B DISCLOSURE REQUIREMENTS AS SET OUT IN APPENDIX 9B OF BURSA MALAYSIA SECURITIES BERHAD'S LISTING REQUIREMENTS FOR THE ACE MARKET

B1 Review of performance

For the current quarter ended 31 December 2009, ICB Group recorded revenue of RM3.99 million, an increase of approximately 15% when compared to RM3.46 million in the corresponding period of the preceding year. The revenue consists mainly of the provision of technology based online advertising solutions. The lower profit before tax for the current quarter was mainly due to the increase in operating cost including staff costs, selling and marketing and other administration costs in line with the expansion plan.

The Group generated revenue of RM13.05 million and a loss before tax of RM1.5 million for the financial year ended 31 December 2009, as compared to the revenue of RM10.8 million and profit before tax of RM358,000 for the financial year ended 31 December 2008. The loss position was mainly due to the increase in operating cost especially staff costs in preparation for the regional expansion plan to maintain market leadership, increase in amortization cost, professional and consultancy fee, traveling cost to regional offices, hosting fee and various compliance costs such as annual general meeting and internal audit fee.

B2 Variation of results against immediate preceding quarter

	Current Quarter 31 Dec 2009 RM'000	Preceding Quarter 30 Sept 2009 RM'000
Revenue	3,990	3,580
Profit/(Loss) before tax ("PBT"/"LBT")	46	(375)

During the current quarter under review, the Group recorded a revenue of RM3.99 million, representing an increase of RM0.41 million or 11% as compared to a revenue of RM3.58 million in the immediate preceding quarter. The increase in revenue was in line with the seasonal nature of our business, whereby the second half of the year normally brings about relatively higher revenue performance, especially in the last quarter. This is because advertisers tend to finish their advertising budget towards the year end.

The Group recorded a PBT of RM46,000 for the current quarter as compared to a LBT of RM375,000 for the preceding quarter. In the current quarter, the Group managed to turnaround from a loss to profit position. The Group's profitable position was brought about by the higher gross profit contribution from our more profitable new products namely Performance Network which started to gain more popular acceptance among the clients during the current quarter. Increased online advertisement production from overseas subsidiaries with high gross profit margin had also contributed towards the better performance in the current quarter.

B3 Prospects for the financial year ending 31 December 2010

The Directors are of the opinion that the Group's prospects for the financial year ending 31 December 2010 would be challenging as advertisers would remain cautious in light of economic uncertainty. Although, advertisement budgets of multinational companies would generally increase in conjunction with major events such as the upcoming FIFA World Cup and Commonwealth Games, the uncertain global conditions may result in cost cutting in advertising expenses by the parent companies.
