The MFRS Framework is to be applied by all Entities Other Than Private Entities for annual periods beginning on or after 1 January 2012, with the exception of entities that are within the scope of MFRS 141 Agriculture (MFRS 141) and IC Interpretation 15 Agreements for Construction of Real Estate (IC 15), including its parent, significant investor and venturer (herein called 'Transitioning Entities').

Transitioning Entities will be allowed to defer adoption of the new MFRS Framework for an additional two years. Consequently, adoption of the MFRS Framework by Transitioning Entities will be mandatory for annual periods beginning on or after 1 January 2014.

The Group and the Company falls within the scope definition of Transitioning Entities and accordingly, will be required to prepare

financial statements using the MFRS Framework in its first MFRS financial statements for the year ending 31 March 2015. In presenting its first MFRS financial statements, the Group will be required to restate the comparative financial statements to amounts reflecting the application of MFRS Framework. The majority of the adjustments required on transition will be made, retrospectively, against opening retained earnings.

Accordingly, the financial performance and financial position as disclosed in these financial statements for the year ended 31 March 2012 could be different if prepared under the MFRS Framework.

The Group recorded a loss before taxation of RM1.560 million, mainly due to additional non-cash employee benefit cost of RM1.612 million for the current quarter, arising from the fair value accounting adopted for shares option granted to an Employee Share Option Scheme ("ESOS") implemented by the Company for eligible employees and directors. The ESOS shares were fully allocated and are to be exercised over a period of 5 years from 15 January 2013 to 14 January 2018. The said additional non-cash employee benefit cost for the current quarter was charged out as administrative expenses. Should the said additional non-cash employee benefit cost for the current quarter be excluded, the Group would record an operational profit of RM0.364 million and a profit before taxation of RM52,000 for the current quarter.

The loss before taxation of RM1.560 million for the current quarter representing a significant decreased of 161.76 % as compared to a profit before taxation of RM2.526 million recorded in the corresponding period in 2012 due to the reason mentioned above.

Revenue for the first quarter ended 30 June 2013 decreased to RM4.949 million as compared to RM7.590 million recognised in the fourth quarter ended 31 March 2013. The decrease in revenue is due to the fluctuation of fish prices in Hong Kong and China that have affected the Group's shipment schedule.

The lower revenue recorded by the Group in the current quarter as explained above, had resulted in a decrease in gross profit to RM1.852 million compared to a gross profit of RM4.203 million reported in the fourth quarter of the financial year ended 31 March 2013. As a result of the lower revenue as mentioned and also due to the non-cash employee cost as mentioned above, the Group recorded a net loss of RM1.560 million as compared to a net loss of RM11.462 million in the fourth quarter of the last financial year ended 31 March 2013.
