NOTES TO THE INTERIM FINANCIAL STATEMENTS FOR THE THIRD QUARTER ENDED 30 SEPTEMBER 2019

PART A: EXPLANATORY NOTES PURSUANT TO MALAYSIA FINANCIAL REPORTING STANDARDS ("MFRS") 134 ON INTERIM FINANCIAL REPORTING

A1 BASIS OF PREPARATION

The interim financial statements are unaudited and have been prepared in accordance with the requirement of MFRS134: Interim Financial Reporting and Rule 9.22 and Appendix 9B of the ACE Market Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Securities").

A2 SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies and methods of computation applied in the unaudited condensed interim financial statements are consistent with those adopted as disclosed in the Group's annual audited financial statements for the year ended 31 December 2018.

The Group has adopted the new and revised Malaysian Financial Reporting Standards ("MFRSs") and IC Interpretations that became mandatory for the current reporting period. The adoption of these new and revised MFRSs and IC Interpretations does not result in significant changes in the accounting policies of the Group except for MFRS 16 Leases as disclosed below:

MFRS 16: Leases

MFRS 16 is effective for annual periods beginning on or after 1 January 2019. The standard replaces MFRS 117 Leases, IC Interpretation 4 Determining whether an Arrangement contains a Lease, IC Interpretation 115 Operating Lease-Incentives and IC Interpretation 127 Evaluating the Substance of Transactions Involving the Legal Form of a Lease. MFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under MFRS 117.

At the commencement date of a lease, a lessee will recognise a liability to make lease payments and an asset representing the right to use the underlying asset during the lease term. Lessees will be required to recognise interest expense on the lease liability and the depreciation expense on the right-of-use asset.

Lessor accounting under MFRS 16 is substantially the same as the accounting under MFRS 117. Lessors will continue to classify all leases using the same classification principle as in MFRS 117 and distinguish between two types of leases: operating and finance leases.

The Group adopted MFRS 16 using the modified retrospective method of adoption with the date of initial application of 1 January 2019, comparative are not restated. The Group recognised right-of-use assets and lease liabilities for those leases previously classified as operating leases, except for short-term leases and leases of low-value assets

B3 PROSPECTS FOR THE FINANCIAL YEAR 2019

It will be a challenging year for the Company as we are continuing to expose to external risks in global supply chain such as international trade war tensions. It resulted in certain customers who are pushing back orders due to the risk in tariffs hike. Other risks affected are increase in operating cost in basic pay and rental expenses particularly in China.

Nevertheless, the Group is currently implementing strategies to further enhance its presence in the lucrative but highly competitive automotive, white goods and smart connected devices markets. The Group is also exploring the possibilities to reduce risk in supply chain such as relocation of production plants.
