It introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases with a term if more than 12 months, unless the underlying asset is of low value. A lessee is required to recognise a right-of-use asset representing its right to use the underlying leased asset and a lease liability representing its obligation to make lease payments. Amendments to MFRS 123, Borrowing Costs

IC Interpretation 23 provides guidance on how to recognise and measure deferred and current income tax assets and liabilities where there is uncertainty over a tax treatment. If it is not probable that the tax treatment will be accepted by the tax authority, the effect of the tax uncertainty should be included in the period when such determination is made. The effect of uncertainty shall be measured using the method which best predicts the resolution of the uncertainty. IC interpretation 23 will be effective for annual reporting periods beginning on or after 1 January 2019.
