#### **B3.** Commentary on Prospects

The country had achieved vaccination rate of more than 75% of the total population whereby the vaccination rate for adult had achieved even more than 95% recently. With more economy sectors opening up and the uplift of interstate travel ban in the past few months, it is anticipated that it boosted the country economy which the Group might be benefited from it directly or indirectly barring any unforeseen circumstances in the future.

During this Covid-19 pandemic period, the Group has continued to explore creative solutions on its core business, introducing the Mobile Digital Ecosystem Platform (MDEP) and Mobile Value-Added Service Platform (MVASP), to stay afloat in the messaging and content business, which has been on the decline. To date, the Group is in the development of new services in Programmatic Marketing and Over-the-Top (OTT) video streaming which is slated for commercialization by first half of next year. The new platform on digital media services will meet the current and future overall market needs and demands.

In light of the ongoing Covid-19 pandemic, which has resulted in an average of 5,000 cases daily, the Group will continue to assist the Ministry of Health Malaysia in combating the rising number of Covid-19 cases. The Group has ventured into the Healthcare Industry with the sale and distribution of Covid-19 Test Kits, and will also offer a one-stop fitness, recovery and wellness studio to serve the health-conscious Malaysian. Instead of focusing on a single core business revenue stream the Group will be able to look at numerous revenue streams for long- term sustainability.
