2. Significant accounting policies (Cont'd)

MFRS 9, Financial instruments

• MFRS 9 replaces the guidance in MFRS 139, Financial Instruments: Recognition and Measurement on the classification and measurement of financial assets and financial liabilities, and on hedge accounting.

There are no change in measurement of financial assets of the Group and the Company based on assessment undertaken to date.

In respect of impairment of financial assets, MFRS 9 replaces the "incurred loss" model in MFRS 139 with an "expected credit loss" ("ECL") model. The new impairment model applies to financial assets measured at amortised cost, contract assets and debts investments measured at fair value through other comprehensive income, but not to investments in equity instruments.

The Group and the Company have assessed the estimated impact that the initial application of ECL model will have on the financial statements as at 1 August 2018 and based on assessment undertaken to date, the Group and the Company do not expect the impact to be material.

MFRS 15, Revenue from Contracts with Customers

MFRS 15 replaces the guidance in MFRS 111, Construction Contracts, MFRS 118, Revenue, IC Interpretation 13, Customer Loyalty Programmes, IC Interpretation 15, Agreements for Construction of Real Estate, IC Interpretation 18, Transfers of Assets from Customers and IC Interpretation 131, Revenue – Barter Transactions Involving Advertising Services. Upon adoption of MFRS 15, it is expected that the timing of revenue recognition might be different as compared with current practices.

This standard will come into effect on or after 1 January 2018 with early adoption permitted. The adoption of MFRS 15 will result in a change in accounting policy. The Group expects no significant impact on its statements of financial position.

MFRS 16, Leases

• MFRS 16 replaces MFRS 117 Leases, IC Interpretation 4 Determining whether an Arrangement contains a Lease, SIC-15 Operating Leases-Incentives and SIC-27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease. MFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under MFRS 117. The standard includes two recognition exemptions for lessees – leases of 'low-value' assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognise a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the right-of-use asset.

Lessees will be also required to remeasure the lease liability upon the occurrence of certain events (e.g., a change in the lease term, a change in future lease payments resulting from a change in an index or rate used to determine those payments). The lessee will generally recognise the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset.

Lessor accounting under MFRS 16 is substantially unchanged from today's accounting under MFRS 117. Lessors will continue to classify all leases using the same classification principle as in MFRS 117 and distinguish between two types of leases: operating and finance leases.

MFRS 16 also requires lessees and lessors to make more extensive disclosures than under MFRS 117.

This standard will come into effect on or after 1 January 2019 with early adoption permitted. The adoption of MFRS 16 will result in a change in accounting policy. The Group is currently assessing the financial impact of adopting MFRS 16.
