Key ASIC has officially launched its K-Card product and recently K-Drive into the market and currently selling through authorised distributors and online channels. The sales response on both products are sluggish so far and the Company has put in place several sales strategies including promoting through trade shows to boost up the demand. The success of the two products is very much dependent on the awareness of the public on its versatile usage on which the Company is currently working on.

KEY ASIC BHD (Company No. 707082-M)

The Group has started to supply to u-Wish to be bundle with their CPAP machine. In addition, the Company through its subsidiary in Taiwan has successfully market our K-card solution to a fitness company. Although the revenue contribution is not yet significant, but it does show the potential of our chip
