15. Review of Performance

Overall the Group recorded a revenue and gross profit of RM31.044 million and RM13.863 million respectively for the current quarter ended 30 June 2019 ("Q1"), of which the performance is further explained below:

Mining operations

The mining operations recorded a revenue and gross profit of RM22.894 million and RM13.865 million respectively under current quarter. The sales revenue of RM22.894 million represents approximately 131.12 kgs of net gold and 29.26 kgs of silver sold during the quarter under review. The Group started extracting gold from topsoil clearing in previous quarter ended 30 September 2018 and has yet to start drilling and mining of the Sulphide and oxide rocks/ore at the identified mining site in current quarter. This explains the relatively low production currently as the Sulphide and oxide rocks are expected to have much higher gold content.

Revenue in Q1 decreased to RM22.894 million and gross profit increased to RM13.865 million respectively as compared to RM26.853 million and gross profit of RM12.133 million recorded in immediate preceding quarter ended 31 March 2019 ("Q4"), representing a decrease of 14.74% and increase of 14.28% respectively. The decrease in sales mainly due to lower grade ore extracted during the quarter for processing into gold dore bars.

Aquaculture operations

The Group recorded a revenue and gross loss of RM8.150 million and RM2,000 respectively for Q1, representing a substantial increase of 152.95% and a decrease of 100.05% respectively as compared to the corresponding period in 2018 of revenue and gross profit of RM3.222 million and RM3.754 million respectively.

The substantial increase of 152.95% in revenue for the current quarter as compared to the corresponding period in 2018 was due to the increase in sales of larger grouper fish during the festive season during the period, whereas the substantial decrease of 100.05% in gross profit was due to the negative movement in fair value of fishery stock of RM2.033 million as set out in Note 13 above, pursuant to the Group's adoption of MFRS Framework effective on 1 January 2018, where the Group elected the early adoption of MFRS Framework for the financial year ended 31 March 2018. With the adoption of MFRS 141, the Group is required to recognise biological assets, at fair value less cost to sell. Biological assets represent fish fry, broodstock (i.e. mother fish) and fishery livestock.

Revenue in Q1 increased to RM8.150 million as compared to RM4.966 million recorded in immediate preceding quarter ended 31 March 2019 ("Q4"), representing an increase of 64.12%. The increase in revenue in Q1 was mainly due to sales of larger grouper fish during the quarter.

The negative movement in fair value of fishery stock of RM2.033 million as mentioned above, had resulted in the Group reporting a gross loss of RM2,000 as compared to a gross profit of RM0.960 million in the immediate preceding quarter ended as at 31 March 2019, representing a decrease of 100.21%.

For FYE 2020, Bahvest expects its core business of gold production to increase further once it starts to drill and mine the sulphide and oxide rocks/ore at the identified mining site as explained in Section 15 above as the Group now only extracting gold from the topsoil clearing above the sulphide and oxide rocks/ore which is of lower grade ore and / or gold content.

Aquaculture business will continue to face economic challenges and uncertainties for its operations both domestically as well as globally due to the stiff competitions from China producers and the current political climate in Hong Kong.
