2. Significant accounting policies (Cont'd)

MFRS 15, Revenue from Contracts with Customers

MFRS 15 replaces the guidance in MFRS 111, Construction Contracts, MFRS 118, Revenue, IC Interpretation 13, Customer Loyalty Programmes, IC Interpretation 15, Agreements for Construction of Real Estate, IC Interpretation 18, Transfers of Assets from Customers and IC Interpretation 131, Revenue – Barter Transactions Involving Advertising Services. Upon adoption of MFRS 15, it is expected that the timing of revenue recognition might be different as compared with current practices.

The adoption of MFRS 15 will result in a change in accounting policy. The Group expects no significant impact on its statements of financial position.

MFRS 16, Leases

• MFRS 16 replaces MFRS 117 Leases, IC Interpretation 4 Determining whether an Arrangement contains a Lease, SIC-15 Operating Leases-Incentives and SIC-27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease. MFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under MFRS 117. The standard includes two recognition exemptions for lessees – leases of 'low-value' assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognise a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the right-of-use asset.

Lessees will be also required to remeasure the lease liability upon the occurrence of certain events (e.g., a change in the lease term, a change in future lease payments resulting from a change in an index or rate used to determine those payments). The lessee will generally recognise the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset.

Lessor accounting under MFRS 16 is substantially unchanged from today's accounting under MFRS 117. Lessors will continue to classify all leases using the same classification principle as in MFRS 117 and distinguish between two types of leases: operating and finance leases.

MFRS 16 also requires lessees and lessors to make more extensive disclosures than under MFRS 117.

9. Operation segments

The Group has two reportable segments, as described below, which are the Group's strategic business units. The strategic business units offer different products and services, and are managed separately because they require different technology and managing strategy. For each of the strategic business units, the Group's Managing Director reviews internal management reports on at least a quarterly basis. The following summary describes the operation in each Group's reportable segments.

There are varying levels of integration between reportable segments, namely the plantation products and non-plantation products. This integration includes marketing activities and transfer of raw materials.

17. Review of Group performance (12 months ended 31 July 2019 versus the same period in 2018)

For the 12 months ended 31 July 2019, the Group's revenue was RM35.7 million compared to RM42.5 million during the same period in 2018. However, the Group recorded profit before taxation of RM5.2 million compared to profit before taxation of RM0.2 million in the financial period ended 31 July 2018 mainly due to bargain purchase of RM6.2 million arising from the acquisition of SND Teguh Enterprise Sdn Bhd and Pullah PC Daud Sdn Bhd partially offset by loss on disposal of associate amounting to RM2.0 million.

18. Variation of results against immediate preceding quarter (Quarter ended 31 July 2019 versus 30 April 2019)

The Group recorded a loss before taxation of RM0.4 million in the quarter ended 31 July 2019 as compared to profit before taxation of RM4.3 million in quarter ended 30 April 2019. The better result in the immediate preceding quarter was mainly due to the bargain purchase recorded. Sales remain to be mainly export led.

19. Future prospects

The performance for plantation and non-plantation segments continue to be influenced by commodity prices and varied consumer sentiments across many geographical regions. In mitigating this, the Group is focusing on product diversification and market penetration strategies.
