A NOTES TO THE INTERIM FINANCIAL STATEMENTS (Cont'd)

A2 Significant accounting policies (cont'd)

The initial application of the accounting standards, amendments or interpretations are not expected to have any material financial impacts to the current period and prior period financial statements of the Group and the Company except as mentioned below:

MFRS 16, Leases

MFRS 16 "Leases" supersedes MFRS 117 "Leases" and the related interpretations. MFRS 16 eliminates the classification of leases by the lessee as either finance leases or operating leases. MFRS 16 introduces a single accounting model, requiring the lessee to recognise the "right-of-use" of the underlying asset and the lease liability reflecting future lease payments liabilities in the statement of financial position. The right-of-use asset is depreciated in accordance with the principle in MFRS 116 "Property, Plant and Equipment" and the lease liability is accreted over time with interest expense recognised in the statement of profit or loss. For lessors, MFRS 16 retains most of the requirements in MFRS 117. Lessors continue to classify all leases as either operating leases or finance leases and account for them differently.

The Group has adopted MFRS 16 retrospectively from 1 January 2019 using the simplified transition approach and has not restated comparatives for the 2018 reporting period, as permitted under the standard. The Group also elected to use the recognition exemptions for lease contract at the commencement date have a lease term of 12 months or less, or the underlying assets is of low value. The adoption of MFRS 16 have the following impact on the audited consolidated financial statements for period ended 30 June 2019.

Amendments to MFRS 123, Borrowing Costs

Amendments to MFRS 123 (effective from 1 January 2019) clarify that if a specific borrowing remains outstanding after the related qualifying asset is ready for its intended use or sale, it becomes part of general borrowings.

IC Interpretation 23, Uncertainty over Income Tax Treatments

IC Interpretation 23 provides guidance on how to recognise and measure deferred and current income tax assets and liabilities where there is uncertainty over a tax treatment. If it is not probable that the tax treatment will be accepted by the tax authority, the effect of the tax uncertainty should be included in the period when such determination is made. The effect of uncertainty shall be measured using the method which best predicts the resolution of the uncertainty. IC interpretation 23 will be effective for annual reporting periods beginning on or after 1 January 2019.

Amendments to MFRS 10, Consolidated Financial Statements and MFRS 128, Investments in Associates and Joint Ventures – Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

The amendments clarify that: -

- gains and losses resulting from transactions involving assets that do not constitute a business, between investor and its associate or joint venture are recognised in the entity's financial statements only to the extent of unrelated investors' interests in the associate or joint venture; and
- gains and losses resulting from transactions involving the sale or contribution of assets to an associate of a joint venture that constitute a business is recognised in full.

The amendments are to be applied prospectively to the sale or contribution of assets occurring in annual periods beginning on or after a date to be determined by Malaysian Accounting Standards Board. Earlier application is permitted. These amendments are not expected to have any impact on the Group and the Company.

The Group and the Company are currently assessing the financial impact that may arise from the adoption of MFRS 16, amendments to MFRS 123, IC Interpretation 23 and amendments to MFRS 10 and MFRS 128.
