#### B. ADDITIONAL INFORMATION REQUIRED BY THE LISTING REQUIREMENTS

#### **B1.** Review of performance

The Group recorded unaudited revenue and profit before tax ("PBT") of approximately RM103.0 million and RM8.4 million respectively for the nine (9) months ended 30 September 2009 ("FP 2009"), compared to RM98.9 million and RM18.7 million respectively for the preceding corresponding period ended 30 September 2008. This represents an increase of approximately 4.1% in revenue and decrease in PBT of approximately 55.0% compared to that achieved in the preceding corresponding period. Net profit attributable to shareholders was RM7.7 million for FP 2009 as compared to RM16.4 million in the previous corresponding period.

Despite signs of improvement in economic conditions, the Group's sales performance remained mixed by activity and location. In Singapore, demand from the power generation and semiconductor sectors saw tremendous recovery in recent months and demand for maintenance works on critical parts and equipment from the oil and gas industry has also been increasing. The modest revenue growth recorded by the Group for FP 2009 was mainly due to higher demand for the Group's services in Malaysia and the Philippines.

The lower PBT recorded by the Group for FP 2009 was mainly due to the following:

- (a) For the corresponding period in 2008, the Group's PBT of RM18.7 million included a one-off net gain of approximately RM4.2 million in respect of recovery from insurers on the fire incidents. Excluding this one-off gain, the Group's PBT for FP2009 declined by 42.1% over the same period in 2008;
- (b) Lower margin during the current period arising from higher subcontracting cost; and
- (c) Share of losses of associates during the current period as compared to share of profits in the preceding corresponding period.

# B2. Comparison with immediate preceding quarter

	3rd Quarter	2nd Quarter
	30 Sept 2009	30 Jun 2009
	RM'000	RM'000
Revenue	35,656	36,764
Profit before tax	5,660	1,564

The Group recorded a marginal decline in revenue of 3% or approximately RM1.1 million during the current quarter compared to the preceding quarter. The decline in revenue during the current quarter was primarily due to marginally lower sales in Singapore.

Despite a lower revenue, the Group's unaudited PBT in the current quarter was approximately RM4.1 million higher than the preceding quarter, representing a threefold increase. The increase in the Group's PBT was the result of gross margin improvement during the current quarter.

# B3. Prospects for the year

The outlook has turned more positive compared to the first half of 2009, with encouraging demand for the Group's services in the power generation, semiconductor and oil and gas sectors. Nonetheless, the Group intends to maintain a cautious approach towards its cost structures and capital expenditures. Ongoing efforts to focus on its core markets and extend market reach will continue with the aim of strengthening its market position. The Group will also continue to build its balance sheet as a cushion against business volatility and the constantly changing market landscape. Barring unforeseen circumstances, the Directors expect performance for the current financial year to be satisfactory in light of the current financial crisis.

#### **B4.** Variance in profit forecast

Not applicable as no profit forecast or profit guarantee has been announced or disclosed in a public document previously.

#### **B5.** Taxation

	Current Quarter 30 Sept 2009	Current Year-to-date 30 Sept 2009
	RM'000	RM'000
Income tax	805	1,211
Deferred tax	(33)	(123)
	772	1,088

The Group's effective tax rate for the period under review is 13.6% compared to the statutory tax rate of 25% in Malaysia primarily attributed to deferred tax adjustment arising from reduction in corporation tax rate from 18% to 17% enjoyed by its subsidiaries in Singapore and jobs credit grant received from the Singapore government which is not subject to tax, as well as a relatively lower statutory tax rate of 17% in Singapore.

#### **B6.** Unquoted investments and properties

There were no disposals of unquoted investment and properties during the current quarter and financial period under review.

#### B7. Quoted and marketable securities

There were no purchases and disposals of marketable securities during the current quarter.

On 26 June 2009, Ares Green Technology Corporation ("AGTC") obtained shareholders' approval for the distribution of share dividend on the basis of 1 new share of NT\$10 each for every 20 existing shares held. Consequently, although the percentage shareholding held collectively by FCB and its subsidiary in AGTC remains unchanged, the aggregate number of shares in AGTC held by FCB and its subsidiary increased from 12,633,534 shares to 13,265,210 shares. The share dividend was completed on 16 October 2009.

## B8. Status of corporate proposals

As at 18 November 2009, the status of corporate proposals announced but not completed is as follows:

On 27 February 2009, the Company announced that its wholly-owned subsidiary, Frontken (Singapore) Pte Ltd, had agreed to the terms and entered into a conditional Share Purchase Agreement with Wong Hua Choon for the acquisition of 1,397,400 ordinary shares representing 20% of the issued and paid-up share capital of Chinyee Engineering and Machinery Pte Ltd for a cash consideration of SGD820,000 (equivalent to approximately RM1,963,000 based on the exchange rate of SGD1.00: RM2.3937 as at 26 February 2009) ("Acquisition of Chinyee"). The Acquisition of Chinyee is pending completion.

## **B9.** Group borrowings

#### B10. Off balance sheet financial instruments

The Group has not entered into any contract involving off balance sheet financial instruments as at the date of this report.

#### **B11.** Material litigation

Save as disclosed below, the Group is not engaged in any material litigation, claim or arbitration, either as plaintiff or defendant and the Board does not know of any proceedings pending or threatened, or of any fact likely to give rise to any proceedings as at the date of this report:

On 2 February 2009, FM was served a Writ of Summons by IFC. The said Writ of Summons and Statement of Claim were presented to the High Court of Malaya at Alor Star on 7 January 2009.

Under the said Writ of Summons, IFC was alleging that it had successfully completed installation works for Frontken Malaysia Sdn Bhd ("FM") at its plant at Kulim Hi-Tech Park pursuant to its quotation furnished for the said installation, and that FM had partially satisfied the contract sum, leaving a balance of RM1,122,425. However, FM had denied any liability to IFC. IFC is therefore claiming against FM for the above outstanding sum, interest thereon at 8%, costs and other relief that the Court deems fit.

FM is disputing the legitimacy of the claim by IFC in view that FM had at all times contracted with the main contractor, and not IFC, for the performance of the installation works at its plant at Kulim Hi-Tech Park. Further, the installation works were either not performed or unsatisfactorily performed.

On 24 November 2009, the Court allowed IFC's application for summary judgment, thereby ordering FM to pay the amount claimed by IFC. FM will file an appeal against the said decision and an application for stay of execution pending appeal.

## **B12.** Earnings per share ("EPS")

## (a) Basic EPS

The calculation of the basic EPS is based on the net profit for the financial period under review divided by the number of ordinary shares of RM0.10 each in issue.
