## CONSOLIDATED INTERIM FINANCIAL STATEMENTS FOR THE QUARTER ENDED 30 JUNE 2020

### A1. Basis of Preparation (Cont'd)

The adoption of the above pronouncements did not have material impact on the financial statements of the Group and of the Company, except as follows:-

#### MFRS 16 Leases

MFRS 16, which upon the effective date will supersede MFRS 117 Leases, introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. Specifically, under MFRS 16, a lessee is required to recognise a right-of-use asset representing its right to use the underlying leased asset and a lease liability representing its obligation to make lease payments. Accordingly, a lessee should recognise depreciation of the right-of-use asset and interest on the lease liability, and also classifies cash repayments of the lease liability into a principal portion and an interest portion and presents them in the statement of cash flows. Also, the right-of- use asset and the lease liability are initially measured on a present value basis. The measurement includes non- cancellable lease payments and also includes payments to be made in optional periods if the lessee is reasonably certain to exercise an option to extend the lease, or not to exercise an option to terminate the lease. This accounting treatment is significantly different from the lessee accounting for leases that are classified as operating leases under the predecessor standard, MFRS 117.

In respect of the lessor accounting, MFRS 16 substantially carries forward the lessor accounting requirements in MFRS 117. Accordingly, a lessor continues to classify its leases as operating leases or finance leases, and to account for those two types of leases differently.

The Group has applied MFRS 16 using the modified retrospective approach, under which the cumulative effect of initial application is recognised as an adjustment to retained earnings at 1 July 2019. Accordingly, the comparative information presented for the financial year ended 30 June 2019 has not been restated – i.e. it is presented, as previously reported under MFRS 117, Leases and related interpretations.

The financial impacts of the adoption of MFRS 16 to the Group in the current financial year are as below:

- (a) On the statements of profit or loss, operating lease rental which were previously included within Profit before tax, were replaced by interest expense on lease liabilities (included within "finance costs") and depreciation of the right-of-use assets (included within "depreciation"); and
- (b) On the statements of cash flows, operating lease rental outflows which were previously recorded within "net cash flows from operating activities" were classified as "net cash flows used in financing activities" for repayment of the principal and interest of lease liabilities.

Other than the above, the Group elected to apply exemption for short-term leases of premises and equipment expiring within twelve (12) months and leases of low-value assets valued at less than RM20,000. The lease payments of these premises and equipment are recognised as an expense on a straight-line basis over the remaining lease terms as permitted by MFRS 16. This expense is presented within 'administrative expenses' in profit or loss.

These effects were evidence on our services across the region that we served include the completed Iconic Sports Apps, Global Data SIM and existing SMS and Apps subscription-based content, which includes some of the newly developed marketing platform has been badly affected.

Delays in receivables, decreases in demand contributing to declines in revenue, adaptation to new operations and processes, as well as clarity about the new normal and the subsequent expectations of the Government of respective countries we served had created other challenges to the Management and the Group.

The advent of COVID-19 has revealed potential weak links in our sector, and the pace and significance of solving these weak links had changed dramatically, pushing forward many decisions and discussions.

Although it remains uncertain when and how the COVID-19 pandemic can be tamed, under current circumstances, the main aim of the operational reviews will be to rationalise existing revenue portfolio and achieve cost efficiency in the midst of the COVID-19 pandemic induced shifts in customers' behaviours and employees' expectations.

A top-down cash management processes, re-prioritizing of business activities, enhancing remotes working approaches with technical and connectivity support has been carried out to find changes or improvisations to ride the waves of adversities.

The Group has entered into the healthcare sector during this COVID-19 pandemic and is engaged in importation and distribution of COVID-19 (SAR-CoV-2) RT-PCR and Antibody test kits from various manufacturing and distribution partners in Australia, China and South Korea to assist the Government in combating this pandemic. A total of 5 test kits were duly submitted to the Medical Devices Authority (MDA), a division of Ministry of Health (MoH), Malaysia under the Special Access Application for approval.
