B2 Comparison of Loss/(Profit) Before Taxation with the Immediate Preceding Financial Quarter

	Quarter ended 31.03.2024 RM'000	Quarter ended 31.12.2023 RM'000	
Revenue	65,847	35,074	
Loss/(Profit) before tax	(2,148)	935

These expenses are aimed at retaining our key assets, particularly human capital and talent.

B3 Prospects

The Group remains unwavering in its dedication to achieving sustained long-term growth for all stakeholders by optimising its business operations for optimal performance. Consistent with this strategic direction, PGB recently sold its entire equity stake in Propel Chemicals Sdn Bhd ("PCSB"), aiming to streamline focus by exiting segments with limited growth potential and reallocating resources to profitable and sustainable ventures.

Moreover, PGB has completed the acquisition of E-Maintenance Sdn Bhd ("EMSB"). This acquisition allows the Group to leverage its service offerings to the established customer base of EMSB, fostering revenue growth through a stable and profitable business model characterised by consistent cash flow and promising long-term prospects.

Locally, the construction sector is set to see significant growth in 2024, driven by substantial government investment and infrastructure projects. The Malaysian government has allocated RM90 billion for development expenditure in 2024, which includes large-scale projects such as the Penang Light Rail Transit (LRT), Sabah-Sarawak link road, and the reinstatement of LRT 3. Additionally, projects like the Mass Rapid Transit 3 (MRT3) are expected to drive further construction activity.

Similarly, the oil and gas industry in Malaysia is poised for resurgence, supported by the national oil company Petronas' planned capital expenditure of RM60 billion in 2024. This investment focuses on upstream activities and renewable energy projects, aligning with global energy demand and sustainability goals. Petronas' commitment to increasing production capacity and exploring new fields is expected to create numerous opportunities for service providers and contractors in the sector.

Despite a cautious global economic outlook marked by sluggish growth in major economies, escalating geopolitical tensions, tightening financial market conditions, and increasing costs alongside interest rate hikes, the Group acknowledge the presence of uncertainties both domestically and internationally.

While the Group prepared with proactive measures to navigate potential challenges, the unpredictable nature of market dynamics remains a key consideration. Therefore, the Group will persist in adopting a prudent and cautious approach to navigating future developments, remaining agile and vigilant in making timely decisions and crafting strategies to adapt to an unpredictable and volatile business landscape.
