming for rectification costs amounting to RM7.3 million arising from purported defects in DCMT's scope of works. The hearing of arbitration is fixed in November 2019. No provision is made in the financial statements and based on the legal advised obtained, DCMT believes that it has reasonable chance of success in resisting the claim by the customer in the arbitration proceeding.

(e) On 7 April 2017, the Company and DG1PL entered into a Put Option Agreement ("Put Option") as part of the terms of financing obtained by Siem OCV Pte Ltd ("SOCV") to finance the acquisition of DG1PL by SOCV from the Company. The disposal of DG1PL to SOCV was completed on 19 September 2017. The Put Option grants DG1PL the right, during the 7 years from 14 September 2017, to require the Company to purchase Siem Daya 1 Vessel ("SD1 Vessel") from DG1PL for a sum equivalent to the amount that is sufficient to fully repay the amount outstanding of the financing facility at the date the Put Option is exercised.

Consequently, the Company has to assess the likelihood of the Put Option being exercised by SOCV to determine whether a provision for the liability is to be recognised. In order to perform the assessment, the Company made an effort to obtain information on the fair value of the SD1 Vessel and the outstanding amount of the financing facility of SOCV. However, the Company was unable to obtain the required information.

In view of the uncertainties involving the timing and successful formulation and implementation of the Regularisation Plan, including possible monetisation of assets of the Group, the outcome of the appeal and arbitration proceedings and the likelihood of the Put Option being exercised as mentioned above, the Auditors were unable to obtain sufficient appropriate audit evidence to determine whether the management's use of the going concern basis in the preparation of the financial statements of the Group was appropriate.

Status of the above audit matters and steps taken to address those audit matters are as follow:

- the Company is still formulating the Regularisation Plan and has up to 27 August 2019 to submit its Regularisation Plan to the regulatory authorities for approval;
- (ii) an adviser has been appointed to undertake a complete debt-restructuring exercise for the Group and is in the midst of discussion with the licensed financial institutions to regularise the oustanding payments that are in defaults;
- (iii) the Group is in the midst of identifying non-revenue generating assets for disposal in order to generate cash flows for working capital requirements;
- (iv) the Group is undergoing a major re-sizing and cost cutting initiatives of its core subsidiaries. For continuous loss-making subsidiaries, decision will be made whether to wind down or exit the business entirely; and
- (v) the Group is continuously exploring opportunities to improve the existing order book.
