**Notes to the Interim Financial Report
For the Quarter Ended 31 December 2010**

1 Basis of preparation

The interim financial report is unaudited and has been prepared in accordance with the requirements of Financial Reporting Standard ("FRS") 134, Interim Financial Reporting and paragraph 9.22 of the Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Securities") for the ACE Market.

The explanatory notes attached to the interim financial report provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the previous financial year ended 31 March 2010.

2 Change of Accounting Year End

Following the completion of the Reverse Acquisition as explained in Note 3.1 below, the Company has changed its financial year end from 31 December to 31 March to coincide with the financial year end of its Holding Company.

3 Significant Accounting Policies

3.1 FRS 3 Business Combinations - Reverse Acquisition

On 12 October 2009, the Company entered into a conditional share sale agreement with the shareholders of Diversified Gateway Berhad ("DGB"), namely Formis Holdings Berhad ("FHB") and the management team of DGB (collectively known as "existing shareholders of DGB"), for the acquisition of the entire issued and paid-up share capital of DGB ("the Acquisition"). The total consideration for the Acquisition amounted to RM110,000,000 and was satisfied by the issuance of 1,100,000,000 new ordinary shares of RM0.10 each of the Company at par. Upon completion of the Acquisition on 14 April 2010, the Company became the legal holding company of DGB and the existing shareholders of DGB became the majority shareholders of the Company.

In accordance with *FRS 3 Business Combinations*, the aforementioned business combination between ISS and DGB is treated as a reverse acquisition whereby for accounting purpose, the acquirer is DGB and the acquiree is ISS.

Under the reverse acquisition method of accounting, even though the consolidated financial statements of the combined entity are issued under the name of the legal holding company, i.e. ISS, the consolidated financial statements represents a continuation of the historical financial statements of the legal subsidiary, i.e. DGB.

Accordingly: -

i) the results of ISS, prior to the completion of the reverse acquisition, for the quarter from 1 January 2010 to 31 March 2010 has been treated as pre-acquisition reserve. Hence, the current period-to-date of the condensed consolidated Statement of Comprehensive Income, Statement of Changes in Equity and Statement of Cash Flows only covers a 6-month period from 1 April 2010 to 30 September 2010.

No comparative figures are presented for these statements as DGB, a non-listed public limited liability company, did not make any interim financial reporting prior to the reverse acquisition;

ii) the latest audited Statement of Financial Position of DGB as at 31 March 2010 has been presented as the comparative Statement of Financial Position; and

iii) the amount recognised as issued equity in the consolidated Statement of Financial Position shall be determined by adding the issued equity of DGB (the legal subsidiary) immediately before the business combination to the cost of the combination determined. However, the share capital appearing in the consolidated Statement of Financial Position shall reflect the share capital of ISS (the legal parent), including the share capital issued by ISS to effect the combination, in total of RM135,588,000.

3.2 Changes in accounting policies

The significant accounting policies adopted are consistent with those previously adopted in the audited financial statements of the Group for the financial year ended 31 March 2010 saved for the adoption of all the new/revised FRSs, Improvements to FRSs and IC Interpretations that are relevant to the Group's operations and effective for financial periods beginning on or after 1 July 2009 and 1 January 2010 as follows: -

By virtue of the exemption provided under Paragraph 44AB of FRS 7 and Paragraph 103AB of FRS 139, the impact of applying FRS 7 and FRS 139 on its financial statements upon first adoption of these FRSs as required by Paragraph 30(b) of FRS 108 is not disclosed.

Other than the effect of the application of FRS 8, FRS 101 (revised) and FRS 139 described below, the application of the above new/revised FRSs, Amendments to FRSs and IC Interpretations did not result in any significant changes in the accounting policies and presentation of the financial results of the group: -

(a) FRS 8: Operating Segments

FRS 8 requires segment information to be presented on a similar basis to that used for internal reporting purposes. As a result, the Group's segmental reporting had been presented based on the internal reporting provided to the Chief Executive Officer, who is the Group's chief operating decision maker. Comparative information has been re-presented so that it is in conformity with this Standard. This Standard only impacts presentation and disclosures aspects, there is no impact on the financial position and result of the Group.

(b) FRS 101 (revised): Presentation of Financial Statements

FRS 101 (revised) introduces the titles "statement of financial position" and "statement of cash flows" to replace the current titles "balance sheet" and "cash flow statement" respectively. A new statement known as the 'statement of comprehensive income' is also introduced whereby all non owner changes in equity are required to be presented in either one statement of comprehensive income or in two statements (i.e. a separate income statement and a statement of comprehensive income). Components of comprehensive income are not permitted to be presented in the statement of changes in equity. This Standard also introduces a new requirement to present a statement of financial position as at the beginning of the earliest comparative period if there are applications of retrospective restatements that are defined in FRS 108, or when there are reclassifications of items in the financial statements. The adoption of this Standard has resulted in the Group presenting both the income statement and statement of comprehensive income under one statement of comprehensive income. Comparative information has been re-presented so that it is in conformity with the revised Standard. Apart from the new presentation and disclosure requirements described, this Standard does not have any other impact on the consolidated financial statements.

(c) FRS 139: Financial Instruments: Recognition and Measurement

The adoption of FRS 139 has resulted in changes to accounting policies relating to recognition and measurement of the Group's financial instruments. Financial instruments are recorded initially at fair value plus, in the case of a financial instrument not at fair value through profit or loss, transactions costs that are directly attributable to the acquisition or issue of the financial instrument. Subsequent measurement of the financial instruments at the balance sheet date reflects the designation of the financial instruments. The Group categorises financial instruments as follows: -

For the Quarter Ended 31 December 2010

3 Significant Accounting Policies (continued)

3.2 Changes in accounting policies (continued)

(c) FRS 139: Financial Instruments: Recognition and Measurement (continued)

Financial assets

Financial assets are classified as loans and receivables, available-for-sale (AFS) financial assets, financial assets at fair value through profit or loss, held-to-maturity (HTM) investments, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

The Group's financial assets include loans and receivables, cash and bank balances, time deposits and financial assets at fair value through profit or loss.

(I) Loans and receivables

Loans and receivables category comprises debts instruments that are not quoted in an active market, trade and other receivables and cash and cash equivalents. Under FRS 139, loans and receivables are initially measured at fair value plus transaction costs and subsequently measured at amortised cost using the effective interest method ("EIR"). Gains and losses arising from the derecognition of the loans and receivables, EIR amortisation and impairment losses are recognised in the profit or loss.

(II) Financial assets at fair value through profit or loss

Fair value through profit or loss category comprises financial assets that are held for trading, including derivatives (except for derivative that is a financial guarantee contract or a designated and effective hedging instrument) or financial assets that are specifically designated into this category upon initial recognition. Derivatives that are linked to and must be settled by delivery of unquoted equity instruments whose fair values cannot be reliably measured are measured at cost. Other financial assets categorised as fair value through profit or loss are subsequently measured at their fair values with the gain or loss recognised in profit or loss.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost other than those categorised as fair value through profit or loss. The Group's financial liabilities include loans and borrowings and payables which are measured at amortised cost.

(III) Loans and borrowings

Under FRS 139, loans and borrowings are initially recognised at fair value plus directly attributable transaction costs. Loans and borrowings are subsequently measured at amortised cost using the effective interest method. Any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the loans and borrowings using the effective interest method. Prior to 1 April 2010, loans and borrowings were subsequently measured at amortised cost using the straight line method.

(IV) Payables

Prior to 1 April 2010, payables are measured initially and subsequently at cost. Under FRS 139, payables are initially recognised at fair value, which is usually the original invoiced amount and subsequently measured at amortised cost using the effective interest method.

Impact on Opening Balances

There are no impact on opening balances arising from the adoption of FRS 139, hence the opening balances of the groups' consolidated statement of financial position and consolidated statement of changes in equity as at 1 April 2010 are not restated.

The adoption of FRS 139 does not have any significant impact on the profit for the financial period-to-date.
