## **B3 PROSPECTS**

The World Bank had again in October 2021 revised Malaysia's Gross Domestic Product ("GDP") growth projection to 3.3% from their earlier projection of 4.5% in June 2021. Bank Negara Malaysia, on the other hand, revised Malaysia's GDP projection to between 3.0% and 4.0% in 2021 from its earlier projection of between 6.0% and 7.5%, due to impact of the containment measures imposed by the Malaysian government.

The ongoing developments surrounding the COVID-19 pandemic, the low interest rate environment and the developments in the global economy and markets will continue to influence the volatility in the trading volume on Bursa Malaysia, which in turn will influence the transaction based revenue of the Group.

Taking into consideration that the Malaysian economy is on a recovery path supported by the gradual reopening of more economic sectors in the fourth quarter of 2021, and barring any unforeseen circumstances, the Group expects its business to remain resilient.
