Profit after taxation	4,985	6,860	
Core profit *	4,320	5,991

The Group recorded a revenue of RM29.81 million for the quarter ended 30 June 2021 in comparison to RM28.55 million in the preceding year's corresponding quarter. The higher revenue by 4.41% was mainly due to increase in transaction based revenue.

The profit after taxation for the current quarter totalling to RM4.97 million was 27.55% lower than the profit after taxation of RM6.86 million recorded in the preceeding year's corresponding quarter. This was mainly due to higher operating expenses (provision of LTIP and timing differences in recognition of salaries adjustments), higher share of associate's losses and lower other operating income softened by lower taxation.

Core profits of the Group recorded RM4.32 million in the current quarter compared to RM5.99 million in preceeding year's corresponding quarter. The decrease by 27.88% was attributed by the items stated above.

B3 PROSPECTS

In June 2021, The World Bank has revised Malaysia's Gross Domestic Product ("GDP") growth to 4.5% from an earlier projection of 6.0% in March 2021, reflecting the slower pathway towards suppression of the COVID-19 pandemic and the slower-than-expected domestic COVID-19 vaccine rollout.

With the implementation of a nationwide Full MCO in June 2021 due to the high transmission rate of the COVID-19 virus and the recent change of the leadership of the Malaysian government which is uncertain at the moment, the recovery is nevertheless expected to be challenging depending on the local and global developments and its economic recovery.

COVID-19 developments shall remain a key influencing factor in the growth trajectory for the Malaysian and global economy including the trading momentum seen on Bursa Malaysia which will determine the extent to which the Group will be able to continue benefiting from the increased transaction based revenues in Malaysia. Barring any unforeseen circumstances, the Group expects its business to remain resilient despite the ongoing pandemic.
