The unaudited interim financial statements should be read in conjunction with the audited financial statements of the Group for the financial year ended 31 December 2013.

The accounting policies and methods of computation adopted by the Group in this interim financial statement are consistent with those adopted in the financial statements for the year ended 31 December 2013 except for those standards, amendments and interpretations which are effective from the annual period beginning 1 January 2014. The adoption of these standards, amendments and interpretations has no material impact to these interim financial statements.

The significant accounting policies applied in the interim financial report are consistent with those adopted in the most recent audited annual financial statements for the year ended 31December 2013 except for the effects of newly issued Malaysian Financial Reporting Standards ("MFRS") and IC Interpretations ("IC Int.") to be applied by all Entities Other Than Private Entities for the financial period beginning on 1 January 2014:-

The above accounting standards and interpretations (including the consequential amendments) are not relevant to the Company's operations except as follows:-

MFRS 9 (2009), MFRS 9 (2010) & Amendments to MFRS 9 and MFRS 7: Mandatory Effective Date of MFRS 9 and Transition Disclosures

MFRS 9 (2009) introduces new requirements for the classification and measurement of financial assets. Subsequently, this MFRS 9 was amended in year 2010 to include requirements for the classification and measurement of financial liabilities and for derecognition (known as MFRS 9 (2010)). Generally, MFRS 9 replaces the parts of MFRS 139 that relate to the classification and measurement of financial instruments. MFRS 9 divides all financial assets into 2 categories – those measured at amortised cost and those measured at fair value, based on the entity's business model for managing its financial assets and the contractual cash flow characteristics of the instruments. For financial liabilities, the standard retains most of the MFRS 139 requirement. An entity choosing to measure a financial liability at fair value will present the portion of the change in its fair value due to changes in the entity's own credit risk in other comprehensive income rather than within profit or loss. There will be no financial impacts on the financial statements of the Group upon its initial application but may impact its future disclosure.
