# QUARTERLY REPORT ON RESULTS FOR THE FOURTH QUARTER ENDED 31 DECEMBER 2022 A. NOTES TO THE INTERIM FINANCIAL REPORT (cont'd)

#### A13 Financial instruments

### i) Derivatives

As at 31 December 2022, the Group's outstanding derivatives are as follows:-

RM'000

Forward exchange contracts - at fair value

- Current assets

282

Derivatives consist of forward exchange contracts which are used to hedge the exposure to currency risk. The Group does not apply hedge accounting. As at 31 December 2022, the Group had contracts with financial institutions due within 1 year to buy RM203,192,000 and sell USD45,125,000 at contractual forward rates.

The fair values of forward exchange contracts were quoted by the financial institutions, which normally measured the fair values using present value technique by discounting the differences between contractual forward prices and observable current market forward prices using risk-free interest rate (i.e. Level 2).

### ii) Gains/(Losses) arising from fair value changes of financial liabilities

There were no gains/(losses) arising from fair value changes of financial liabilities for the current quarter and period ended 31 December 2022.

### iii) Fair value

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

The inputs to valuation techniques used to measure fair value are categorised into the following levels of fair value hierarchy:-

- (i) Level 1 quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.
- (ii) Level 2 inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- (iii) Level 3 unobservable inputs for the asset or liability.

As at end of the current quarter under review, the carrying amounts of receivables, cash and cash equivalents and payables which are short-term in nature or repayable on demand are reasonable approximations of fair values.

The fair value of long term loans are measured using present value technique by discounting the expected future cash flows using observable current market interest rates for similar liabilities (i.e. Level 2). The fair values measured are considered to be reasonably close to the carrying amount reported as the observable current market interest rates also approximate to the effective interest rates of term loans.

The fair value of forward exchange contracts were quoted by the financial institutions, which normally measured the fair values using present value technique by discounting the differences between contractual forward prices and observable current market forward prices using risk-free interest rate (i.e. Level 2).

There were no transfers between levels of fair value hierarchy during the current quarter under review.

The Group delivered revenue of RM190.0 million in the current quarter, higher by RM4.2 million or 2.3% as compared to the corresponding preceding quarter. The Group registered revenue of RM190.0 million in the current quarter under review, representing a growth of RM4.4 million or 2.4% from RM185.6 million in the immediate preceding quarter. The increase in revenue was backed by rising demand from ABI.

PBT was lower at RM52.3 million in the current quarter as compared to RM52.9 million in the immediate preceding quarter, primarily resulted from the unfavourable exchange rates.

# **B3** Prospect

The Group anticipated softer global economic growth and uncertainty in general business outlook in the first half of year 2023. Thus, the Group will put more emphasis on long-term growth strategies while preparing for a temporary downturn. The 10-year expansion master plan (2021 to 2030) in Batu Kawan is expected to further strengthen the Group's manufacturing and R&D facilities. Nevertheless, the Board is optimistic on the business prospect for the second half of the year 2023 because the well-diversified revenue base and exposure to high-growth industries remain the Group's bright spots.

### B4 Profit forecast, profit guarantee and internal targets

The Group did not provide any profit forecast, profit guarantee and internal targets in any public document or any announcements made.
