The Malaysia economy has also been affected since March 2020 following various stages of movement control order ("MCO") implemented by the Malaysian Government to control the spread of the COVID-19 virus.

The Group's business operations have been negatively affected due to the MCO and COVID-19 pandemic as the Group's operations were temporarily affected due to lower demand for the Group's products and services. As a result, the Group's financial performance has been affected due to lower revenue generated during the various stages of MCO imposed by the Government.

Furthermore, the Group intends to undertake long-term enhancement and development of systems upgrade as well as market research analysis and marketing efforts on potential new users and targeted markets such as rural communities in Pahang and Sabah, through collaboration with government agencies for fintech segment.
