### B3. Group's Prospects for FYE 31 December 2023

The Board expects the Group's performance to be challenging for the financial year ending 31 December 2023. Volatility of foreign exchange rates will continue to affect the Group's tooling business as a significant percentage of its revenue is derived from overseas markets. The uncertainty caused the overall market in a downtrend which has an adverse impact that trigger the adjustment of fair value for Sanichi's financial assets. However, the completion of several share issuances in the previous year and the expected completion of property development in Marina Point Melaka would strengthen the financial health of the Group. The Group would cautiously observe the market and explore every business opportunities despite in this uncertain market.
