The Directors are of the opinion that there are no related party transactions which would have material impact on the financial position and the business of the Group during the current financial quarter.

#### **A14.** Fair Value Measurement

The financial assets maturing within the next 12 months reasonably approximate their fair values due to the relatively short-term maturity of the financial instruments.

#### Fair value hierarchy

The table below analyses financial instrument carried at fair value, by valuation method. The different levels have been defined as follows:-

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for assets or liabilities, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

	As at 30.06.2021 RM'000	As at 30.06.2020 RM'000
Level 1 Other investments	704	805

There were no transfers between level 1 and level 2 in the reporting period.

The carrying amounts of other financial assets and liabilities are reasonable approximation of fair values, either due to their short-term nature or that they are floating rate instruments that are re-priced to market interest rates on or near the reporting date except as indicated in their respective notes.

The Group does not have any financial liabilities carried at fair value nor any financial instruments classified as Level 2 and Level 3 as at 30 June 2021.

#### **B3.** Commentary on Prospects

The Malaysian government recently announced National Recovery Plan and updating Standard Operating Procedures (SOPs) for Phase 1, Phase 2 and Phase 3 for various industries to be reopened in states and federal territories, this will drive the country's economic growth. Although this pandemic is ongoing, the primary goal of the Group reviews will be to rationalize current revenue portfolios and maintain cost efficiency in the face of the Covid-19 pandemic, which has caused and will further cause the shifts in customer's spending behaviour as well as the Group employees concern and expectations. Although it is unclear when and how the Covid-19 pandemic will be contained due to new variants, the Group remains optimistic that, thanks to the Malaysian Government's immunisation campaign, the country would achieve herd immunity of 70% as soon as possible.

During this Covid-19 pandemic period, the Group has continued to explore creative solutions on its core business, introducing the Mobile Digital Ecosystem Platform (MDEP) and Mobile Value-Added Service Platform (MVASP), to stay afloat in the messaging and content business, which has been on the decline. To date, the Group is in the development of new services in Programmatic Marketing and Over-the-Top (OTT) video streaming which is slated for commercialization by second half of this year. The new platform on digital media services will meet the current and future overall market needs and demands.

In light of the ongoing Covid-19 pandemic, which has resulted in over 20,000 cases per day, the Group will assist the Ministry of Health Malaysia in combating the rising number of Covid-19 cases. The Group has ventured into the Healthcare Industry with the sale and distribution of Covid-19 Test Kits, and will also offer a one-stop fitness, recovery and wellness studio to serve the health-conscious Malaysian. Instead of focusing on a single core business revenue stream the Group will be able to look at numerous revenue streams for long-term sustainability.
