Comparison with the corresponding period in the previous year

The Group recorded a revenue of RM3.394 million for the current quarter, a decrease of 78% as compared to RM15.119 million of the corresponding quarter in the previous year due to the Movement Control Order (MCO) imposed by the Government since middle of March 2020. The MCO has disrupted our operational activities in terms of delivery of machines, and both local and overseas services to our customers. The decrease in gross margin was mainly due to fixed operating costs such as staff cost remain unchanged even though sales decreased significantly during the current quarter.

The increase in other operating income in the current quarter was attributed to the fair value gain in other investments as compared to the corresponding year quarter.

Financial period-to-date against preceding year corresponding financial period

The Group recorded a revenue of RM9.763 million for the period-to-date, a decrease of 61% as compared to RM25.323 million reported in the previous financial period as the MCO imposed by the Government following the Covid-19 pandemic has disrupted our operational activities. The decrease in gross margin was mainly due to fixed operating costs remain unchanged even though sales decreased significantly during the current period.

The increase in other operating income was mainly attributed to the fair value gain derived from other investments during the current period.
