Dear Sirs

EXECUTIVE SUMMARY OF THE INDEPENDENT MARKET RESEARCH REPORT (“EXECUTIVE SUMMARY”) FOR JF TECHNOLOGY BERHAD (THE “COMPANY”)

This Executive Summary has been prepared for inclusion in the Prospectus to be dated **27 MAR 2008** pursuant to the listing of JF Technology Berhad on the MESDAQ Market of Bursa Malaysia Securities Berhad.

This research is undertaken with the purpose of providing an overview of the test probe industry in Malaysia. The research methodology includes both primary research, involving in-depth interviews with pertinent companies, as well as secondary research such as reviewing press articles, periodicals, Government literatures, in-house databases, Internet research and online databases.

Dun & Bradstreet (D&B) Malaysia Sdn Bhd (“D&B Malaysia”) has prepared this Executive Summary in an independent and objective manner and has taken all reasonable consideration and care to ensure the accuracy and completeness of the Executive Summary. In addition, D&B Malaysia acknowledges that if there are significant changes affecting the contents of the Executive Summary after the issue of the Prospectus and before the issue of securities, then D&B Malaysia has an on-going obligation to either cause the Executive Summary to be updated for the changes and, where applicable, cause the Company to issue a Supplementary Prospectus, or withdraw our consent to the inclusion of the Executive Summary in the Prospectus.

The Executive Summary is highlighted in the following sections.

Yours faithfully,

for and on behalf of

DUN & BRADSTREET (D&B) MALAYSIA SDN BHD

EXECUTIVE SUMMARY

INTRODUCTION

Integrated circuit (“IC”) manufacturing processes are achieving smaller geometries, faster speeds and lower operational voltages. By taking electrical measurements of the device under test, the physical properties of the manufacturing process can be extracted and analysed. These measurement results can then be used to determine if the test devices are physically as they were designed and how the process parameters compare to target values. It is much simpler to extract the physical parameters from electrical measurements than to make actual physical measurements at the small geometries of a modern IC process. This is where the test probe industry comes into play in the semiconductor value chain.

The role of testing is to detect whether something went wrong. A good test process can weed out all the bad products before they reach the user. Another important function of testing is process diagnosis, which determines exactly what went wrong, and where the process needs to be altered. For example, the chip maker has to find out what went wrong with each faulty chip, be it in fabrication, design or testing itself.

Testing also helps to quantify and identify the manufacturing defects so that they can be reduced and correspondingly, the yield increases. The yield is crucial to the profitability of a chip maker since it determines how much revenue in the form of good chips can be obtained from the manufacturing of the wafers. In addition, the yield, along with the cycle times, determines the capacity of the fab. A defect is a physical anomaly within the chip, which can be caused by impurities such as dust or improper manufacturing processes. Defects can cause electrical failures on the chip and logical failures or faults.

The basic principle behind testing is to increase the confidence of the chip makers that the chip will meet its specifications listed in the device data sheet and will perform as designed in its end applications. As the semiconductor manufacturing processes are not perfect, the good chip needs to be sorted from the bad. Impurities and defects in materials, equipment malfunctions and human errors are the main causes of defects. Therefore, the testing procedures assist to assure customer quality.

**Decide with Confidence****PRODUCT DEFINITION**

A semiconductor interconnect comprises two (2) components, the test probes and the test socket. The latter houses an array of test probes. A test socket is a contacting mechanism that interposes between the device under test and the load board. It is capable of aligning the device under test to the load board. To achieve this, the semiconductor test socket incorporates a self-contained mechanism for compressing the device under test against the compliant interconnects.

The test probe is the heart of the test cell as it links the device under test to the automated testing equipment (“ATE”). It is critical to the chip maker. Electrical tests verify that the chips perform to specification. There are two steps of this final test. Parametric tests check the general performance of the device or circuit and ensure that it meets certain input and output voltage, capacitance and current specifications. Functional tests verify the specified function of the chip; logic chips are put through logic test, while memory chips go through test for data storage and retrieval capabilities. The basic principle behind testing involves binary patterns or test vectors being applied to the inputs of the circuits. The response of the circuit is compared with the expected response. The circuit is considered good if the responses match. Obviously, the quality of the tested circuit will depend on the thoroughness of the test vectors.

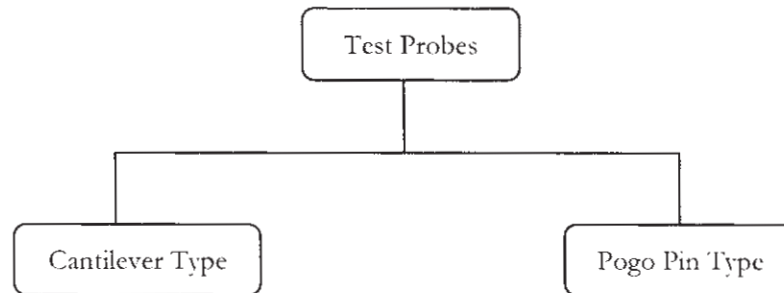

Test probes can be divided into two (2) categories; the cantilever type (has a cantilever spring arm) and pogo pin type (has an internal spiral spring). In addition, pogo pins incorporate a plunger, a barrel and a spring. A Kelvin test probe, which is categorised under the cantilever type, consists of double probes and is typically used for sensitive resistance measurements at analogue / mixed applications. The basic electrical principle behind it is that two (2) independent electrical connections to the device lead can compensate for the parasitic resistances between the device under test and the ATE.

GOVERNMENT LEGISLATIONS, INCENTIVES AND POLICIES

Under the Factories and Machinery Act, 1967, any employees in the factory exposed to a wet or dusty process, to noise, heat or any poisonous, corrosive or other injurious substance which is likely to cause bodily injury to them, may be provided with suitable and adequate personal protective clothing and appliances. They include goggles, gloves, leggings, caps, foot wear and protective ointment or lotion. Both the foundations and floors of the factory shall be of sufficient strength to sustain the loads for which they are designed; and no foundation or floor shall be overloaded.

Test probe manufacturers are also subjected to the Occupational Safety and Health Act, 1994. This Act is enforced by the Ministry of Human Resources under the Department of Occupational Safety and Health. Under this Act, the employer has a duty to protect the safety, health and welfare of all his employees. The employer shall also ensure that no worker shall be employed at any machine or in any process, being a machine or any process liable to cause bodily injury, unless he has been fully instructed as to the dangers likely to arise in connection therewith and the precautions to be observed. The worker must receive sufficient instruction in work at the machine or process; or is under adequate supervision by a person who has knowledge and experience of the machine or process.

The European Union has enacted legislation to prohibit the use of lead in electronics manufacturing. In this region, China, Japan and South Korea are also phasing out the use of lead in manufacturing, and many global electronics manufacturers are requiring their suppliers to certify that their companies' products will support their lead-free initiatives. Lead is very poisonous and is recognised as one of the most significant environmental health threats to humans. The global electronics industry has started to move towards reducing the use of hazardous substances, before local or global regulations come into force. With the announcement of lead-free initiatives across several countries, the implementation of lead-free electronic packaging is gaining momentum globally. A vast number of back-end service providers are trying to implement this, with each packaging technology being compatible with industry lead-free solders. This gives end users the flexibility to utilise and meet their needs.

The manufacturing of test probes and IC circuit test sockets is promoted by the Malaysian Industrial Development Authority. A company engaged in the manufacturing of these products is considered a high technology company in Malaysia. In addition, a high technology company must ensure that the percentage of research and development ("R&D") expenditure to gross sales should be at least 1% on an annual basis. A company has three (3) years from its date of operation or commencement of business to comply with this requirement. Also, scientific and technical staff having degrees or diplomas with a minimum of five (5) years of experience should comprise at least 7% of the company's work force.

Under the Ninth Malaysia Plan 2006-2010, the government will continue to promote the development of the electronics industry, of which the semiconductor industry is a part of, in view of its extensive linkages to the national economy. Besides attracting the multinational corporations ("MNCs"), the domestic manufacturers will be encouraged to focus on improving the sophistication level of their products, in terms of quality, functionality and design. This is to facilitate the development of the relevant skill sets and expertise, technology know-how and R&D capabilities to move the electronics industry further up the value chain. The R&D focus in the semiconductor industry is anticipated to cover fabrication, test and failure analysis, digital and analogue design of IC and advanced microelectronics.

12. SUMMARY OF INDEPENDENT MARKET RESEARCH REPORT (Cont'd)**Decide with Confidence**

Under the Third Industrial Master Plan 2006-2020, the electronics industry is envisaged to continue to grow and contribute significantly to industrial progress and transformation. The MNCs will continue to assume a significant role in increasing the technology level of the industry, in tandem with the global trend in miniaturisation and convergence of technologies in multifunctional product. Testing activities will be part of the development of the entire semiconductor value chain. Towards realising the objectives and targets set for the electronics industry, seven (7) strategic thrusts have been established and they are as follows:

- Strengthening and deepening the semiconductor industry;
- Deepening and widening the development of the information and communications technology industry;
- Intensifying R&D and design activities;
- Promoting the application of new and emerging technologies;
- Integrating the industry into regional and global supply chain networks;
- Making available a sufficient supply of highly skilled and innovative workforce; and
- Strengthening the institutional support for the development of the electronics industry.

INDUSTRY LINKAGES

A semiconductor is a material with an electrical conductivity that is intermediate between that of an insulator and a conductor. Semiconductors with predictable, reliable electronic properties are necessary for mass production. The level of chemical purity needed is extremely high as the presence of impurities even in very small proportions can have large effects on the properties of materials. A high degree of crystalline perfection is also required, since faults in the crystal structure can interfere with the semiconducting properties of the material.

In the past, semiconductor manufacturers or integrated device manufacturers (“IDMs”) used a business model whereby they owned and controlled all the processes and equipment in the vertical market segment required to design, develop, produce, test, package and ship devices to their customers. This model requires a large amount of capital and human resources and hence, tends to favour the large, well-established companies.

12. SUMMARY OF INDEPENDENT MARKET RESEARCH REPORT (Cont'd)

**Decide with Confidence**

In recent years, a new model has emerged, for a number of reasons, which segments all these different operations among many companies along the value chain. This model is called the subcontract manufacturing model. In this new model, there are two (2) main subdivisions, the design house that implements the IC design part and the foundry that does the fabrication, packaging and testing of the silicon. This model has a significant shift in expenses, with the design house having a significantly lower capital outlay expense than the foundry. This lower capital expenditure model also fuelled a number of startup IC design houses. Both are viable business models; however the subcontract manufacturing model has been growing at a faster rate than the IDM model.

Broadly speaking, the semiconductor industry can be segmented into four (4) main product categories:

- Memory: Memory chips serve as temporary storehouses of data and pass information to and from the brains of the computer devices;
- Microprocessors: They are the central processing units that contain the basic logic to perform tasks;
- Commodity ICs: Sometimes called “standard chips”, they are manufactured in huge batches for routine processing purposes; and
- Complex system on a chip: It is essentially all about the creation of an IC with an entire system’s capability on it. The market revolves around the growing demand for consumer products that combine new features and lower prices.

Typically, semiconductor manufacturing comprises the following steps:

- Production of silicon wafers from very pure silicon ingots;
- Fabrication of ICs onto these silicon wafers;
- Assembly (packaging) of every IC on the wafer into a finished product/device; and
- Testing and back-end processing of the finished product/device.

12. SUMMARY OF INDEPENDENT MARKET RESEARCH REPORT *(Cont'd)*

Decide with Confidence

The first two (2) steps form the front-end side of semiconductor manufacturing and the latter two (2) steps constitute the back-end side of semiconductor manufacturing.

The process of back-end testing involves four (4) components and they are as follows:

- ATE – the equipment used to test the devices;
- Handlers – the equipment used to handle the devices while undergoing tests;
- Machine vision inspection systems - captures the image of a device under test, analyses the image, and then provides information about the device; and
- Test probes – interconnects that connects the device under test to the test handler.

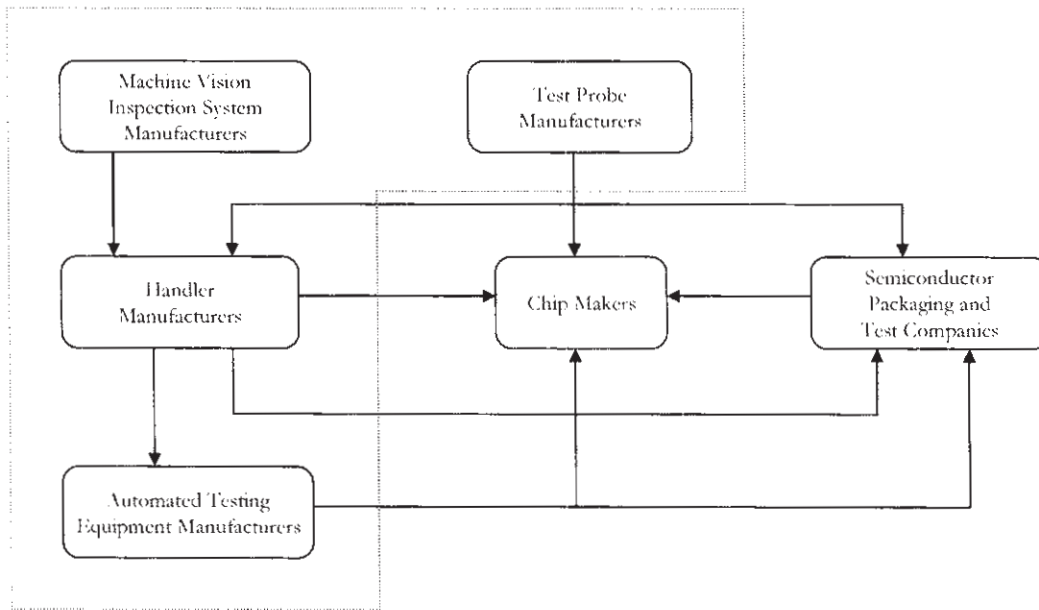

In the value chain, the test probe manufacturers work closely with the handler manufacturers, chip makers and semiconductor packaging and test companies so as to provide testing solutions to these parties. Collectively, the ATE manufacturers, test probe manufacturers, machine vision inspection system manufacturers and handler manufacturers are known as the test equipment suppliers in the value chain.

A modern ATE is a powerful computer operating under the control of a test program written in a high level language. However, different ATEs differ in their capabilities and programming languages. A modern ATE is designed to test one (1) of three (3) basic types of devices: analogue, digital or mixed signal. Once the device under test has been mounted in the ATE, three (3) things are needed to conduct the test. These are the test program, the digital test vectors and the analogue test waveforms. The test program contains the sequence of instructions that an ATE would follow to conduct testing. The test data obtained from the ATEs serves three (3) purposes. First, it helps to accept or reject the device under test. In addition, it provides useful information about the fabrication process. Lastly, it provides information about design weaknesses. Failing tests quickly point to faulty devices.

12. SUMMARY OF INDEPENDENT MARKET RESEARCH REPORT *(Cont'd)*

Decide with Confidence

The purpose of the handler is to act as an interface between the semiconductor and the ATF in order to assess the functionality of the individual chips. A high throughput rate, measurement accuracy to the thousandth of a millimetre, precision temperature accuracy and the latest in measurement technology are all important factors. The handler also communicates with the ATF, which is controlled by specific software.

The machine vision inspection system captures the image of an object being manufactured, analyses the image, and then provides information about the object. Machine vision inspection systems identify products, inspect for defects, measure part dimensions, and instruct other equipment like a robotic arm to take some actions, all at up to hundreds of parts per minute. In summary, a machine vision system involves the process of visually inspecting a component or assembly for defects and/or measurement criteria.

For the back-end (assembly and test) of most IC production facilities, test probes are a necessary link between the handlers and the ATF, in today's increasingly higher speed, higher input / output count and finer lead pitch ICs. The test probe is a physical device used to connect the electronic test equipment to the device under test.

BARRIERS TO ENTRY

The main barriers to entry for the test probe industry are as follows:

- Smaller semiconductor geometries;
- Capital-intensive nature;
- Stringent requirements needed to be on approved vendor list;
- Strong business relationships;
- Steep learning curve;
- Economies of scale; and
- High switching costs.

CRITICAL SUCCESS FACTORS

The main critical success factors for the test probe industry are as follows:

- Quality;
- Price;
- Time-to-market;
- Time-to-volume;
- Time-to-profit; and
- Sharing of test roadmap.

CHALLENGES

The main challenges for the test probe industry are as follows:

- Product miniaturisation;
- Increasing transistor density;
- Proliferation of IC packages;
- Rising consumer expectations;
- Highly cyclical semiconductor industry; and
- Technological capabilities.

MARKET SHARE

Basically the demand for test probes (both the cantilever type and pogo pin type) is a function of the growth and expansion of the semiconductor industry in Malaysia, particularly in the back-end activities. The demand or market size for cantilever type test probes (used for testing electronic transistors and ICs) is estimated at around 3.7 million pieces in Malaysia in 2006. This includes both domestically produced and imported cantilever type test probes. Based on the number of electronic transistors and ICs manufactured in Malaysia in 2006, domestically-produced cantilever type test probes accounted for 8% of the market while imported cantilever type test probes took up the remaining 92%. Out of the 8% market share held by domestic companies, JF Technology Bhd is estimated to account for a market share of 6.9% while the balance of 1.1% is manufactured by the other local companies.

Figure 3: Market Share of JF Technology Berhad

Source: D&B Malaysia

12. SUMMARY OF INDEPENDENT MARKET RESEARCH REPORT (Cont'd)

**Decide with Confidence**

On the other hand, the demand or market size for pogo pin type test probes is estimated at about 19.2 million pieces in Malaysia in 2006. Hence, the market for pogo pin type test probes is even much larger in Malaysia. Pogo pin type test probes are used in the testing of semiconductors. As pogo pin type test probes are not manufactured in Malaysia, they are all imported from overseas. In terms of unit shipment, the demand or market size for test probes, both cantilever type and pogo pin type, is estimated to expand at a compound annual growth rate of 7.5% during the period 2007-2011.

The products of JF Technology Bhd are also indirectly exported out of the country. Hence, the company caters to both the domestic and overseas markets. This is achieved through the sales of test probes to the handler manufacturers, which are original equipment manufacturers themselves. In return, the handler manufacturers sell their handler machines (which have incorporated the test probes) to the semiconductor packaging and test companies, both locally and overseas. A handler machine manufactured in Malaysia would be relatively cheaper compared to their counterparts manufactured in the western countries.

CONCLUSION

Over the last decade, rapid strides have been made in electronic systems design and integration. In parallel, research in nano technology and quantum electronics is anticipated to push digital circuit designs into new realms over the next decade. The continuing rapid advances in wafer fabrication and circuit technologies, as well as the changing nature of the electronics market create big challenges for the test probe industry. As long as there are new product designs, there will be a need for design validation testing. New processes and device structures also add new defect mechanisms that may require additional tests to detect.

12. SUMMARY OF INDEPENDENT MARKET RESEARCH REPORT (Cont'd)

Decide with Confidence

The test probe industry will need to evolve to accommodate the many trends affecting IC manufacturing today. At the same time, the cost of test must continue to decline to ensure that the tests do not become the limiting economic factor in producing next-generation devices. It is imperative that the test probes adapt to the industry roadmap for reduced contact sizes and pitches, while ensuring reliable contacts without threatening the structural integrity of the IC contacts and underlying circuitry. Promising advances in test probing technology and techniques provide the reassurance that the test probe industry is rising to meet the emerging challenges. Going forward, new advancements in superconducting materials have given rise to a new breed of products. Using materials such as gallium arsenide, silicon carbide, and now even gallium nitride, researchers have developed chips that exceed silicon in both speed and voltage. This poses a new paradigm for the test probe manufacturers.

Dear Sir / Madam,

On behalf of the Board of Directors of JF Technology Berhad ("JF Tech" or the "Company"), I report that after making due enquiries in relation to the interval between 31 October 2007, being the date to which the last audited financial statements of the Company and its subsidiaries ("JF Tech Group") have been made up, to the date of this report, being a date not earlier than fourteen (14) days before the issue of this Prospectus that:

- (i) the business of the Company and its subsidiaries, in the opinion of the Directors, has been satisfactorily maintained;
- (ii) in the opinion of the Directors, no circumstances have arisen since the last audited accounts of the JF Tech Group which have adversely affected the trading or the value of the assets of the Company or its subsidiaries;
- (iii) the current assets of the Company and its subsidiaries appear in the books at values which are believed to be realisable in the ordinary course of business;
- (iv) no contingent liabilities have arisen by reason of any guarantees or indemnities given by the Company or its subsidiaries;
- (v) there has been, since the last audited financial statements of the JF Tech Group, no default or any known event that could give rise to a default situation, in respect of payments of either interest and/or principal sums in relation to any borrowings in which the Directors are aware of; and
- (vi) save as disclosed in this Prospectus, there has been, since the last audited financial statements of the JF Tech Group, no material changes in the published reserves nor any unusual factors affecting the profits of the JF Tech Group.

Yours faithfully

15.2 ARTICLES OF ASSOCIATION

The following provisions are extracted from our Company's Articles of Association.

15.2.1 Transfer of securities

The provisions of the Articles of Association of the Company in respect of the arrangements for transfer of securities and restrictions on their free transferability are as follows:

Article 44

The transfer of any securities or class of listed securities of the Company shall be made by way of book entry by the Bursa Depository in accordance with the Rules and, notwithstanding Sections 103 and 104 of the Act, but subject to subsection 107C (2) of the Act and any exemption that may be made from compliance with subsection 107C (1) of the Act, the Company shall be precluded from registering and effecting any transfer of the listed securities.

Article 45

The instrument of transfer lodged with the Company shall be executed by or on behalf of the transferor and the transferee and the transferor shall be deemed to remain the holder of the share until the transferee's name is entered in the Register as the holder of that share and/or the Record of Depositors, as the case may be.

15. ADDITIONAL INFORMATION *(Cont'd)*

Article 46

The Directors may decline to register any instrument of transfer of shares which are not fully paid (whether these are quoted or otherwise) to a person of whom they do not approve. Subject to the Act, the Listing Requirements, the Central Depositories Act and the Rules, if the Directors refuse to register a transfer they shall send to the transferee written notice of the refusal and reasons therefore.

Article 47

The Depository may, in its absolute discretion, refuse to register any transfer that does not comply with the Central Depositories Act and the Rules.

Article 48

Subject to the Central Depositories Act and the Rules, any Member may transfer all or any of its securities by instrument in writing in the form prescribed and approved by Bursa Securities and the Registrar (as the case may be). Subject to these Articles, there shall be no restriction on the transfer of fully paid-up shares except where required by law. The instruments shall be executed by or on behalf of the transferor and the transferor shall remain the holder of the shares transferred until the transfer is registered and the name of the transferee is entered in the Register and/or Record of Depositors as the case may be, in respect thereof. All transfer of deposited securities shall be effected in accordance with the Act, the Central Depositories Act and the Rules.

Article 56

- (1) Transmission of securities from Foreign Register, where:
 - (a) the securities of the Company are listed on an Approved Market Place; and
 - (b) the Company is exempted from compliance with Section 14 of the Central Depositories Act or Section 29 of the Securities Industry (Central Depositories) (Amendment) (No. 2) Act 1998, as the case may be, under the Rules in respect of such securities,

the Company shall, upon request of a securities holder, permit a transmission of securities held by such securities holder from the register of holders maintained by the Foreign Register, to the register of holders maintained by the registrar of the Company in Malaysia ('Malaysian Register') provided that there shall be no change in the ownership of such securities.

- (2) For the avoidance of doubt, no Company which fulfils the requirements of sub-Rules (1)(a) and (b) above shall allow any transmission of securities from the Malaysian Register into the Foreign Register.

15.2.2 Remuneration of Directors

The provisions of the Articles of Association of our Company dealing with the remuneration of our Directors are as follows:

Article 111

Subject to these Articles, the fees of the Directors shall from time to time be determined by the Company in general meeting provided always:

- (1) Directors' fees payable to Directors not holding any executive office in the Company shall be a fixed sum and shall not be payable by a commission on or percentage of profits or turnover;

15. ADDITIONAL INFORMATION (Cont'd)

- (2) salaries payable to Directors holding any executive office pursuant to a contract of service need not be determined by the Company in general meeting but such salaries may not include a commission on or a percentage of turnover;
- (3) all remuneration payable to Directors shall be deemed to accrue from day to day;
- (4) fees payable to Directors shall not be increased except pursuant to a resolution passed by the Company in general meeting, where notice of the proposed increase has been given in the notice convening the meeting;
- (5) any fee paid to an alternate Director shall be agreed between him and his appointor and shall be deducted from his appointor's remuneration.

Article 112

The Directors may be paid all travelling, hotel and other expenses, properly incurred by them in attending and returning from meetings of the Directors or any committee of Directors or general or other meetings of the Company or in connection with the business of the Company.

Article 113

The Directors may grant special remuneration to any Director who (on request by the Directors) is willing to:

- (1) render any special or extra services to the Company; or
- (2) to go or reside outside his country of domicile or residence in connection with the conduct of any of the Company's affairs.

Such special remuneration may be paid to such Director in addition to or in substitution for his ordinary remuneration as a Director, and may be paid in a lump sum or by way of salary, or by a percentage of profits, or by all or any of such methods but shall not include (where such special remuneration is paid by way of salary) a commission on or a percentage of turnover.

15.2.3 Voting and borrowing powers of Directors

The provisions of the Articles of Association of our Company in respect of the powers of Directors, in particular the voting powers of Directors in proposals, arrangements or contracts in which they are interested and the borrowing powers exercisable by them and how such borrowing powers can be varied are as follows:

Article 120

Subject to the Act, the Memorandum of the Company and these Articles, the business of the Company shall be managed by the Directors who may exercise all the powers of the Company. No alteration of the Memorandum or these Articles shall invalidate any prior act of the Directors which would have been valid if that alteration had not been made. The powers given by this Article shall not be limited by any special power given to the Directors by these Articles and a meeting of Directors at which a quorum is present may exercise all powers exercisable by the Directors.

Article 126

Except as provided by Article 127, the Directors may exercise all the powers of the Company to borrow money of any sum or sums from any person, bank, firm or company and to mortgage or charge its undertaking, property and uncalled capital, and any part thereof and to issue debentures and other securities, whether as primary or collateral security for any debt, liability or obligation of the Company, its Subsidiaries or any other party. The Directors may guarantee the whole or any part of the loans or

15. ADDITIONAL INFORMATION (Cont'd)

debts raised or incurred by or on behalf of the Company or any interest payable thereon with power to the Directors to indemnify the guarantors from or against liability under their guarantees by means of a mortgage or hypothecation of or charge upon any property and asset of the Company or otherwise. The Directors may exercise all the powers of the Company to guarantee and give guarantees or indemnities for payment of money, the performance of contracts or obligations or for the benefit or interest of the Company or its Subsidiaries.

Article 127

The Directors shall not borrow any money or mortgage or charge any of the Company's or its Subsidiaries' undertaking, property or any uncalled capital, or to issue debentures and other securities whether outright or as security for any debt, liability or obligation of an unrelated third party.

Article 128

The Company shall keep a 'register of charges' in accordance with Section 115 of the Act. No fee shall be charged for any inspection of such register by a Member or a creditor of the Company.

Article 144

- (1) Subject to the Act and the Listing Requirements, and provided that he has disclosed to the Directors the nature and extent of any material interest of his, a Director notwithstanding his office:
 - (a) may be a party to, or otherwise interested in, any transaction or arrangement with the Company or in which the Company is otherwise interested;
 - (b) may be a Director or other officer of, or employed by, or a party to any transaction or arrangement with, or otherwise interested in, any body corporate promoted by the Company or in which the Company is otherwise interested;
 - (c) shall not, by reason of his office, be accountable to the Company for any benefit which he derives from any such office or employment or from any such transaction or arrangement or from any interest in any such body corporate (unless the Company by ordinary resolution determines otherwise) and no transaction or arrangement shall be liable to be avoided (whether or not such ordinary resolution is passed) on the ground of any such interest or benefit; or
 - (d) may act by himself or his firm in a professional capacity for the Company, and he or his firm (as the case may be) shall be entitled to remuneration for professional service but nothing in these Articles shall authorise a Director or his firm to act as auditor of the Company.

- (2) For the purposes of this Article:
 - (a) a general notice given to the Directors that a Director is to be regarded as having an interest of the nature and extent specified in the notice in any transaction or arrangement in which a specified person or class of person is interested shall be deemed to be a disclosure that the Director has an interest in any such transaction of the nature and extent so specified; and
 - (b) an interest of which a Director has no knowledge and of which it is unreasonable to expect him to have knowledge shall not be treated as an interest of his.

15. ADDITIONAL INFORMATION (Cont'd)

Article 145

Subject to these Articles, the Directors may regulate their proceedings as they think fit. A Director may, and the Secretary at the request of a Director shall, call a meeting of the Directors. Questions arising at a meeting shall be decided by a majority of votes. In the case of an equality of votes, the Chairman of the meeting shall (subject to Article 148) have a second or casting vote.

Article 149

All acts done by a meeting of Directors, or of a committee of Directors, or by a person acting as a Director shall, notwithstanding that it be afterwards discovered that there was a defect in the appointment of any Director or that any of them were disqualified from holding office, or had vacated office, or were not entitled to vote, be as valid as if every such person had been duly appointed and was qualified and had continued to be a Director and had been entitled to vote.

Article 151

A resolution in writing signed by a majority of the Directors for the time being or their alternates not being less than two (2) Directors shall be as valid and effectual as if it had been passed by a meeting of Directors duly called and constituted. Any such resolution may consist of several documents in like form each signed by one or more directors. Any such document, may be accepted as sufficiently signed by a Director if transmitted to the Company by telex, telegram, cable, facsimile or other electrical or digital written message purporting to include a signature of a Director but a resolution signed by an alternate Director need not also be signed by his appointor and, if it is signed by a Director who has appointed an alternate director, it need not be signed by the alternate Director in that capacity.

Article 152

Except as otherwise provided by these Articles, a Director shall not vote at a meeting of Directors or of a committee of Directors on any resolution concerning any contract, proposed contract, arrangement or other matter in which he has, directly or indirectly, a personal interest or duty which is material and which conflicts or may conflict with the interests of the Company unless his interest or duty arises only because the case falls within one or more of the following paragraphs:

- (1) in a case where the contract or proposed contract relates to any loan to the company – that he has guaranteed or joined in guaranteeing the repayment of the loan or any part of the loan; or
- (2) in a case where the contract or proposed contract has been or will be made with or for the benefit of or on behalf of a Related Corporation - that he is a director of that corporation.

A Director shall not be counted in the quorum present at a meeting in relation to a resolution on which he is not entitled to vote.

Article 153

Where proposals are under consideration concerning or relating to the terms of employment, consultancy or other services of or to be provided by Directors to or with the Company or any body corporate in which the Company is interested or other related matters, the proposals may be divided and considered in relation to each Director separately and (provided he is not for another reason precluded from voting) each of the Directors concerned shall be entitled to vote and be counted in the quorum in respect of each resolution except that concerning his own.

15.2.4 Changes in capital and variations of class rights

The provisions of the Articles of Association of our Company in respect of the changes in capital or variation of class rights which are no less stringent than those required by law are as follows:

15. ADDITIONAL INFORMATION (Cont'd)

Article 12

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class) may (subject to Sections 55 and 65 of the Act and whether or not the Company is being wound up) be varied or abrogated with:

- (1) the consent in writing of the holders of three-fourths of the issued shares of that class shall be valid and effectual as a special resolution carried at the meeting; or
- (2) the sanction of a special resolution passed at a separate general meeting of the holders of the shares of that class.

To every such separate general meeting, the provisions of these Articles relating to general meetings shall mutatis mutandis apply, except that the necessary quorum shall be two (2) persons at least holding or representing by proxy one-third (1/3) of the issued shares of the class (but so that if at any adjourned meeting of such holders, a quorum is not present, the holders present, shall form a quorum), and any holder of shares of the class present in person or by proxy may demand a poll. To every such special resolution, Section 152 of the Act shall with such adaptations as are necessary apply.

Article 13

All new issues of Securities for which listing is sought shall be made by way of crediting the securities accounts of the allottees or entitled persons with such securities save and except where the Company is specifically exempted from complying with Section 38 of the Central Depositories Act, in which event it shall be so similarly be exempted from compliance with this Article. For this purpose, the Company shall notify the Depository of the names of the allottees or entitled persons and all such particulars as may be required by the Depository to enable the Depository to make the appropriate entries in the securities accounts of such allottees or entitled persons. Notwithstanding these Articles, the Company shall comply with the provisions of the Central Depositories Act and the Rules in all matters relating to the prescribed securities.

Article 14

Subject to Section 65 of the Act, the rights attached to any class shall not (unless otherwise provided by the terms of issue of such shares) be deemed to be varied by the creation or issue of further shares ranking in any respect *pari passu* with that class.

Article 15

Subject to the Act and these Articles, any unissued shares of the Company (whether forming part of the original or any increased capital) shall be at the disposal of the Directors who may offer, issue, allot (with or without conferring a right of renunciation), grant options over, grant any right or rights to subscribe for such shares or any right or rights to convert any Security into such shares, or otherwise deal with or dispose of them to such persons at such times and on such terms and conditions as they may determine.

Article 16

Article 15 shall be subject to the following provisions:

- (1) the Company shall not offer, issue, allot, grant options over shares, grant any right or right to subscribe for shares or any right or rights to convert any security into shares or otherwise deal with or dispose of shares which will or may have the effect of transferring a controlling interest in the Company without the prior approval of the Members in general meeting;
- (2) no Director shall participate in a share scheme for employees unless the Members in general meeting have approved the specific allotment to such Director;

15. ADDITIONAL INFORMATION (Cont'd)

- (3) no shares shall be issued at a discount except in accordance with Section 59 of the Act; and
- (4) the rights attached to shares of a class other than ordinary shares shall be expressed in the resolution creating them.

Article 17

Subject to the Act and without prejudice to any rights attached to any existing shares, any share may be issued with such rights or restrictions as the Company may by ordinary resolution determine or as the Directors (subject to them being duly authorised to do so by an ordinary resolution of the Company) may determine provided that where the capital of the Company consists of shares of different monetary denominations, voting rights shall be determined in such a manner that a unit of capital in each class, when reduced to a common denominator, shall carry the same voting power when such right is exercisable.

Article 70

The Company may by ordinary resolution:

- (1) consolidate and divide all or any of its share capital into shares of larger amount;
- (2) (subject to Section 62(1) of the Act) subdivide its existing shares or any of them into shares of smaller amount;
- (3) cancel any shares which at the date of the passing of the resolution have not been taken or agreed to be taken by any person and diminish the amount of its share capital by the amount of the shares so cancelled.

Article 73

The Company may by special resolution reduce its share capital and any capital redemption reserve or share premium account in any manner authorised by law.

Article 74

Without prejudice to the rights attached to any existing shares or class of shares, the Company in general meeting may by ordinary resolution increase its capital by the creation of shares of such nominal amounts, and carrying such rights and restrictions, as the resolution specifies provided that where the capital of the Company consists of shares of different monetary denominations, voting rights (if specified in such resolution) shall be prescribed in such a manner that a unit of capital in each class, when reduced to a common denominator, shall carry the same voting power when such right is exercisable.

15.3 PROMOTERS, DIRECTORS AND SUBSTANTIAL SHAREHOLDERS

- (vi) We, MIDFCCS or the Registrar will not issue any acknowledgement of the receipt of your application or application monies.
- (vii) You must ensure that your personal particulars submitted in your application are correct and identical with the records maintained by Bursa Depository. Otherwise, your application is liable to be rejected. Bursa Depository will have to be promptly notified of any change in your address failing which the notification letter of successful allocation will be sent to your registered/correspondence address last maintained with Bursa Depository.
- (viii) Your remittances having presented for payment shall not signify that your application has been accepted. Our acceptance of your application to subscribe for or purchase the Public Issue Shares shall be constituted by the issue of notices of allotment for the Public Issue Shares to you.
- (ix) Submission of your CDS account number in your application includes your authority/consent in accordance with Malaysian laws for Bursa Depository and the Participating Financial Institution (as the case may be) to disclose information pertaining to your CDS Account and other relevant information to us, MIDFCCS, Registrar and any relevant regulatory bodies (as the case may be).

In the event that we decide to allot or allocate any lesser number of such shares or not to allot or allocate any shares to you, you agree to accept any such decision as final.

- (x) Additional terms and conditions for Electronic Share Applications are as follows:
 - (a) You agree and undertake to subscribe for or purchase and to accept the number of shares applied for as stated in the Transaction Record or any lesser amount that may be allotted or allocated to you.
 - (b) Your confirmation by depressing the key or button on the ATM shall be treated as your acceptance of the number of shares allotted or allocated to you.
 - (c) Should you be allotted any Public Issue Shares, you shall be bound by our Memorandum and Articles of Association.
 - (d) You confirm that you are not applying for the Public Issue Shares as a nominee of other persons and that your Electronic Share Application is made on your own account as beneficial owner.
 - (e) You request and authorise us to credit the Public Issue Shares allotted to you into your CDS account and to issue share certificate(s) representing those Shares allotted in the name of Bursa Depository and send them to Bursa Depository.
 - (f) You acknowledge that your application is subject to electrical, electronic, technical, transmission, communication and computer-related faults and breakdowns, fires and other events which are not in our control, or the control of MIDFCCS, the Participating Financial Institution or Bursa Depository. You irrevocably agree that you are deemed not to have made an application if we, or MIDFCCS, do not receive your application or your application data is wholly or partially lost, corrupted or inaccessible to us or MIDFCCS. You shall not make any claim whatsoever against us, MIDFCCS, the Participating Financial Institution or Bursa Depository.

16. PROCEDURES FOR APPLICATION AND ACCEPTANCE *(Cont'd)*

- (g) You irrevocably authorise Bursa Depository to complete and sign on your behalf as transferee or renounce any instrument of transfer and/or other documents required for the transfer of the Public Issue Shares allocated to you.
- (h) You agree that in the event of legal disputes arising from the use of Electronic Share Applications, our mutual rights, obligations and liabilities shall be determined under the laws of Malaysia and be bound by the decisions of the Courts of Malaysia.
- (xi) Additional terms and conditions for Internet Share Applications are as follows:
 - (a) Your application will not be successfully completed and cannot be recorded as a completed application unless you have completed all relevant application steps and procedures for the Internet Share Application which would result in the Internet financial services website displaying the Confirmation Screen. You are required to complete your Internet Share Application by the close of subscriptions.
 - (b) You irrevocably agree and undertake to subscribe for and to accept the number of Public Issue Shares applied for as stated on the Confirmation Screen or any lesser amount that may be allotted or allocated to you. Your confirmation by clicking the designated hyperlink on the relevant screen of the website shall be treated as the acceptance of the number of Public Issue Shares allotted or allocated to you.
 - (c) You request and authorise us to credit the Public Issue Shares allotted to you into your CDS account and to issue share certificate(s) representing those Shares allotted in the name of Bursa Malaysia Depository Nominees Sdn Bhd and send them to Bursa Depository.
 - (d) You irrevocably agree and acknowledge that the Internet Share Application is subject to risks of electrical, electronic, technical and computer-related faults and breakdowns, faults with computer software, problems occurring during data transmission, computer security threats such as viruses, hackers and crackers, fires, acts of God and other events beyond our control, the Internet Participating Financial Institution and/or the Authorised Financial Institution. If in any such event, we, MIDFCCS and/or the Internet Participating Financial Institution and/or the Authorised Financial Institution do not receive your Internet Share Application and/or payment, or in the event that any data relating to the Internet Share Application or the tape or any other devices containing such data is wholly or partially lost, corrupted, destroyed or otherwise not accessible for any reason, you shall have no claim whatsoever against us, MIDFCCS or the Internet Participating Financial Institution and the Authorised Financial Institution.
 - (e) You irrevocably authorise Bursa Depository to complete and sign on your behalf as transferee or renounce any instrument of transfer and/or other documents required for the transfer of Public Issue Shares allocated to you.
 - (f) You agree that in the event of legal disputes arising from the use of Internet Share Application, our Company's mutual rights, obligations and liabilities shall be determined under the laws of Malaysia and be bound by the decisions of the Courts of Malaysia.

16.5 AUTHORITY OF OUR DIRECTORS AND MIDFCCS

If you are successful in your application, our Directors reserve the right to require you to appear in person at the registered office of MIDFCCS within 14 days of the date of the notice issued to you to ascertain your application is genuine and valid. Our Directors are not responsible for any loss or non-receipt of the said notice nor shall they be accountable for any expenses incurred or to be incurred by you for the purpose of complying with this provision.

16. PROCEDURES FOR APPLICATION AND ACCEPTANCE *(Cont'd)*

Applicants will be selected in a manner to be determined by our Directors. Due consideration will be given to the desirability of allotting or allocating the Public Issue Shares to a reasonable number of applicants with a view to establishing an adequate market for our Shares.

MIDFCCS on the authority of our Directors reserves the right to:

- (i) reject applications which do not conform to the instructions in this Prospectus or are illegible, incomplete or inaccurate;
- (ii) reject or accept any application, in whole or in part, on a non-discriminatory basis without giving any reason; and
- (iii) bank in all application monies from unsuccessful/partially successful Bumiputera applicants which would subsequently be refunded without interest by registered post.

16.6 OVER/UNDER-SUBSCRIPTION

In the event of over-subscription, MIDFCCS will conduct a ballot in the manner approved by our Directors to determine acceptance of applications. In determining the manner of balloting, our Directors will consider the desirability of distributing the Public Issue Shares to a reasonable number of applicants for the purpose of broadening our shareholding base and establishing an adequate market in the trading of our Shares. Pursuant to the MMLR, at least 25% of our entire enlarged issued and paid-up share capital must be in the hands of a minimum of 1,000 public shareholders holding not less than 100 Shares upon our admission to the MESDAQ Market of Bursa Securities. We expect to achieve this at the point of Listing. In the event that the above requirement is not met, we may not be allowed to proceed with the Listing. In the event thereof, monies paid in respect of all applications will be returned without interest.

In the event of an under-subscription by the Malaysian public, all the Public Issue Shares not applied for will be subscribed by the Underwriter pursuant to the Underwriting Agreement dated 26 February 2008.

Where your successfully balloted application is subsequently rejected, the full amount of your application monies, will be refunded without interest to you within ten (10) Market Days from the date of the ballot of the application list to your address registered with Bursa Depository.

16.7 UNSUCCESSFUL/PARTIALLY SUCCESSFUL APPLICANTS

If you are unsuccessful/partially successful in your application, we will return your application monies without interest in the following manner:

16.7.1 For applications by way of White Application Form

- (i) The application monies or the balance of it, as the case may be, will be returned to you via the self-addressed and stamped White Official "A" envelope you provided by ordinary post (for fully unsuccessful applications) or by registered post to your last address maintained with Bursa Depository (for partially successful applications) within ten (10) Market Days from the date of the final ballot.
- (ii) If your application was rejected because you did not provide a CDS account number, your application monies will be sent to the address stated in the NRIC or "Resit Pengenalan Sementara (KPPK 09)" or any valid temporary identity document issued by the National Registration Department from time to time.

16. PROCEDURES FOR APPLICATION AND ACCEPTANCE *(Cont'd)*

- (iii) MIDFCCS reserves the right to bank in all application monies from unsuccessful Bumiputera applications. These monies will be refunded by registered post to your last address maintained with Bursa Depository or as per item (ii) above (as the case may be) within ten (10) Market Days from the date of the final ballot.

16.7.2 For applications by way of Electronic Share Application

- (i) MIDFCCS shall inform the Participating Financial Institutions of the non-successful or partially successful applications within two (2) Market Days after the balloting date. The application monies or the balance of it will be credited into your account with the Participating Financial Institution without interest within two (2) Market Days after the receipt of confirmation from MIDFCCS.
- (ii) You may check your account on the fifth (5th) Market Day after the balloting day.
- (iii) A number of applications will be reserved to replace any balloted applications which are rejected. The application monies relating to these applications which are subsequently rejected will be refunded without interest by MIDFCCS by way of cheques by registered post or ordinary post. The cheques will be issued not later than ten (10) Market Days from the date of the final ballot. For applications that are held in reserve and are subsequently unsuccessful (or only partly successful), the Participating Financial Institution will arrange for a refund of the application money (or any part thereof) without interest within ten (10) Market Days from the date of the final ballot.

16.7.3 For application by way of Internet Share Application

- (i) MIDFCCS shall inform the Internet Participating Financial Institution of the unsuccessful or partially successful applications within two (2) Market Days after the balloting date. The Internet Participating Financial Institution will arrange with the Authorised Financial Institution to credit the application monies or the balance of it into your account without interest or other benefit arising there from with the Authorised Financial institution within two (2) Market Days after the receipt of confirmation from MIDFCCS.
- (ii) You may check your account on the fifth (5th) Market Day from the balloting day.
- (iii) A number of applications will be reserved to replace any balloted applications which are rejected. The application monies relating to these applications which are subsequently rejected will be refunded without interest by MIDFCCS by way of cheques by registered post or ordinary post. The cheques will be issued not later than ten (10) Market Days from the date of the final ballot. For applications that are held in reserve and are subsequently unsuccessful (or only partly successful), the Internet Participating Financial Institution will arrange for a refund of the application money (or any part thereof) without interest within ten (10) Market Days from the date of the final ballot.

16.8 SUCCESSFUL APPLICANTS

If you are successful in your application:

- (i) The Public Issue Shares allocated to you will be credited into your CDS account. We will not be issuing any share certificates to you.
- (ii) A notice of allotment will be dispatched to you at the address last maintained with Bursa Depository where you have an existing CDS account at your own risk prior to our Listing. This is your only acknowledgement of acceptance of the application.

16. PROCEDURES FOR APPLICATION AND ACCEPTANCE (Cont'd)

16.9 ENQUIRIES

You may contact MIDFCCS if you have any queries on the White Application Form at 03 2173 8657/58/59.

If you have any enquiry with regards to your Electronic Share Application or Internet Share Application, you may refer to the relevant Participating Financial Institution.

If you are applying for the Public Issue Shares as a Malaysian public via the White Application Form, you may check the status of your application by logging into MIDFCCS's website at www.midf.com.my, or by calling MIDFCCS Enquiry Services at 03 2173 8657/58/59 or your ADA at the telephone number as stated in Section 15.10 of this Prospectus between five (5) to ten (10) Market Days (during office hours only) after the balloting date.
