- (i) Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

**B. DISCLOSURE REQUIREMENTS AS SET OUT IN APPENDIX 9B OF BURSA SECURITIES**  
**MAIN MARKET LISTING REQUIREMENTS (cont'd)**
**B8 Financial instruments (cont'd)****iii) Fair value (cont'd)**

As at end of the current quarter under review, the carrying amounts of receivables, cash and cash equivalents and payables which are short-term in nature or repayable on demand are reasonable approximations of fair values.

The fair value of long term loans are measured using present value technique by discounting the expected future cash flows using observable current market interest rates for similar liabilities (i.e. Level 2). The fair values measured are considered to be reasonably close to the carrying amount reported as the observable current market interest rates also approximate to the effective interest rates of term loans.

The fair value of forward exchange contracts were quoted by the financial institutions, which normally measured the fair values using present value technique by discounting the differences between contractual forward prices and observable current market forward prices using risk-free interest rate (i.e. Level 2).

There were no transfers between levels of fair value hierarchy during the current quarter under review.
