1. Review of Performance

Current Year Quarter versus Preceding Year Corresponding Quarter

For the current quarter ended 31 May 2008, the Group recorded a turnover of RM7.291 million as compared to the same quarter of previous year of RM6.04 million. This was mainly due to progress billings for on-going projects secured last year.

The profit before taxation ("PBT") slightly increased to RM1.024 million as compared to RM1.017 million in the same quarter of previous year. However, the PBT margin has decreased from 16.84% to 14.04%, as a result of increasing price in raw materials.

Current Year to Date versus Preceding Year to Date

For the current year to date ended 31 May 2008, the Group recorded revenue of RM15.004 million, which represents an increase of 53.8% as compared to the preceding year to date ended 31 May 2007 of RM9.758 million. The increase in revenue was mainly due to additional contracts secured from the marine sector last year for which billings have been made during the current financial year.

Meanwhile, for the current year to date ended 31 May 2008, the Group recorded a PBT of RM2.202 million, which represents an increase of 75.2% as compared to the preceding year to date ended 31 May 2007 of RM1.26 million.

2. Variation of Results against Preceding Quarter

	Quarter ended 31.05.2008 RM'000	Quarter ended 29.02.2008 RM'000	
Revenue	7,291	7,713	
Profit before tax	1,024	1,178	

The Group generated revenue of RM7.291 million in the current quarter under review. This represents a decrease of approximately RM422,000 or 5.47% from the revenue of RM7.713 million recorded in the preceding quarter. The decreased of revenue was mainly due to the lower sales recorded in embedded hydraulic parts and components segment. As a result of the decreased in revenue and lower gross profit margin due to the higher raw material cost, the PBT as compared to the immediate preceding quarter ended 28 February 2008 has decreased by RM154,000.

3. Commentary on Prospects

The Board is currently reviewing the entire business structure of the Group and is expecting certain consolidation and restructuring of its business activities to be carried out in order to maximize the Group's resources to face the challenging business environment this year.

In addition to the realignment of business, the Board is optimistic that the Group's operational results for the current financial year will be satisfactory, barring any unforeseen circumstances.
