ASIA POLY HOLDINGS BERHAD

Company No. 619176-A

(Incorporated in Malaysia)

Unaudited Interim Financial Report for the second quarter ended 30 September 2011

The adoption of these new and revised FRSs have not affected amounts reported on the financial statements of the Group and of the Company except for the following:

FRS 7: Financial Instruments: Disclosures

FRS 7 and the consequential amendment to FRS 101 Presentation of Financial Statements require disclosure of information about the significance of financial instruments for the Group's and the Company's financial position and performance, the nature and extent of risks arising from financial instruments, and the objectives, policies and processes for managing capital.

The Group and the Company have applied FRS 7 prospectively in accordance with the transitional provisions of the standard. Hence, the new disclosures have not been applied to the comparatives. The new disclosures are included throughout the Group's and the Company's financial statements for the year ended 31 March, 2011.

FRS 8: Operating Segments

FRS 8, which replaces FRS 114₂₀₀₄ Segment Reporting, requires the identification of operating segments based on internal reports that are regularly reviewed by the Group's chief operating decision maker in order to allocate resources to the segments and to assess their performance.

The standard also requires the disclosure of information about the products and services provided by the segments, the geographical areas in which the Group operates, and revenue from major customers. The Group concluded that the reportable operating segments determined in accordance with FRS 8 are the same as the business segments previously identified under FRS 114. The Group has adopted FRS 8 retrospectively.

FRS 101: Presentation of Financial Statements (revised)

FRS 101 introduces terminology changes (including revised titles for the financial statements) and changes in the format and content of the financial statements. In addition, the revised Standard requires the presentation of a third statement of financial position in the event that the entity has applied new accounting policies retrospectively. This change in accounting policy affects only the presentation of the Group's and the Company's financial statements.

FRS 139: Financial Instruments: Recognition and Measurement

The Group and the Company have adopted FRS 139 prospectively on 1 January, 2010 in accordance with the transitional provisions in FRS 139. On that date, financial assets were either classified as financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments or available-for-sale financial assets, as appropriate. Financial liabilities were either classified as financial liabilities at fair value through profit or loss or other financial liabilities (i.e. those financial liabilities which are not held for trading or designated as at fair value through profit or loss upon initial recognition).
