18. Prospects for the Current Financial Year

The Board is working towards expanding its e-commerce business by procuring contracts from more suppliers and buyers to increase the number of users and varieties of products on its e-commerce platform. As such, Teampixel had on 28 October 2020 entered into the Agreement with Alpha to increase the product offering of Teampixel to its customers in particular the WEEE raw materials in addition to PP resin and ABS resin which Teampixel is currently offering. The distributorship of the products also serves to diversify the revenue stream of the Company, thereby enhancing the sustainability of the Group's business.

Further, the Group will be leveraging on its information technology (IT) expertise to scale up its business venture into new B2C-online sales of consumer products via Teampixel Ecom (a newly incorporated wholly-owned subsidiary of the Company) which is in line with the Group's strategies to increase its source of revenue to ensure the sustainability of the Group's business. Currently, Teampixel Ecom is in the midst of exploring possible working arrangement with a company which is engaged in cash retail of consumer products to synergize business capabilities of both companies to further enhance the future earnings of the Group.

In view of the on-going Covid-19 pandemic, the Board of Directors of the Company is of the opinion that the prospects for the financial year ending 31 December 2020 will remain challenging. The Management will continue to explore more potential business opportunities both domestic and international markets and to focus on improving operational efficiencies to achieve sustainable business growth.
