#### Quarterly report on results for the 1st Quarter ended 31 March 2011

### B DISCLOSURE REQUIREMENTS AS SET OUT IN APPENDIX 9B OF BURSA SECURITIES MAIN MARKET LISTING REQUIREMENTS

#### **B1** Review of performance

The Group achieved a revenue of RM21.69 million for the period under review against RM12.98 million in the corresponding period of preceding year, representing an increase of 67%. The increase in revenue against the same quarter last year was attributed to the higher sales recorded from machine vision system (MVS), automated board inspection (ABI) and electronics communication system (ECS). The increase in sales recorded are mainly due to high demand of our new Advanced X-ray Inspection system from new customers in the US market. On the back of this revenue, the Group achieved a profit before tax of RM6.57 million against profit before tax of RM4.50 million in the corresponding quarter, representing an increase of 46% attributed mainly to higher sales recorded. Correspondingly, the Group recorded a profit after tax of RM6.43 million against profit after tax of RM4.40 million in the corresponding quarter, representing an increase of 46%.

#### B2 Variation of results against immediate preceding quarter

The Group recorded revenue and profit before tax of RM21.69 million and RM6.57 million respectively for the current quarter under review against revenue and profit before tax of RM23.40 million and RM8.53 million respectively for the immediate preceding quarter. These represent a decrease of 7% in revenue and 23% in profit against the revenue and profit of the immediate preceding quarter. The slight decrease in revenue and profit were attributed to decrease in sales recorded for MVS as a result of cyclical trend in the semiconductors and electronics industries, typically occurring in the beginning of the year.

#### B3 Prospects for the remaining quarters of current final financial year ending 31 December 2011

Continuous strong demand for machine vision system, automated board inspection and electronics communication system from the leading test and inspection equipment manufacturers and major electronics manufacturing services providers will ensure that our products remain the mainstay of the Group's earnings. In addition, the success of the Advanced X-ray Inspection system in gaining commercial acceptance will add depth and breadth to the Group's business. Barring any unforeseen circumstances, the Board expects the performance of the other quarters of the current financial year to remain strong.

#### B4 Profit forecast, profit guarantee and internal targets

The Group did not provide any profit forecast, profit guarantee and internal targets in any public document or any announcements made.
